DEPARTMENT OF CORPORATIONS AND TAXATION,  
HENRY F. LONG, *Commissioner of Corporations and Taxation*,

STATE HOUSE, BOSTON, January 31, 1933.

*To the Honorable Senate and House of Representatives.*

In compliance with the provisions of Section 29 of Chapter 58 of the General Laws, I am herewith making my annual report for the year ending November 30, 1932, for the Department of Corporations and Taxation. The report follows the provisions of Chapter 14 of the General Laws which divides the Department, in addition to the Main Office, into divisions, to be designated as the Income Tax Division, Division of Corporations, Division of Inheritance Taxes, Division of Local Taxation, Division of Accounts, and because of need from time to time as additional duties were required of the department certain other divisions and sections which it has been necessary to create. In furtherance of this the Division of Miscellaneous Taxes was established, wherein is included all taxes on banks, public service corporations and the like. Such taxes as the Insurance Tax and Gasoline Tax are not handled by any division but through the Commissioner administered separately.

## GENERAL

### CONSTITUTIONAL

Massachusetts and its political subdivisions, comprising 14 counties and 355 cities and towns, obtains the right to tax for the purpose of raising revenue for governmental activities from the following provisions of the Constitution of Massachusetts:

PART THE FIRST of the Constitution provides in Art. X. "Each individual of the society has a right to be protected by it in the enjoyment of his life, liberty, and property, according to standing laws. He is obliged, consequently, to contribute his share to the expense of this protection; . . ."

PART THE SECOND of the Constitution provides in Art. IV. "And further, full power and authority are hereby given and granted to the general court, from time to time . . . and to impose and levy proportional and reasonable assessments, rates, and taxes, upon all the inhabitants of, and persons resident, and estates lying, within the said commonwealth; and also to impose and levy reasonable duties and excises upon any produce, goods, wares, merchandise, and commodities, whatsoever, brought into, produced, manufactured, or being within the same; . . ."

Under this authority of the Constitution Massachusetts and its political subdivisions have operated for many years. It is quite similar to the provisions found in the constitutions of most of the states of the Union, and out of it grows what is usually spoken of as the General Property Tax. Out of this provision of course grows also the right to lay excises in taxing the privileges given by the sovereign. There is no other provision of the Constitution which in its original form provides for direct taxation. There is a part, however, in the Constitution, as it was originally adopted, which provides for exemptions which take on the characteristics of a tax upon the people. This is found in Chapter 5, Section I, of the Constitution which has to do with particular reference to Harvard College, under the general heading of "THE UNIVERSITY OF CAMBRIDGE, AND ENCOURAGEMENT OF LITERATURE, ETC." Under Section II of this same chapter the broad powers which Massachusetts has exercised in exempting various kinds of property from taxation are worded as follows:

"Wisdom and knowledge, as well as virtue, diffused generally among the body of the people, being necessary for the preservation of their rights and liberties; and as these depend on spreading the opportunities and advantages of education in the various parts of the country, and among the different orders of the people, it shall be the duty of legislatures and magistrates, in all future periods of this commonwealth, to cherish the interests of literature and the sciences, and all seminaries of them; especially the university at Cambridge, public schools and grammar schools in the towns; to encourage private societies and public institutions, rewards and immunities, for the promotion of agriculture, arts, sciences, commerce, trades, manufactures, and a natural history of the country; to countenance and inculcate the principles of humanity and general benevolence, public and private charity, industry and frugality, honesty and punctuality in their dealings; sincerity, good humor, and all social affections, and generous sentiments, among the people."

There have been articles of amendment to the Constitution, under Art. XXXIX of which is permitted betterment assessments on land taken by eminent domain, as follows:

"The legislature may by special acts for the purpose of laying out, widening or relocating highways or streets, authorize the taking in fee by the Commonwealth, or by a county, city or town, of more land and property than are needed for the actual construction of such highway or street: *provided, however*, that the land and property authorized to be taken are specified in the act and are no more in extent than would be sufficient for suitable building lots on both sides of such highway or street, and after so much of the land or property has been appropriated for such highway or street as is needed therefor, may authorize the sale of the remainder for value with or without suitable restrictions." (Approved November 7, 1911.)

In an effort to encourage reforestation of the land of Massachusetts, so as to take forest lands out of the General Property Tax which seemed to encourage the cutting of timber rather than to allow it to grow, there was adopted the following amendment:

"Art. XLI. Full power and authority are hereby given and granted to the general court to prescribe for wild or forest lands such methods of taxation as will develop and conserve the forest resources of the commonwealth." (Approved November 5, 1912.)

Massachusetts having found it difficult as well as apparently unfair to tax the large amount of intangible wealth present in Massachusetts under the general property tax law at the local rate, adopted the following amendment:

"Art. XLIV. Full power and authority are hereby given and granted to the general court to impose and levy a tax on income in the manner hereinafter provided. Such tax may be at different rates upon income derived from different classes of property, but shall be levied at a uniform rate throughout the commonwealth upon incomes derived from the same class of property. The general court may tax income not derived from property at a lower rate than income derived from property, and may grant reasonable exemptions and abatements. Any class of property the income from which is taxed under the provisions of this article may be exempted from the imposition and levying of proportional and reasonable assessments, rates and taxes as at present authorized by the constitution. This article shall not be construed to limit the power of the general court to impose and levy reasonable duties and excises." (Approved November 2, 1915.)

Acting under constitutional powers and following out the general idea of government as set out in the Constitution, the following have been established:

## MASSACHUSETTS GOVERNMENTAL UNITS EXISTING BY TAXATION

|                          |                               |
|--------------------------|-------------------------------|
| City Governments         | Reclamation Districts         |
| Town Governments         | District Enjoying Betterments |
| Metropolitan District    | Transportation Areas          |
| Fire and Water Districts | County Governments            |
| Improvement Districts    | State Government              |

These political subdivisions obtain their revenue from the following:

## MASSACHUSETTS SUBJECTS OF TAXATION

*Polls*

*Old Age Assistance Tax (Head Tax)*  
*(Temporary — 1931, 1932 and 1933)*

*Property Taxes*

|                            |                              |
|----------------------------|------------------------------|
| Real Estate                | Intangible Personal Property |
| Tangible Personal Property |                              |

*Excise Taxes*

|  |   |
|--|---|
| Foreign and Domestic Business Corporations (Foreign and Domestic Manufacturing Corporations — Securities Corporations) | Stock Transfers                             |
| Public Service Corporations  | Legacies and Successions                    |
| National Banks   | Estates (80 per cent Federal Tax)           |
| Trust Companies  | Registered Motor Vehicles (Use of highways) |
| Savings Banks  | Gasoline (Privilege of Registration)        |
| Savings Departments of Trust Companies   | Incorporated Investment Trusts              |
| Insurance Companies  | Fees  |
| Savings Bank Life Insurance  | Licenses                                    |
| Massachusetts Hospital Life Insurance Company  | Betterment Assessments                      |
|  | Fines                                       |
|  | Tax in Districts                            |
|  | Sales of Property                           |
|  | Charges for Governmental Activities         |

Under the powers granted the following become

## MASSACHUSETTS DIRECT TAX PAYERS

|              |                        |
|--------------|------------------------|
| Individuals  | Voluntary Associations |
| Partnerships | Corporations           |
| Fiduciaries  | Estates                |
| Trusts       |                        |

These people bear what can be called the

## MASSACHUSETTS BURDENS OF TAXATION

|                   |                                  |
|-------------------|----------------------------------|
| Direct Taxes      | Betterment (Special) Assessments |
| Fees and Licenses | Exemptions                       |
| Excises           | Borrowings                       |

In this report an attempt is made to indicate how these burdens are being distributed by the use of tables or corresponding statistical information. The tables and the statistics will be found under the appropriate division of the departmental work. The exemptions which come to the cities and towns as well as to the State and the counties are largely included in Table N and in Table O. (The pages upon which these tables are to be found as well as the other tables quoted can be easily ascertained by reference to the Index in the last pages of the book under the title "Tables.")

The aggregate of municipal indebtedness — general and enterprise debt, and comparisons, together with the net debt as of January 1, 1932, and ratio of net debt to valuation as of cities and towns, are found in Tables H, I, J, K, L and M.

The cost of government in these various governmental units and the sources of revenue will be found in Tables 1, 2, 3, 4, 5, 6, 7, 8, 9 and 10.

Table 2 of this group contains a column dealing with "*Ability to Pay*."

In addition to these tables which are of general interest, there will be found tables dealing with particular kinds of taxes, as follows:

|          |                                    |
|----------|------------------------------------|
| Table 11 | National Banks and Trust Companies |
|----------|------------------------------------|

- Tables 12 and 13 Savings Banks and Savings Departments of Trust Companies.  
 Table 14 Income Tax.  
 Tables 15 and 16 Foreign and Domestic Business Corporations.  
 Table 17 The Reimbursement which is given by the Commonwealth to Cities and Towns for Taxes lost on Land held by State Institutions.  
 Table 18 Assessed Valuation of Municipalities together with Revenue Distributed by the Department, Property Exempt from Taxation, Equalization of Property for State Tax Purposes, the State Tax, and the County Tax.  
 Table 19 The local situation in respect to Tax Rates, Direct Tax Valuation, Population, Per Capita Valuation and Per Capita Direct Tax.  
 Table 19A Old Age Assistance Special State Tax by Towns.  
 Table 20 Number of Tax Titles reported as held by each Municipality.  
 Table 21 The value of Real Estate and Tangible Personal Property over a period of years, together with State, County and Local Taxes.  
 Table 22 The Collection of Overdue Taxes.  
 Table 23 The Direct Tax on Municipalities together with Bonds required.  
 Table 24 Statistics of Various Kinds of Tangible Personal Property and Real Estate which is Assessed for Purely Local Purposes. (Not printed in 1932 report.)  
 Table 25 Increase and Decrease of detail of Taxable Estate of the current year as compared with previous years. (Not printed in 1932 report.)  
 Table 26 Municipal Determination of current Tax Rates, with Appropriations, Receipts Used, and Free Cash Used.  
 Table 27 Uncollected Taxes of Cities and Towns and Betterment Assessments as of January 1, 1932.  
 Table 28 Polls, Property and Taxes; 1905 to 1931 aggregates, inclusive. (Not printed in 1932 report.)  
 Table 29 Revenue for Current Charges, together with Current Charges against Revenue for the years 1929 and 1930.  
 Table 30 General Loans and Temporary Loans for a Series of Years.

The total assessments for certain years laid by the Commissioner of Corporations and Taxation will be found in Table A. Table B gives collections for the current fiscal year. Table BB gives detail of collections with Table C giving the taxes and revenue for that period. Table D shows the distribution of corporation taxes. Table E shows the distribution of the national bank and trust company taxes. Table F shows the distribution to the cities and towns of the proceeds of the income tax.

## CONSTITUTIONALITY OF THE SALES TAX IN MASSACHUSETTS

*To the Honorable the Senate of the Commonwealth of Massachusetts:*

The Justices of the Supreme Judicial Court respectfully submit these answers to the questions set forth in an order adopted on April 5, 1933, and transmitted to them on April 7, 1933, copy whereof is hereto annexed.

The main inquiry raised by the order in its questions numbered one, two and three, as applied to the accompanying bills, is whether it is within the competency of the General Court to levy a duty or excise on sales of produce, goods, wares, and merchandise. Each of these bills, by title or by terms, concerns sales at retail.

The powers of taxation in c. 1, § 1, art. 4, of the Constitution are in these words: "full power and authority are hereby given and granted" to the General Court "to impose and levy proportional and reasonable assessments, rates, and taxes, upon all the inhabitants of, and persons resident, and estates lying, within" the Commonwealth and "to impose and levy reasonable duties and excises upon any produce, goods, wares, merchandise, and commodities, whatsoever, brought into, produced, manufactured, or being within the" Commonwealth. The questions relate solely to "duties and excises" and therefore only that part of the grant of power to tax need be considered. It is not necessary to examine art. 44 of the Amendments to the Constitution, relative to taxation of incomes, because none of the questions touch that subject, although House bill No. 1055 appears to have some connection with it. The grant of "full power and authority" is comprehensive. It does not easily lend itself to implied exceptions, although it must be limited in construction

so as to be in harmony with other equally mandatory provisions of the Constitution. The competency of the General Court to exercise taxation is therefore of broad import. It is thus empowered to impose and levy "reasonable duties and excises." When the word "duties" was adopted as a part of the Constitution, Massachusetts was an independent State with only the loose connection with the other original States afforded by the Articles of Confederation, and it remained such independent State until it ratified the Constitution of the United States and that instrument became established, in accordance with its art. 7, in 1788. Construed in the light of those facts, "duties" included at least the power to collect revenue from goods imported into and exported from Massachusetts, a power surrendered to the United States by art. 1, §§ 8 and 10 of the Federal Constitution. It is not necessary to consider whether it may have a wider meaning because we are of opinion that the proposed tax falls within the description of "excises." The term "excise" was said in *Portland Bank v. Apthorp*, 12 Mass. 252, 256, to be "of very general signification, meaning tribute, custom, tax, tollage, or assessment"; in *Oliver v. Washington Mills*, 11 Allen, 268, 274, to be "a fixed, absolute and direct charge laid on merchandise, products or commodities, without any regard to the amount of property belonging to those on whom it may fall, or to any supposed relation between money expended for a public object and a special benefit occasioned to those by whom the charge is to be paid"; and in *Minot v. Winthrop*, 162 Mass. 113, 119, it was stated that "The excises to which the inhabitants of the Province of Massachusetts Bay were accustomed were taxes in the nature of license fees for carrying on certain kinds of business, taxes on the sale of goods, wares, and merchandise, such as intoxicating liquors, tea, coffee, and chocolate, china ware, etc., and stamp taxes on legal papers." In *Pacific Insurance Co. v. Soule*, 7 Wall. 433, at 445, occurs this language: "Excise is defined to be an inland imposition, sometimes upon the consumption of the commodity, and sometimes upon the retail sale; sometimes upon the manufacturer, and sometimes upon the vendor. [Bateman's Excise Law, 96; 1 Story's Constitution, § 953; 1 Blackstone's Commentary, 318; 1 Tucker's Blackstone, Appendix, 341.]" *Patton v. Brady*, 184 U. S. 608, 617-618. *Opinion of the Justices*, 220 Mass. 613, 618-619. Excises have also been defined as "taxes laid upon the manufacture, sale or consumption of commodities within the country, upon licenses to pursue certain occupations, and upon corporate privileges." Cooley on Taxation (4th ed.) § 42. Without attempting to lay down a precise definition of "excises," it is apparent from what has been said that the proposed tax falls within the kind of exaction of public revenue included within that word in the Constitution.

The words descriptive of the subjects upon which reasonable "excises" may be imposed and levied are "any produce, goods, wares, merchandise, and commodities, whatsoever, brought into, produced, manufactured, or being within" the Commonwealth. The word "commodities" in this connection may have a broader significance than the other words used in conjunction with it, although in common speech it frequently is used in a sense nearly if not quite identical with them. The interpretation of that word has been discussed several times and has been found to involve difficulties. *Portland Bank v. Apthorp*, 12 Mass. 252. *Gleason v. McKay*, 134 Mass. 419, 425. *O'Keeffe v. Somerville*, 190 Mass. 110, 112-113. *Opinion of the Justices*, 195 Mass. 607, 614; 196 Mass. 603; 247 Mass. 589, 593; 266 Mass. 590. The scope of that word need not here be considered. It is manifest from the tenor of the questions in the order, read in the light of the accompanying bills, that the inquiry is limited strictly to sales of tangible personal property, and does not include sales of other property which would fall within the broad definition of "commodities." It is assumed, also, that sales of gasoline are excluded from the scope of the questions because no reference is made in any of the bills to the provisions of G. L. (Ter. Ed.) c. 64A, levying a tax on sales of that article based on number of gallons sold, although it may be open to doubt whether all the accompanying bills make this omission clear. The words "produce, goods, wares, merchandise" are inclusive enough in their meaning according to the approved usage of the language to comprise all articles of tangible personal property usually sold at retail.

The questions and the accompanying bills make clear that the proposed excise is to be levied not upon personal property which is static, but upon a change in its

location or a movement in trade wrought by a transfer of title. It is not levied upon the mere ownership, or the right to hold and possess property, or the exercise of what frequently are termed natural rights. *Opinion of the Justices*, 195 Mass. 607, 614; 196 Mass. 603, 622, 619; 208 Mass. 616, 618–619; 247 Mass. 589. An excise upon sales of tangible personal property based upon a percentage of the sale price bears some resemblance to a property tax; but we think that its dominant feature in the present connection is the change of title and possession necessarily involved in the sale, and not the value, of the property. In this respect it is analogous to the excise on legacies and successions, which is based upon the value of the property, and to the excise on the franchises of domestic corporations under earlier statutes. The context in which the word “excises” occurs in c. 1, § 1, art. 4, of the Constitution renders that kind of a tax appropriately operative upon a change in the location and title of tangible personal property, such as accompanies a sale. Although the quoted words of art. 4 indicate that an excise upon tangible personal property brought across the frontier or State line in consequence of or preliminary to sales was contemplated when the Constitution was adopted in 1780, such sales are expressly excluded from the operation of two of the proposed bills accompanying the order. It is assumed that the questions are based upon the implication that sales in interstate or foreign commerce, not within the taxing power of the Commonwealth under the Federal Constitution, are not contemplated in any proposed legislation. *Brown v. Maryland*, 12 Wheat. 419. *Fairbank v. United States*, 181 U. S. 283, 294–300. The quoted words from art. 4 immediately follow a grant of power “to impose and levy proportional and reasonable assessments, rates, and taxes” upon inhabitants, residents and property. They are designed to be a grant in addition to that previously conferred. They relate to the great sovereign function of taxation upon which government must depend for its support. They are to be interpreted in accordance with the common understanding of voters at the time of their adoption. Thus construed, the words extend to the exercise of the incident of ownership of the designated personal property manifested by the transfer of title and delivery of possession inevitably associated with a sale.

This power to levy an excise need not be confined to a fixed exaction on every transfer, but may be based upon a reasonable percentage of the sale price. It does not thereby become a property tax, provided in size and nature it conforms to the general conception of an excise. *Perkins v. Westwood*, 226 Mass. 268. *Opinion of the Justices*, 195 Mass. 607; 220 Mass. 613. We think that it makes no difference whether the burden of the excise rests finally upon the buyer or upon the seller. *Hart Refineries v. Harmon*, 278 U. S. 499. *Gregg Dyeing Co. v. Query*, 286 U. S. 472.

As matter of construction of language and interpretation of words, we are of opinion that the power to impose an excise upon sales of tangible personal property is conferred upon the General Court. This conclusion finds support by comparison with similar words in the Federal Constitution and decisions touching their meaning.

The words of c. 1, § 1, art. 4, of the Constitution of the Commonwealth, already quoted, are seemingly as broad in respect to excises as those in art. 1, § 8 of the Constitution of the United States, whereby Congress is given power “to lay and collect . . . duties, imposts and excises . . . uniform throughout the United States.” That power has been held to include an excise upon the sale of property; *Nicol v. Ames*, 173 U. S. 509; *Thomas v. United States*, 192 U. S. 363, 370; *American Manuf. Co. v. St. Louis*, 250 U. S. 459, 463; the gift of property, *Bromley v. McCaughn*, 280 U. S. 124, 136–137; and the manufacture and sale of specified property, *McCray v. United States*, 195 U. S. 27. In *Thomas v. United States*, 192 U. S. at 370, it was said of those words of the Federal Constitution, “they were used comprehensively to cover customs and excise duties imposed on importation, consumption, manufacture and sale of certain commodities, privileges, particular business transactions, vocations, occupations and the like. Taxes of this sort have been repeatedly sustained . . . As in *Hylton v. United States*, 3 Dallas, 171, on the use of carriages; in *Nicol v. Ames*, 173 U. S. 509, on sales at exchanges or boards of trade; in *Knowlton v. Moore*, 178 U. S. 41, on the transmission of property from the dead to the living; in *Treat v. White*, 181 U. S. 264, on agreements to sell shares of stock denominated ‘calls’ by New York stock brokers; in *Patton v.*

*Brady*, 184 U. S. 608, on tobacco manufactured for consumption." *Barclay & Co. v. Edwards*, 267 U. S. 442, 450.

Since none of the proposed bills accompanying the order levy an excise on the consumption, or to be exacted at the time of consumption, of produce, goods, wares, or merchandise, question three is construed as not requiring consideration or answer concerning that factor. *Opinion of the Justices*, 148 Mass. 623; 261 Mass. 556, 612. Thus construed, questions one, two and three of the order are answered in the affirmative.

The fourth question relates to legislative power to regulate sales of tobacco to the extent of requiring registration of dealers and imposing an excise in the form of a substantial fee upon the privilege of registration as an essential prerequisite to making sales. Other words of the Constitution bearing upon this inquiry are that "full power and authority" are granted to the General Court "from time to time to make, ordain, and establish all manner of wholesome and reasonable orders, laws, statutes and ordinances, directions and instructions" not repugnant to its other provisions. C. 1, § 1, art. 4. This is language of broad import. It includes the exercise of the police power. The policy of courts has been not to limit that power by attempts to define it. Necessary and lawful business of a nature liable, in the absence of regulation and supervision, to harm the public health, the public safety, or the public morals, may be required to be licensed. It is common knowledge that the use of tobacco by youth is regarded as deleterious. Sales or gifts of tobacco in its various forms to persons under certain ages are prohibited under penalty by G. L. (Ter. Ed.) c 270, § 6. Legislation of this nature has been adopted in several of the States. So far as we are aware, it has always been upheld against assaults upon its constitutionality. In *Packer Corp. v. Utah*, 285 U. S. 105, 108, it was said in substance and effect that it could not be successfully denied that the State may, in the exercise of the police power, regulate the business of selling tobacco products. The ground upon which such statutes have been upheld is that tobacco is an article of such characteristics that it is within the province of the Legislature to say under what conditions it may be sold or to prohibit its sale entirely in certain forms for the protection of public health and public morals. *Gundling v. Chicago*, 177 U. S. 183, 188. *Austin v. Tennessee*, 179 U. S. 343, 348.

The selection of dealers in tobacco from among other dealers as subject to license is a permissible classification and is not arbitrary or capricious.

We are of opinion that the regulations suggested by question four come within the lawful exercise of the police power. *Watertown v. Mayo*, 109 Mass. 315. *Commonwealth v. Strauss*, 191 Mass. 545. *Lawrence v. Board of Registration*, 239 Mass. 424. *Commonwealth v. National City Bank of Boston*, 280 Mass. 439.

The reasons already stated in answering questions one, two and three show that an excise in way of license fee lawfully may be laid upon vendors of tobacco measured by a percentage on sales.

A requirement that those who dispense or deal in beverages shall be registered and pay a license fee stands in its constitutional aspects upon the same footing as a similar requirement as to tobacco. Beverage in its common meaning signifies a liquid designed for drinking by human beings. Supervision and regulation of persons by whom, and conditions under which, beverages are sold and dispensed may be thought to have close connection with the public health. Cleanliness and purity of the liquids and of the places where they are kept and sold may be regarded as necessary to the innocuous use of beverages.

Questions four and five are answered in the affirmative.

These answers have been confined to the questions and do not extend to the details of proposed bills. *Opinion of the Justices*, 239 Mass. 606, 612. The suggestion is ventured, however, that in two drafts of bills printed in House Document No. 410 there is provision to the effect that the proposed excise is in lieu of local property tax. Whether such provision would be valid may be open to grave doubt. *Opinion of the Justices*, 195 Mass. 607; 208 Mass. 616; 220 Mass. 613. *Perkins v. Westwood*, 226 Mass. 268.

## MASSACHUSETTS TAX COLLECTION

It has always seemed to be the common belief that cities and towns were at all times in the possession of plenty of money. This may have been due to the fact that municipalities appeared to be able to have anything the voters indicated a desire for from a new piece of fire-fighting apparatus to an extensive sewerage system, or to the fact that when a bill was presented to the local treasurer for supplies or labor payment was made at once, as was also true when payment for services as a school teacher, police officer or other employment was requested. The certainty of receiving money from the municipal treasury when required was not unlike the certainty one felt of getting a glass of water by turning the handle of a faucet.

The discovery that water did not flow was to learn that unless a supply of water constantly replenished was maintained back of the faucet the glass of water was not a certainty. The discovery that accounts were not paid when presented to the local treasurer was to learn that unless a supply of money constantly replenished by the paying of taxes was maintained back of the treasurer the settling of obligations was not a certainty. The supply necessary to make the faucet a certainty is furnished by nature as availed of by man. The supply necessary to make the treasurer's window a certainty is furnished by man as aided by instrumentalities developed by man and efficiently operated by man.

The people in town meeting or through their representatives in City Governments determine what they will spend for Governmental activities. The assessors determine the local tax rate, a function that is as distinctly theirs as is the valuation of real estate and tangible personal property. The assessors calculate the amount each taxpayer must pay in order to meet the Governmental demands for a current calendar year as expressed by the people, and commit a list of taxpayers, showing the amounts they are to pay, to the local tax collector with a warrant which, to satisfy, requires that the collector collect the sums required from each taxpayer and turn the amount collected into the town treasury. Upon the shoulders of the tax collector rests the credit of the municipality as well as the permanent functioning of all local activities.

In this State tax collectors upon appointment or election must qualify for their duties by taking an oath of office and by the furnishing of a surety company bond in an amount sufficient to guarantee the city or town that the collector will faithfully perform the duties he has assumed. The assessors cannot commit any taxes for collection until the collector is fully qualified and his surety company bond approved.

Upon the commitment of the tax list to him the collector has but the duty to collect the amounts indicated by the assessors as being due from the taxpayers named. He has no authority to delay tax collections or favor one over another. He is not subject to any control except the statutory control governing his procedure. Upon receipt of the tax list and warrant he must send a tax bill to each person listed. He does not have to concern himself with the amount or the legality of the tax. Those are matters that the law says he is not to be held responsible for.

The law presents the form of tax bill he sends out, the date of it, the time when it is to be due and the manner of collection. He has but to follow the law and he is safe. If he fails to follow the law or permits some other officer, board, Mayor or Selectmen to direct what he shall do in tax collection he puts himself in personal jeopardy and threatens the credit structure of his municipality.

The law prescribes the number of days given each taxpayer to pay the tax due, and requires in every case the collector of taxes must give the legal demand for taxes set up in the law to each taxpayer 14 days before summary proceedings are commenced.

The collector must deposit with the treasurer all sums collected at least once each week.

All experiments in curtailing the power of collectors have resulted in their abandonment because it soon became evident that Government ceased to function once the revenue flow stopped. It also has over and over been demonstrated that taxes are not paid unless there is compulsion backed with ample authority to force payment if there is noncompliance with the tax law.

The collector of taxes has always had the power to arrest where a taxpayer refused to pay, or did not have goods that could be seized to satisfy the tax.

In later years the power to hold real estate for the tax was introduced. This method of collection has been changed from time to time and at present means but the continuation of a lien for a stated period.

The so-called prosperous municipalities found a ready flow of revenue without much exertion on the part of the collector of taxes. The situation seemed ideal. People were getting more out of the local Government than was true at any other time in the history of the community. The supply of money was constant. The faucet had but to be turned and abundant revenue poured forth. Money was not difficult to borrow and the easy-going tax collector had but few worries. A poor collector seemed to be as effective for a city or town as a good one.

The year 1929 came and the tide of municipal prosperity seemed to mount higher, but before the year 1930 was well advanced the cities and towns sensed that the happenings of October, 1929, were of concern to municipal continuation, and by 1931 and 1932 the shoe began to pinch. The test of the good tax collector or the poor tax collector was about to be made. The large lenders of money became more cautious. There was less money seeking municipal notes. The taxpayers began to sense the cost of the situation into which they had allowed themselves to be drawn by the thought of continued prosperity. Where all had been free in spending all became anxious to reduce their own tax burden. The many efforts to straighten affairs tended to reveal to all the truth that local Government must go on and that the indiscretions of the past must be paid for before any permanent relief could come. Borrowings of the past must be liquidated, at least a skeleton form of local Government maintained and a heavy welfare charge satisfied.

The collector of taxes stood out as the one hope. Where his taxes were fully collected the credit of the municipality was secure. When his taxes were badly delinquent the credit of his city or town was almost gone.

Massachusetts is better off than other States but it still is, in many of its political subdivisions, in a sad way. The lenders of money some months ago demanded an accounting as to delinquent taxes. The collectors that made a poor showing as to collections were the cause in large part of their community getting no loans to run their affairs until taxpaying time. These communities started the payless pay days that have spread to about 70 cities and towns and which are the means of disclosing to the many that back of the treasurer's window must be substance or local Government ceases to pay for its activities and may cease to function. Collectors who have been negligent find themselves unable to collect because the practices of the past cannot be easily changed and the taxpayer being less able to pay cannot establish a practice not acquired in prosperous times.

The poor collector finds he cannot get a surety company bond because they have awakened to past indiscretions and refuse bonds except on the best of risks and where the collector has no outstanding taxes of any amount beyond the year just past. The collector finds that, where formerly he had about 21 or more surety companies to which he could apply for a bond, less than one-third are now willing to consider him as a risk and then only if he can show with past actions that he has faithfully discharged his duties by collection and prompt turning over of tax money to the treasurer.

The tax collector who has made himself a good fellow by allowing taxes to run now finds that he must stand the punishment and, on failing to get a bond, surrender his position and become personally liable for the delinquent taxes.

A survey of the cities and towns in Massachusetts indicates that many of them are in distress because the taxpayers have never been encouraged to pay taxes when due, and that many cities and towns are riding out the storm because through constant intelligent pressure by the tax collector they have acquired the taxpaying habit and by so doing established and maintained a splendid local credit structure. The cities and towns that show a prompt taxpaying habit also show a better control of local costs perhaps because the discomfiture of tax paying has prompted a more careful watchfulness over the expenditure trends of their local communities.

The collector in this picture stands as the one upon whom all must rely to restore the cities and towns to a proper credit base. If tax collections can be made but little borrowing will be needed. If borrowing is needed the fact that taxes are collected will insure an opportunity for borrowing and at favorable rates. If leniency in tax collection is shown the collector personally is liable and does it at

his own peril. The day of the lax tax collector is probably numbered. The surety companies can no longer take the risks of a few years ago and have already advised that if tax collections are slow a bond will not be issued. The lenders of money take a similar attitude.

The collector is obligated to collect real estate taxes within one year but to protect the municipality the lien is extended. In the event the tax is unpaid the collector advises by advertisement that he is going to extend the lien as permitted by law for a further two-year period. This is the so-called tax sale but it merely extends the lien if the city or town takes at the tax sale and merely sells the lien for the tax and charges to an outsider if such a one purchases. Neither the town or city or the purchaser has any rights in the real estate except that before good title is given the lien must be removed by paying the amount accumulated. There is no right of entry or possession conveyed and the delinquent taxpayer cannot in any way be molested in the free use of the real estate. There is a requirement that at the end of two years foreclosure can be had either by the municipality or an outside purchaser provided during the two-year period the delinquent taxpayer has not redeemed his property by paying the charges accumulated.

If the municipality forecloses it can, after getting good title, sell the property and thus many months after the time when the tax was due get more money into the local treasury. The collector clears his warrant through these so-called tax sales, because when an outsider purchases he receives money to satisfy his warrant and where the municipality takes he is credited by the local treasurer, who sets up a tax title account on his books and who must, at the expiration of two years, foreclose, unless redemption is made by the delinquent taxpayer. The collector, in addition to clearing his warrant by cash collections or tax sale, can also get clearance by abatement of taxes by the Board of Assessors. His warrant must, however, be cleared before he is in good standing. Existing legislation permits borrowing by municipalities outside the debt limit to an amount not exceeding the tax title account, on the theory that the tax titles will be good and that the liquidation of the loan is secured. Proposed legislation will permit an extension to three years for redemption where the delinquent taxpayer can pay partially toward redemption. Existing law permits the partial payment of taxes. In the event the tax collector allows the period of lien to run and loses for the town the security for the real estate tax, he becomes personally liable and the municipality can proceed against the surety company.

In cities and towns where through a long period the collection of taxes has been in efficient hands the prompt enforcement of existing law has not troubled the taxpayer. In these communities it has become the custom to pay taxes when due and to realize that no one was to be favored over another. These cities and towns are the ones upon which the credit of Massachusetts rests. Those cities and towns that have not acquired the habit of prompt taxpaying are finding their tax collectors unable to get bonds and the city or town deprived of current tax money and with no ability to borrow. These cities and towns offer no credit upon which the Commonwealth can borrow. The tax collector who has been negligent in his duties and lenient to the taxpayer now finds himself at the end of the road. He wishes now that he had followed the law which was laid down by the voice of the people and developed as for the best interest of all the people. The particular faucet he was to keep effective is not operating and his entire community suffers in loss of necessary government.

## STATEMENT OF PRINCIPLES

### JOINT STATEMENT

The New England State Tax Officials emphatically reiterate the Statement of Principles issued by them November 20, 1931. They strongly approve the leadership developed by the New England Council in arousing the citizens to the value of intelligently directed co-operative effort between business men and others acting through local associations upon the one hand and governmental agencies upon the other with a view to co-ordinating and restricting the activities of government to the extent necessary to bring its cost within the capacity of the taxpayer to bear the burden. We view with apprehension any movement for special tax reduction which selfishly directed is likely to result in accumulated burdens

as noxious as the numerous movements of the past which have injected costly paternalistic activities into the permanent program of governmental expenditures. We appreciate the lack of any general consensus of opinion as to what the many governmental units should attempt by way of service and the absence of definite information as to the capacity of the citizen to contribute sufficient money to meet needs imposed by concepts that vary greatly. We are of opinion that those functions that government performs best for the benefit of the people will be wholeheartedly supported by the citizens even at personal sacrifice. We are disturbed by the growing evidences of diminishing capacity on the part of existing taxpayers to sustain the cost of government as now established. We are also greatly concerned by the dwindling number of taxpayers and the evident disregard of the seriousness of the tax problem on the part of numerous groups who vigorously resist any spreading of the tax burden through the introduction of new types of revenue as well as on the part of those groups who resist readjustment or co-ordination in the particular form of governmental activity in which they are especially interested. We favor curtailment of the already too widely extended policy of tax exemptions. We sense even more than in the past the handicap in some of the states to those seeking a correct solution by the absence of any universally available information as to governmental costs and the absence of any established activity that has for its objective the collection of facts accessible to all which will disclose not only the resources of the governmental units but also their probable obligations by commitments on account of borrowings or by established governmental functions. We are of opinion that the ability to continue to discharge through tax payments the cost of government as now conducted is beyond the immediate prospective capacity of existing taxpayers and that a continuation of the present levels of governmental costs will terminate in confiscation of tangible property and the diminution of personal income and capital not now subject to tax. We are convinced that a general blanket plan of adjustment cannot meet the present conditions as we see them, but are of opinion that several plans must be developed in order to solve properly the multiple problems obviously presented.

Many municipalities are still reasonably capable of carrying forward the conservative governmental activities which they have created and these will not need assistance provided no additional compulsory requirements are thrust upon them through legislation. The municipalities that have used reasonable prudence in spreading their tax spending base but are meeting obligations out of accumulated capital need immediate aid in a definitely established policy that will assure alleviation of compulsory governmental expenditures already embedded in their budget requirements and a readjustment of the tax sources. The municipalities that because of economic or other avoidable or unavoidable conditions have widely spread their tax spending base and are deeply involved both as to debt and current requirements need immediate aid in controlled activities in order to prevent the complete breakdown of their local governments.

We are firm in the belief that only through an intelligently directed educational campaign, having for its objective the disclosure to all citizens of the collective capacity to pay and the presentation of what absolutely essential needs of government are possible with the resources available, can the situation at present threatening in many municipalities be stayed and local governmental disaster averted. ## NATIONAL BANK TAXATION

National banks were established by act of Congress in 1863, for the purpose of extending the market for United States bonds, and at the same time providing a safe and uniform national currency, and establishing agencies which would serve the Government as depositaries and financial agents, especially in facilitating the collection of its internal revenue and the transfer and disbursement of public moneys. The original act made no provision for the taxation of national banks by the States, and as national banks were instrumentalities of the National Government, under the decision of the Supreme Court in *McCulloch v. Maryland* (4 Wheat. 316) and later cases, the States had no power to tax them at all.

In 1864, the statute which later became section 5219 of the Revised Statutes was enacted, and the States were for the first time granted power to tax national banks. This statute in effect provided that nothing in the national banking act should prevent the State in which a national bank was located from taxing the shares of national banks "but not at a greater rate than is assessed upon other moneyed capital in the hands of individual citizens of such State." The statute also permitted the States to tax the real estate of national banks to the same extent as other real estate was taxed; but the latter provision has caused little controversy and need not be further considered.

It cannot be too strongly emphasized, since the contrary is so often assumed, that section 5219 does not throw a mantle of protection around national banks which they would not otherwise have. National banks, as Federal instrumentalities, would be entirely exempt from State taxation but for section 5219; and that section gives the States a privilege which has been granted by Congress with respect to few other Federal instrumentalities.

In *People v. Weaver* (100 U. S. 539) the Supreme Court said (at p. 543):

As Congress was conferring a power on the States which they would not otherwise have had, to tax these shares, it undertook to impose a restriction on the exercise of that power, manifestly designed to prevent taxation which should discriminate against this class of property as compared with other moneyed capital.

The Supreme Court soon made the distinction that taxation need be equal only between national banks and other moneyed capital coming into substantial competition with the national banks. As time has gone on, many of the States desired to adopt what is known as the special levy for intangibles (meaning money and credits), taxing them at a very low rate in order to get the owner to return them for taxation. Where this method of taxing intangibles resulted in a great discrimination between national bank shares and large amounts of capital used in competition with the national banks in discounting paper, in making large loans, and like operations, the discrimination was such that the courts declared that the taxation of national banks in those States was void as being a violation of this clause against discrimination. The Supreme Court has passed on many other cases dealing with these questions, and has laid down principles which should guide us in our thinking and acts. They have recognized the classification of financial institutions and financial operations that are clearly competitive, and a tax discriminating in favor of them invalidates the tax on the national-bank shares. They used this language in the case of *First National Bank v. Hartford*:

But this court has recently had occasion, in reviewing the earlier decisions dealing with this subject, to point out that the requirements of approximate equality in taxation are not limited to investment of moneyed capital in shares of State banks or to competing capital employed in private banking. The restriction applies as well where the competition exists only with respect to particular features of the business of national banks or where moneyed capital "is employed, substantially as in the loan and investment features of banking, in making investments by way of loan, discount, or otherwise, in notes, bonds or other securities, with a view to sale or repayment and reinvestment." (273 U. S. 548, 556.)

On page 558 of the same volume and case, they adverted to the fact that now that national banks are permitted to invest in real estate mortgages, people engaged in real estate mortgage business and taxed at a lower rate are also embraced

in the term of competing moneyed capital. They followed this case in *Minnesota v. First National Bank* (273 U. S. 566) where they make this statement:

It was not necessary that the particular amounts be specified. That capital, if invested in the business of individuals, is moneyed capital in the hands of individual citizens, within the meaning of section 5219. If invested in corporations, as appears in some instances, the share capital in the hands of shareholders is likewise moneyed capital within the meaning of that section.

And on page 567, they make this statement:

The court below found that a large proportion of these investments consisted of investments of individuals out of surplus funds which they were investing and reinvesting in bonds, mortgages, and other evidences of indebtedness and that these transactions or continued activities are such as normally constitute an important part of the business of banking as conducted by respondent and other national banks in Minnesota.

These two cases, with others following, lead us to this conclusion: That where (a) moneyed capital is used or employed either in business similar to that of national banks, or (b) in courses of business similar to particular features of the business of national banks, or (c) more or less continuously in transactions, operations, investments, and reinvestments like those of national banks, amounting to a course of business therein, it is the duty of Congress to protect national banks from discrimination in taxation by States in favor of such competing capital.

Thus the competition which the statute is designed to guard against may arise either from the employment of capital invested in a competitive business or from the employment of capital more or less continuously invested in courses of business involving transactions, operations, investments and reinvestments like those of national banks in their normal banking activities. Hence, the competition intended arises not only from the character of the business but also from the manner of employment of capital at the command of those so using it.

By the use of the phraseology "other moneyed capital used or employed in business and coming into substantial competition with the business of national banks in normal activities of such banks" we do not comprehend the occasional employment of moneyed capital or investment thereof not amounting to a course of business.

Some discussion arose over the phrasing of the bill under consideration (H. R. 13855), in the wording "other moneyed capital used or employed in business and coming into substantial competition with the business of national banks in normal activities of such banks."

This language was adopted, as it was thought unnecessary for clarity of expression to add the words "which moneyed capital comes" before the phrase "coming into substantial competition", etc., as such repetition added nothing to the meaning which, we think, is clear and concisely expressed as adopted by the committee.

Our effort has been to express in language the intent to make it possible for States to classify "moneyed capital used or employed in business and coming into competition with the business of national banks in normal banking activities of said banks" with national bank shares; particularly in the so-called classified property tax States imposing flat rate taxes on intangibles. In those States where moneyed capital is employed more or less continuously in courses of business involving transactions, operations, investments, and reinvestments like those in which national banks use their funds as distinguished from merely occasional employment incident to ordinary everyday affairs, the necessary classification to meet the Federal requirement can readily be observed and discrimination against national bank shares avoided.

As the Supreme Court stated in *First National Bank v. Anderson* (269 U. S. 341, 348):

The term "other moneyed capital" in the restriction is not intended to include all moneyed capital not invested in national bank shares but only that which is employed in such way as to bring it into substantial competition with the business of national banks.

Moneyed capital is brought into such competition where it is invested in shares of State banks or in private banking, and also where it is employed, substantially as in the loan and investment features of banking, in making investments, by way of loan, discount or otherwise, in notes, bonds or other securities with a view to sale or repayment and reinvestment.

In section 7005 of the Code of Iowa is found a State statute providing for such classification, as follows:

SEC. 7005. "Moneyed" capital: All moneyed capital within the meaning of section 5219 of the Revised Statutes of the United States shall be listed and assessed against the owner thereof at his place of business, and if a corporation at its principal place of business, at the same rate as State, savings, national bank and loan and trust company stock is taxed, in the same taxing district, and at the actual value of the moneyed capital so invested. (Code of Iowa, 1931.)

Even with such a statute there may still be intentional and systematic discrimination against bank shares in the administration by the taxing authorities; as was found in the case of *Iowa-Des Moines National Bank v. Bennett* (284 U. S. 239) where the State's officers applied a higher rate to the shares than was applied in exacting payment from competing domestic corporations. In such case the banks must seek the courts for the remedy.

The above Iowa case demonstrates that Congress would fail in its duty to protect the national banks against discrimination in State taxation if we do anything less than prescribe the sound and fair classification provided by H. R. 13855.

In *Mercantile Bank v. New York* (121 U. S. 138, 155) the Supreme Court said:

The main purpose, therefore, of Congress in fixing limits to State taxation on investments in the shares of national banks, was to render it impossible for the State, in levying such a tax, to create and foster an unequal and unfriendly competition, by favoring institutions or individuals carrying on a similar business and operations and investments of a like character.

In 1864, when the statute in question was first enacted, all, or substantially all, of the States subjected all property of individuals to what is known as the general property tax; that is all property within a given taxing district was taxed at the same rate and upon the same percentage of its value. Money and credits and other intangible property, under this system of taxation, were taxed at the same rate as real estate and tangible personal property. Shares of national banks fell naturally into the same class as other moneyed capital and were taxed at the same rate, and as long as this system of taxation remained in force, few controversies arose with respect to discrimination against shares of national banks and in favor of other moneyed capital in the hands of individuals.

A number of the States still retain the general property tax, and in these States complaint of discrimination against the national banks can be based only on inequality in the enforcement of the law. Such discrimination, if it exists, is a matter for the courts and requires no new Federal legislation.

In many of the States, however, for reasons which it is unnecessary to discuss at length, it was found inadvisable or impracticable to continue to tax money and credits and other intangible property at the same rate as real estate and tangible personal property. By this time over half of the States have removed money and credits from the general property tax roll and have either exempted them altogether from ad valorem taxation and taxed such property only upon the income therefrom, or else have subjected them to a special intangible tax which is ad valorem, but at a rate much lower than the rate on other property — in many cases from a fifth to a tenth of the rate on such other property.

In almost all of the States in which such changes were made in the taxation of intangibles, shares of national banks were still taxed at the higher rate, and in all of the cases in which the question arose, and in which it was shown that other moneyed capital used in competition with national banks was taxed substantially less than shares of national banks, the tax on the shares of national banks was held invalid.

The first of these cases (*Boyer v. Boyer*, 113 U. S. 689) was decided as early as 1885, but the principle appears to have been commonly disregarded by State taxing authorities until it was brought forcibly to their attention by the decision in *Merchants National Bank v. Richmond* (256 U. S. 635) rendered in 1921. Since 1921 the subject of bank taxation has been in a state of constant ferment, and bills have been before Congress at every session seeking a change in the provisions of section 5219.

So far as the States which tax money and credits on an income basis are concerned, the difficulty appears to have been in large measure solved. Such States as a rule not only tax intangibles in the hands of individuals only with respect to income, but also tax financial, mercantile, manufacturing and business corporations upon an income basis. By an amendment to section 5219 adopted in 1923 States were allowed to tax national banks upon their income at a rate no higher than assessed upon financial corporations, nor higher than the highest rate assessed upon mercantile, manufacturing and business corporations. They were also allowed to include dividends paid by national banks in the income tax of the individual stockholders, if dividends of other corporations were similarly taxed. By a further amendment adopted in 1926, the States, under like limitations, were allowed to tax national banks by an excise tax measured by income from all sources. Some of the States have adopted the foregoing means of taxing national banks, and from these States no serious complaints have arisen, nor has any litigation arising out of such taxes been called to our attention.

It is in the States in which money and credits are subject to the low-rate intangible tax that the real trouble has arisen. The problem is easy to state but has proved difficult to solve. In these States all intangible property representing an obligation to pay money and in some cases shares of stock as well, is taxed at a uniform rate of 3, 4, or 5 mills on the dollar of capital value. In the great mass of property subject only to this moderate tax is included in many States an enormous amount of moneyed capital used in business and coming into substantial competition with national banks in the normal activities of such banks. Such capital is commonly used by corporations, partnerships, and individuals engaged in the business of buying and selling notes, bonds, mortgages, and securities; corporations, firms and individuals engaged in the business of loaning money on the security of notes, bonds, and mortgages; note brokers in the business of making loans to their customers upon paper which they sell to banks and other investors; corporations, firms, and individuals engaged in business as investment houses dealing in bonds and mortgages; and real estate firms making a business of lending money to individuals. In addition, some corporations engaged in manufacturing and mercantile business use their surplus funds in the call-money market and otherwise in direct competition with national banks, and many individuals use their funds in transactions, operations, investments, and reinvestments, like those of national banks, continuously, so as to amount to a course of business, and competing in a substantial manner with the business of national banks.

That it is, and has always been, the policy of Congress to protect national banks from hostile discrimination in favor of such businesses or such use of capital as is above described is unquestionable; nor can the fact be questioned that many States have taxed national banks at from five to ten times as high a rate as is imposed on such other competing capital, and it can not be doubted that they will continue to do so if they can obtain the authority from Congress. Such authority ought never to be given.

On the other hand, there is a vast mass of capital in the hands of individuals and subject only to these low intangible taxes which is in no real sense in harmful competition with the business of national banks. Since the primary function of banks is lending money at interest, anyone else who lends money at interest is in one sense in competition with banks. Consequently any purchaser of a bond is a competitor of the banks. To use the extreme illustration commonly pressed in argument, this construction of the law renders a school teacher who has invested her savings in a \$500 bond a competitor of the national banks in her neighborhood. Similarly, a merchant or farmer who lends a relative or neighbor a sum of money as a matter of friendship, under this construction becomes a competitor of national banks. We do not believe that the reasonable protection of national banks from

competition favored by discriminatory taxation necessarily requires the taxation of occasional investors who put their savings into bonds, or loan their money as a matter of friendship, at the same rate as can reasonably and fairly be imposed on the shares of national banks.

It is believed that the bill which we are reporting favorably will enable the States to tax the occasional investor at as low a rate as the public policy of the State may require and at the same time will provide adequate protection for the national banks from the kind of competition which, if favored by discriminatory taxation directed against the banks, is bound to be really harmful.

It is to be noted that the use of the conjunctive "and" after the word "business" necessarily makes the phrase "coming into substantial competition with the business of national banks" referable to "capital" and not to "business," so that any individual or corporation using capital in business in competition with national banks would come within the statute, even if the primary business of such individual or corporation was not in competition with national banks. The phrase "normal banking activities" has been used in the bill because it is a phrase employed by the Supreme Court in some of its decisions and thus has a definite and inclusive meaning.

It may be well to refer to some of the arguments made before us in favor of legislation which would permit the States to tax capital employed in business and coming into substantial competition with the business of national banks in their normal banking activities at a much lower rate than the shares of national banks. It has been said that the widest latitude could be given the States, since the fourteenth amendment would protect the national banks from discriminatory taxation. While it is probably true that in a general property tax State, where the law requires all property to be taxed at the same rate, a systematic general and hostile discrimination against national banks in the application of the law would violate their rights under the fourteenth amendment, it is well settled law that a State may, through its legislature, classify different occupations separately and tax them at different rates without violating the equal protection clause of the fourteenth amendment. Even if two occupations are competitive, they may be taxed at different rates if they are in fact so far different as to warrant classifications. (*Heisl v. Thomas Colliery Co.*, 260 U. S. 245, 257.) The fourteenth amendment alone would not prevent the legislature from putting banks in a class by themselves and taxing them at a higher rate than capital employed in business and used in competition with the banks in their normal banking activities.

It has also been argued that it would be unthinkable that States would impose discriminatory taxation upon such essential institutions as national banks, especially if they were obliged to tax State banks at the same rate. The records of many of the decided cases show that over and over again States have taxed national banks at much higher rates not merely than other moneyed capital but than other moneyed capital used or employed in business in direct competition with national banks. For example, in the recent case of *Iowa-Des Moines National Bank v. Bennett* (284 U. S. 239) it appeared that the State taxed both National and State banks at a rate from five to seven times as great as the rate imposed upon other competing corporations which were not banks. Similar illustrations might be multiplied indefinitely.

It is believed that the bill reported herewith furnishes the protection which experience has shown is necessary if the national banks are to be protected from discriminatory legislation by the States and at the same time does not hamper the States in the development of their taxing systems in such a manner as the public policy of each State may determine.

To bring the law clearly before Congress we here set out the legislation developing section 5219 from the beginning, and attach to it a list of the leading cases on the subject:

CHRONOLOGICAL STATEMENT OF AMENDMENT OF SECTION 5219 UNITED STATES  
REVISED STATUTES (SEC. 584, TITLE 12, CH. 4 OF THE U. S. C.)

The act of June 3, 1864, amending the national-bank act of February 25, 1863, with respect to State taxation, reads as follows:

"*Provided*, That nothing in this act shall be construed to prevent all the shares in any of the said associations held by any person or body cor-

porate from being included in the valuation of the personal property of such person or corporation in the assessment of taxes imposed by or under State authority, at the place where such bank is located, and not elsewhere; but not at a greater rate than is assessed upon other moneyed capital in the hands of individual citizens of such State: *Provided further*, That the tax so imposed under the laws of any State upon the shares of any of the associations authorized by this act shall not exceed the rate imposed upon the shares in any of the banks organized under the authority of the State where such association is located; *Provided further*, That nothing in this act shall exempt the real estate of such associations from either State, county, or municipal taxes to the same extent, according to its value, as other real estate is taxed." (13 Stat. 111, ch. 106, sec. 41.)

The act as passed thus provided for the taxation of national-bank shares by and under state authority as a part of the personal property of the stockholder subject to the two limitations that (1) the rate of taxation shall not be greater than that assessed on other moneyed capital in the hands of individual citizens nor (2) greater than the rate imposed on the shares of State banks.

#### THE AMENDMENT OF 1868

The amendment of 1868 provided as follows:

"That the words 'place where the bank is located, and not elsewhere,' in section 41 of the act to provide a national currency, approved June 3, 1864, shall be construed and held to mean the State within which the bank is located; and the legislature of each State may determine and direct the manner and place of taxing all the shares of national banks located within said State, subject to the restriction that the taxation shall not be at a greater rate than is assessed upon other moneyed capital in the hands of individual citizens of such State: *And provided always*, That the shares of any national bank owned by nonresidents of any State shall be taxed in the city or town where said bank is located, and not elsewhere." (Act of February 10, 1868; 15 Stat. 34, ch. 7.)

#### GENERAL REVISION OF THE FEDERAL LAWS IN 1878

By this revision the act of 1864 as amended by the act of 1868 provision became section 5219 of the United States Revised Statutes and read as follows (*italics denote change*):

"Nothing *herein* shall prevent all the shares in any association from being included in the valuation of the personal property of *the owner or holder of such shares*, in *assessing* taxes imposed by authority of the State *within which* the association is located: *but the legislature of each State may determine and direct the manner and place of taxing all the shares of national banking associations located within the State, subject only to the two restrictions, that the taxation shall not be at a greater rate than is assessed upon other moneyed capital in the hands of individual citizens of such State, and that the shares of any national banking association owned by nonresidents of any State shall be taxed in the city or town where the bank is located, and not elsewhere. Nothing herein shall be construed to exempt the real property of associations from either State, county, or municipal taxes, to the same extent, according to its value, as other real property is taxed.*"

During the period from 1868 to 1923, while there was, at certain times in some States, intense opposition to the status of bank taxation, no effective movement for the revision of section 5219 developed. Probably the period of greatest agitation by the banks for relief from "excessive and unjust" taxation was from 1870 to 1883 when they were subject to substantial Federal and State taxes. In New York during this period there was continuous complaint by the banks against these burdensome impositions. The bankers first sought relief from the State burden but were unsuccessful. Efforts for relief from Federal taxation were more fruitful, and in 1883 the tax of one-half of 1 per cent on deposits and the tax of

the same amount on capital were repealed, leaving only a Federal tax of 1 per cent on national-bank circulation and the prohibitive 10 per cent tax on State-bank notes. This substantial reduction in the Federal tax burden soothed the bankers of New York into relative inactivity and not until the turn of the century did another movement for tax relief produce results in the form of reduced State taxes. Except for a resolution by the New York City banks in 1876 calling for an amendment to section 5219, little was said during the period from 1868 to 1921 about amending the Federal statute.

Following the Richmond decision in 1921 there developed a vigorous movement to liberalize this statute, which has continued until the present time almost without interruption. The concrete results of this movement are expressed in the amendments of 1923 and 1926 and the bills which are now pending in Congress.

#### THE AMENDMENT OF 1923

By act of March 4, 1923, section 5219 was amended to read as follows (*italics denote change*):

"SEC. 5219. The legislature of each State may determine and direct, subject to the provisions of this section, the manner and place of taxing all the shares of national banking associations located within its limits. The several States may tax said shares, or include dividends derived therefrom in the taxable income of an owner or holder thereof, or tax the income of such associations, provided the following conditions are complied with:

"1. (a) The imposition by said State of any one of the above three forms of taxation shall be in lieu of the others.

"(b) In the case of a tax on said shares the tax imposed shall not be at a greater rate than is assessed upon other moneyed capital in the hands of the individual citizens of such State coming into competition with the business of national banks: *Provided, That bonds, notes, or other evidences of indebtedness in the hands of individual citizens not employed or engaged in the banking or investment business and representing merely personal investments not made in competition with such business, shall not be deemed moneyed capital within the meaning of this section.*

"(c) In case of a tax on the net income of an association, the rate shall not be higher than the rate assessed upon other financial corporations nor higher than the highest of the rates assessed by the taxing State upon the net income of mercantile, manufacturing, and business corporations doing business within its limits.

"(d) In case the dividends derived from the said shares are taxed, the tax shall not be at a greater rate than is assessed upon the net income from other moneyed capital.

"2. The shares or the net income as above provided of any national banking association owned by nonresidents of any State, or the dividends on such shares owned by such nonresidents, shall be taxed in the taxing district where the association is located and not elsewhere; and such associations shall make return of such income and pay the tax thereon as agent of such nonresident shareholders.

"3. Nothing herein shall be construed to exempt the real property of associations from taxation in any State or in any subdivision thereof, to the same extent, according to its value, as other real property is taxed.

"4. The provisions of section 5219 of the Revised Statutes of the United States as heretofore in force shall not prevent the legalizing, ratifying, or confirming by the States of any tax heretofore paid, levied, or assessed upon the shares of national banks, or the collecting thereof, to the extent that such tax would be valid under said section." (Act of March 4, 1923, ch. 267.)

Section 5219 now provided three alternative methods of taxing national banks by and under State authority, in addition to the tax on real property. The State could (1) tax the shares of these institutions subject to the limitation that rate should be no greater than was assessed upon other

moneyed capital, such moneyed capital being defined to exclude non-competitive private investments. Or (2) the State could tax the income of such banks to the bank provided the rate of such taxation was not higher than the rate on the income of other financial corporations nor higher than the highest rate which the State imposes on the income of mercantile, manufacturing, and business corporations operating in that State. In the event the latter limit were used it was thought possible for the State to tax the income of some but not all of these types of corporations and apply the rate so levied to the income on national banks. Finally, (3) the State could tax the dividends on national-bank stock as personal income to the stockholder provided the rate imposed thereon was not higher than the rate assessed on the net income from other moneyed capital.

The proviso in paragraph 1 (b) of the 1923 amendment, "That bonds, notes, or other evidences of indebtedness in the hands of individual citizens not employed or engaged in the banking or investment business and representing merely personal investments not made in competition with such business, shall not be deemed moneyed capital within the meaning of this section" was construed by the Supreme Court in *First National Bank v. Anderson* (269 U. S. 341, 350) and *First National Bank v. Hartford* (273 U. S. 548, 557). The court held the amendment did no more than put into express words that "which according to repeated decisions of this court was implied before" and by its terms the amendment excludes from moneyed capital only those personal investments which are not in competition with the business of national banks.

#### THE 1926 AMENDMENT

In order better to accommodate section 5219 to the employment of such income taxation, committees representing both the bankers and the tax authorities met January 22-23, 1926, and drafted an amendment to that statute, which with minor changes effected later, was submitted to Congress. Identical bills were introduced in the Senate and House. The Senate passed the measure without debate and the House acted favorably after a brief discussion, the measure having been unanimously reported by the House Committee on Banking and Currency. On March 25, 1926, the bill was approved and signed by the President. Section 5219 then read as follows (*italics denote change*):

"SEC. 5219. The legislature of each State may determine and direct, subject to the provisions of this section, the manner and place of taxing all the shares of national banking associations located within its limits. The several States may (1) tax said shares, or (2) include dividends derived therefrom in the taxable income of an owner or holder thereof, or (3) tax such associations on their net income, or (4) *according to or measured by their net income*, provided the following conditions are complied with:

"1. (a) The imposition by *any* State of any one of the above four forms of taxation shall be in lieu of the others, *except as hereinafter provided in subdivision (c) of this clause*.

"(b) In the case of a tax on said shares the tax imposed shall not be at a greater rate than is assessed upon other moneyed capital in the hands of individual citizens of such State coming into competition with the business of national banks: *Provided*, That bonds, notes, or other evidences of indebtedness in the hands of individual citizens not employed or engaged in the banking or investment business and representing merely personal investments not made in competition with such business, shall not be deemed moneyed capital within the meaning of this section.

"(c) In case of a tax *on or according to or measured by the net income of an association*, the taxing State may, *except in case of a tax on net income*, include the entire net income received from all sources, but the rate shall not be higher than the rate assessed upon other financial corporations nor higher than the highest of the rates assessed by the taxing State upon mercantile, manufacturing, and business corporations doing business within its limits: *Provided, however, That a State which imposes a tax on or*

according to or measured by the net income of, or a franchise or excise tax on, financial, mercantile, manufacturing, and business corporations organized under its own laws or laws of other States and also imposes a tax upon the income of individuals, may include in such individual income dividends from national banking associations located within the State on condition that it also includes dividends from domestic corporations and may likewise include dividends from national banking associations located without the State on condition that it also includes dividends from foreign corporations, but at no higher rate than is imposed on dividends from such other corporations.

“(d) In case the dividends derived from the said shares are taxed, the tax shall not be at a greater rate than is assessed upon the net income from other moneyed capital.

“2. The shares of any national banking association owned by nonresidents of any State, shall be taxed by the taxing district or by the State where the association is located and not elsewhere; and such association shall make return of such shares and pay the tax thereon as agent of such non-resident shareholders.

“3. Nothing herein shall be construed to exempt the real property of associations from taxation in any State or in any subdivision thereof, to the same extent, according to its value, as other real property is taxed.

“4. The provisions of section 5219 of the Revised Statutes of the United States as heretofore in force shall not prevent the legalizing, ratifying, or confirming by the States of any tax heretofore paid, levied, or assessed upon the shares of national banks, or the collecting thereof, to the extent that such tax would be valid under said section.”

Section 5219, as thus amended, now offers a number of alternatives to the States in taxing national banks. Aside from the tax on real property, which has remained unchanged since the original act of 1864, the following possibilities are open to the States:

1. A State may tax the shares of national banks to the shareholders, the limit to such taxation being the same as that stipulated in the 1923 amendment.

2. A State may tax the dividends paid on such shares as personal income to the stockholders if dividends of other corporations are so taxed, provided that the rate imposed shall be no greater than the rate assessed on the net income from other moneyed capital.

3. A State may tax the net income of national banks to the bank provided the rate levied shall not be higher than the rate assessed upon the net income of financial corporations, nor higher than the highest of the rates levied on such income of mercantile, manufacturing, and business corporations. If a State employing the income tax adopts this alternative, the net income from tax exemptions can not be included in the tax base.

4. A State may employ an excise or franchise tax on national banks, measured by net income, the rate of such tax being subject to the same limits as the tax on net income under option 3. In providing this fourth option, it was the purpose of Congress to enable the States to reach the income from tax-exempt sources.

The four alternatives are mutually exclusive with the exception that a State may combine the income tax on dividends (option 2) with either the direct income tax (option 3) or the excise tax (option 4) if the several conditions in each option are satisfied.

The following are the leading United States Supreme Court cases construing section 5219 U. S. Rev. Stat.

Van Allen *v.* Assessors, 3 Wall. 573 (1865).

People *v.* Weaver, 100 U. S. 539 (1879).

Boyer *v.* Boyer, 113 U. S. 689 (1885).

Mercantile Bank *v.* New York, 121 U. S. 138 (1886).

Merchants National Bank *v.* Richmond, 256 U. S. 635 (1921).

First National Bank *v.* Anderson, 269 U. S. 341 (1924).

First National Bank *v.* Hartford (Wis.), 273 U. S. 548 (1927).

Minnesota *v.* First National Bank, 273 U. S. 561 (1927).

Des Moines National Bank *v.* Bennett (Iowa), 284 U. S. 239 (1931).

Recently legislation was sought to exempt building and loan associations from being classed as competing capital. This is probably unnecessary, under a recent decision of the courts, one of them having been refused a review by the Supreme Court of the United States; to wit, *Hoenig v. Huntingdon National Bank*, from the Circuit Court of Appeals of the Sixth Circuit (59 Fed. Rept. (2d) 479), which case the Supreme Court refused to review and thereby confirmed; and also the case of the *First National Bank et al. v. Louisiana Tax Commission* (143 S. E. Rept. 23), which is now pending before the Supreme Court under a petition of certiorari to review same.

The court refused to dismiss the petition for certiorari and intimated that it would consider the case on its merits, which has been done and the decision is expected shortly.

These cases hold that shares in building and loan associations are not competing capital with national banks. Their reasoning is based on earlier decisions of the Supreme Court as to savings banks.

### MISCELLANEOUS

The special tax at one dollar on each male above the age of twenty to provide money for old age assistance has been administered without difficulty.

The State laying a direct tax on the municipalities and they obtaining the money by direct taxation has netted less than half the sum needed for Old Age Assistance. No proposal was made in 1932 for finding the funds because the one dollar head tax was continued in 1932, but ceases with 1933, being abandoned because the legislature provided revenue from the granting of licenses and the excise on the sales of wines and malt beverages that would be sufficient to meet the State's requirement of refunding to the municipalities one third of the cost of Old Age Assistance.

The Motor Excise has continued to be a good revenue producer for the cities and towns but has consistently shrunk each year in amount of yield.

The Gasoline Excise was increased to three cents from May 1, 1931, to April 30, 1933, one-half the proceeds thus added being given the cities and towns to use as an estimated receipt to apply against the appropriation made for highways. In 1932 the entire additional amount is given the municipalities and the period of the three cent excise extended to April 30, 1936.

Under various Division headings additional information will be found respecting the tax situation.

The following items are ones that have been included year after year in the report and will be helpful by way of comparisons with previous reports, and are more or less descriptive of this brief outline of the taxation situation in Massachusetts.

### EMERGENCY FINANCING FOR MASSACHUSETTS MUNICIPALITIES

Chapter 49 of the Acts of 1933 created an Emergency Finance Board and provided for borrowings by communities on tax titles and in anticipation of revenue coming from the income tax proposals to include dividends from Massachusetts corporations under the income tax law. In addition to providing through this board for distribution of federal funds in determining the amounts that the towns should need comparison was had between the expenditures of 1929 for public welfare and those of 1932. The distributive part of the law and the authority for this board may be found in the 1933 Acts, being Chapters 49, 307, 344, 365 and 366.

The table following herewith indicates the additional costs of government for public welfare of the year 1929 as compared with the year 1932, and is indicative of the enormous burdens thrown on the municipalities to discharge the obligation of Public Welfare.

## EXPENDITURES FOR PUBLIC WELFARE

| City or Town         | 1929         | 1932          | City or Town         | 1929       | 1932         |

## LOCAL TAXATION

The total value as found by local assessors for the 1932 local assessment on taxable real estate and tangible personal property amounted to \$7,001,697,802. The comparative amount for 1931 is \$7,181,358,958, and for 1930, \$7,233,539,128. This shows a loss in 1932 of \$179,661,156 in local taxable values. The real estate subject to 1932 local assessment shows an assessed value of \$6,255,519,862 as against the 1931 value of \$6,383,674,996. The land shows a valuation of \$2,178,915,584 as against the 1931 value of \$2,215,828,294, and buildings a valuation of \$4,076,604,278 as against the 1931 value of \$4,167,846,702. It is unlikely that the 1930 value of \$7,233,539,128 will be again reached for many years.

Of the total value found by the local assessors for taxable tangible personal property amounting to \$746,177,940 as against the 1931 value of \$797,683,962, the assessed value of stock in trade shows \$71,825,041 as against the 1931 value of \$84,464,020; taxable machinery shows a value of \$508,417,359 as against a 1931 value of \$539,064,452; the 1932 value of livestock shows \$13,617,994, and all of the many other kinds of taxable tangible personal property show a total 1932 value of \$152,317,546. The total excise value found in the motor excise tax for 1932 approximates \$240,317,775 as against the 1931 value of \$304,113,291.

As compared with 1931 the \$2 poll taxpayers increased in number from 1,261,152 to 1,269,517 and the number of "Head Taxes" assessed under Chapter 398 of the Acts of 1931 ("imposing an old age assistance tax on male inhabitants . . .") which was in operation for the first time in 1931 was 1,280,567 and in 1932, 1,289,741 at \$1 each; the personal property tax increased from \$24,887,601 in 1931 to \$25,229,354, and the real estate tax increased from \$198,396,854 to \$210,814,418. The total direct local tax of \$225,806,759 in 1931 increased in 1932 to \$238,582,806 (the highest levy ever made on real estate) and includes poll taxes in the sum of \$2,539,034 or about 1% of the total, tangible personal property taxes in the sum of \$25,229,354 or about 11% of the total and real estate taxes in the sum of \$210,814,418, being about 88% of the total. For this partially complete picture there should be considered in addition to these local direct taxes the revenue of over \$6,183,000 the cities and towns received from the locally assessed motor excise and about \$18,500,000 from the personal income tax, making a direct tax in 1932 for city and town purposes of over \$263,265,806 as against the comparative 1931 amount of \$255,406,759, and which is the largest direct tax ever levied for city and town purposes in the history of Massachusetts. The total appropriations made by municipalities in 1932 was \$276,867,537 as against \$274,016,314 in 1931, some of which as is shown to come other than from direct taxes. Using the total assessed property value (exclusive of motor vehicles which are taxed at a uniform rate for all cities and towns) of \$7,001,697,802, a tax rate in 1932 of \$33.71 per \$1,000 would be required to raise the \$236,043,772 assessed locally as against a similarly computed rate of \$31.09 for 1931. Comparing 1931 with 1932, there were assessed by the local assessors, 45,859 horses in 1931 as against 42,913 in 1932; 129,043 cows as against 131,491; 9,829 sheep as against 10,024; 35,438 neat cattle as against 36,431; 39,048 swine as against 35,639; 770,209 dwelling houses as against 774,344, an increase of 4,135; 4,426,395 acres of land as against 4,417,823, a loss of 8,572 acres, possibly going into exempted property, and 1,792,619 fowls as against 1,832,008.

The number of recorded local direct property taxpayers decreased from 917,991

in 1931 to 908,295 in 1932. In all the foregoing, the figures presented include both the April assessments and the December "omitted assessments."

These taxpayers paid at different local tax rates ranging from \$10.50 per \$1,000 of value in the town of Gosnold, an island community, to \$75 per \$1,000 of value in the town of Millville. Two towns showed rates of from \$10.50 to \$13; nineteen towns, rates from \$15.20 to \$19.80; fifty-eight towns, rates from \$20 to \$24.50; three cities and eighty-one towns, rates from \$25 to \$29.80; fourteen cities and eighty-five towns rates from \$30 to \$34.85; thirteen cities and forty-eight towns, rates from \$35 to \$39.80; nine cities and seventeen towns, rates from \$40 to \$44.60; four towns, rates from \$45 to \$49; and two towns, one at \$50 and one at \$75.

### GOVERNMENTAL COSTS

For the year ending November 30, 1932, there was levied as taxes upon the real estate, tangible personal and other property located within Massachusetts the following sums: As a state tax, \$9,750,000; as a county tax, \$11,638,145; as a direct tax for the support of municipal activities in the cities and towns, \$220,844,423, \$2,539,034 assessed as a poll tax of \$2 on each male inhabitant twenty years of age or over and also \$1,285,960 under the provisions of Chapter 398 of the Acts of 1931 for old age assistance \$1 assessed on each male inhabitant twenty years of age or over — a total of \$246,057,562, being the total amount assessed by the cities and towns, including the amount assessed on motor vehicles under General Laws, Chapter 60A (Chapter 379 of 1928); first effective in 1929, in the sum of \$6,183,706 to meet with other revenue a total appropriation charge of \$276,867,537 in 1932 in the cities and towns. This local tax was levied at the varying tax rates of the several cities and towns, which ranged from the lowest, \$10.50 per \$1,000, to the highest, \$75 per \$1,000, the average rate being \$30.46. The total valuation of the real estate and tangible personal property upon which this tax was levied was \$7,242,466,148. (This amount includes motor vehicles.)

The Commonwealth assessed upon corporations, insurance companies, national banks, trust companies, savings banks, legacies and successions, stock transfers, incomes, gasoline, and upon miscellaneous the sum of \$66,787,601.38; \$33,492,860.87 of which was distributed to the cities and towns and the balance retained for the general purposes of the Commonwealth.

To these sums are also to be added approximately \$65,844,573, received by the counties, cities and towns from fines, fees and miscellaneous sources; and about \$14,201,945 in revenue received by the Commonwealth.

These items combined make a total of \$392,891,681.38.

The contribution made in the form of taxation by the inhabitants of Massachusetts to the support of the government of the United States must not be forgotten. This sum for the year ending June 30, 1932, was not less than \$49,146,967.53, making a total direct contribution for government for the year 1932 by the 4,305,840 (estimated) inhabitants of this Commonwealth of approximately \$442,038,648.91 or a per capita of \$102.66.

### STATISTICAL

There are about 24,494 business corporations, 21,954 of which are domestic, and 2,540 registered foreign business corporations subject to taxation. A franchise tax return was received on each of the 250 public service corporations, and 143 were subjected to a tax assessment; 62 trust companies and 49 national banks were taxed on income. Under the Income Tax Law 250,246 returns were assessable. In the collection of the inheritance tax 16,353 estates were dealt with. The insurance tax was assessed upon 26 foreign life companies, 348 fire and marine companies of which 53 were Massachusetts companies, 153 miscellaneous companies of which 36 were Massachusetts companies, the insurance department of 22 savings banks, and the general insurance guaranty fund of Massachusetts. A tax was assessed against 196 savings banks and 80 savings departments of trust companies. 149 national banks were subject to tax.

For the year ending November 30, 1932, 2,736 corporations of all classes were organized, 2,494 of which were domestic business corporations. About 2,973 domestic business corporations were dissolved and about 34 corporations of other classes.

For the year ending November 30, 1932, the accounts of 205 cities and towns

have been audited, the standard system of accounts recommended to be installed is now in use in 209 cities and towns (a gain of 4), and 3,482 town and district notes have been certified representing indebtedness amounting to \$47,755,471.51.

The net direct debt of the State on November 30, 1932, was \$12,153,907.31 and the net funded debt of all the counties on December 31, 1932, was \$7,721,442.86. The net funded debt of the cities and towns on December 31, 1932, was \$311,666,-745.57.

### STATISTICAL TABLES

The tables relating to Sources of Tax Revenue, Massachusetts Wealth, Tax Rates and Valuations, County tax, State tax, County Aggregates of the Polls and Property tax, Business Corporation tax, Bank taxes, Public Service Corporation taxes, Income taxes, the Gasoline tax, Direct Local taxes, Treasurers' and Collectors' Bonds, Municipal Appropriations and Receipts, Uncollected taxes, Tax Titles, Municipal Indebtedness and Revenue and Loans appear under appropriate headings.

Table A is a list of assessments by the department during the year; Tables B and BB relate to the collection of taxes; and Table C deals with all taxes and revenue both state and local with which the department has to do. Three tables relate to the distribution of taxes to the cities and towns. A tabulation relating to the classes and the value of the property exempted from taxation in the cities and towns under the first fifteen clauses of Section 5 of Chapter 59 of the General Laws as amended relating to local taxation, also includes the valuations of property of the United States, property of the Commonwealth and of the cities, towns and counties, which is put to a public use. A transcript of the returns filed with the assessors of cities and towns relating to the classes of property owned by Literary, Benevolent, Charitable and other miscellaneous institutions claiming exemption from local taxation, also contains a statement as to income and disbursements by these organizations.

### EXEMPTION FROM LOCAL TAXATION

The table which appears as a part of these reports from 1923 to 1932 differs somewhat from the similar table in reports previous to 1923, by reason of the fact that Section 51 of Chapter 59 of the General Laws as amended by Chapter 421 of the Acts of 1923 requires of assessors that more information be entered upon the valuation lists, respecting property which is exempted from local taxation, than in former years.

In making return to the Commissioner of Corporations and Taxation, assessors are instructed to report only the classes of property which are subject to tax under Chapter 59 of the General Laws, while in former years the figures included certain intangible personal property, the taxation of which is provided for by Chapter 62 of the General Laws, upon the income therefrom.

This explanation is to be borne in mind in a comparison of the figures with those of years prior to 1923.

\$1,492,813,732, or over \$43,000,000 above the amount reported as exempted in 1931, is the total valuation, as reported by the assessors, of the property exempted from taxation, and it is to be borne in mind that the assessors, being unaccustomed to revaluing exempted property each year, may, in some instances, not have reported it at full value.

The division of this total is into the first fifteen clauses of Section 5 of Chapter 59, and Property put to a Public Use, and is the exempted property covered by the above figures, as shown in Table N further on in this report.

### AUDIT GAINS

During the year ending November 30, 1932, the following amounts have accrued by reason of departmental audits of tax returns and field audits:

|          |              |
|----------|--------------|
| Income   | \$316,013.60 |
| Business | 329,993.61   |
| Gasoline | 21,783.00    |
|          | <hr/>        |
|          | \$667,790.21 |

## CHARTS

The charts that follow correctly state the tax laws as of January 1, 1933, except as is noted below.

"Property Taxation in Massachusetts"

Beginning in 1929 registered motor vehicles are no longer included in the property tax, but are subject to the Motor Vehicle Excise, Chapter 379 of the Acts of 1928, which created Chapter 60A of the General Laws amended by Chapter 244, Acts of 1930.

Ships and vessels engaged in commercial fishing are now classified with those in the interstate and foreign carrying trade. Fourth footnote: There shall be added the following: If owned by or held in trust for a city or town, taxable to occupant lessee or person in possession if used for other than a public purpose.

To household furniture in the place of "domicile" only (Section 5, Clause 20, Chapter 59, General Laws) there is added: Effects, jewelry, plate, works of art, musical instruments, radios, garage or stable accessories and boats, fishing gear and nets not exceeding \$1,000 in value. Chapter 75, Acts of 1931.

Money in hand exempt (Section 5, Clause 20, Chapter 59, General Laws, as amended by Chapter 75, Acts of 1931).

Exemption of widows, minors and aged (Column No. 16 in table) \$2,000 instead of \$1,000. Chapter 247, Acts of 1930.

Veterans' exemption (Column No. 19 in table) includes other veterans. Chapter 189, Acts of 1930.

"Public Service and Bank Taxation"

Chapter 379 of the Acts of 1928, which created Chapter 60A of the General Laws (Motor Vehicle Excise), taxes registered motor vehicles.

Railroads should be listed at bottom of page.

National Banks and Trust Companies taxed on net income ("Item 24") returned to Federal Government, plus net loss of previous years, such dividends and interest as is taxable to an individual inhabitant. (Chapter 343 of Acts of 1925 as amended.)

"Insurance Companies"

Such change as may have been made by Chapter 379 of the Acts of 1928, which created Chapter 60A of the General Laws (Motor Vehicle Excise), taxes registered motor vehicles.

"Stock Transfer Tax"

High (1929) to read \$866,857.24. Average to read \$309,482.15.

"Liability of Property to Inheritance Tax"

Non-resident interests in real estate represented by mortgages or shares of real estate trusts exempted by Chapter 292, Acts of 1929.

"Income Tax"

Item No. 18 to read Income received from deposits in National Banks taxable.

# PUBLIC SERVICE AND BANK TAXATION

|  | * Public Service Corporations       | National Banks                      | Trust Companies                     | Savings Banks   | Trust Company Savings Departments   | Credit Unions                       | Co-operative Banks                  |

# TAXATION OF BUSINESS AND MANUFACTURING CORPORATIONS DOMESTIC CORPORATIONS

P.D. 16

## I. Property Tax (Ch. 59).

Property *taxable* to Corporation.

Real Estate, underground conduits, wires and pipes. (G. L., C. 59, Sec. 2.)

Property *exempt* to Corporation.

All tangible personal property (including merchandise) other than machinery used in the conduct of the business. (G. L., C. 59, Sec. 5, cl. 16.)

Machinery used in the conduct of the business. (*idem*)

Intangible Property.

Note: Registered motor vehicles are subject to the excise imposed by G. L., Ch. 60A.

## II. Excise Tax (G. L., Ch. 63, secs. 30 to 52, inclusive).

- (1) \$5 per thousand upon the value of its corporate excess\* (Ch. 63, secs. 32 and 38C).
- (2) 2½% of net income derived from Massachusetts business, subject in the case of manufacturing corporations to the deduction for machinery used in manufacturing, provided in section 38C (Ch. 63, secs. 32 and 38C).

Provided that no corporation shall pay a total excise less than

- (a) 1/20 of one percent of the fair value of its capital stock (Ch. 63, sec. 32).
- or (b) (If its profits are derived from tangible property) 1/20 of one percent of its gross receipts from business assignable to Massachusetts (Ch. 63, secs. 32A and 38C).

\*"Corporate excess" is the fair value of the corporation's capital stock less the value of

- (a) Its works, structures, real estate, motor vehicles, machinery, poles, underground conduits, wires and pipes subject to local taxation in Massachusetts, except such part of the real estate as represents the interest of a mortgagee.
- (b) Its securities, the income of which would not be liable to taxation, except shares in national banks and voluntary associations, trusts and partnerships.
- (c) Its tangible property situated outside Massachusetts, except the interest of a mortgagee therein.
- (d) Its cash and accounts and bills receivable attributable to an office outside Massachusetts. (G. L., Ch. 63, sec. 30, cl. 3, sec. 38C.)

Chapter 359 of the Acts of 1929 as amended (See G. L. Ch. 63, sec. 38B) makes a relatively small group of domestic business corporations, exempt from the above provisions. The group is limited to corporations engaged exclusively in buying, selling, dealing in, or holding, securities on their own behalf and not as brokers. Such corporations are required to pay an excise equal to the sum of the following: (a) 6% of dividends and interest received which would be taxable to an individual if received by him, subject to a deduction for interest paid, (b) 1½% of business income, (c) 3% of gains from dealing in intangibles. It is further provided that the excise shall not be less than 1/20 of 1 percent of the fair value of the corporation's capital stock.

Note. A minimum tax of 1/10 of one percent of receipts assignable to Massachusetts is provided for subsidiary corporations which do not disclose true earnings (Ch. 63, sec. 33), and also an excise of 1/3 of one percent upon the value of ships and vessels engaged in interstate or foreign carrying trade or commercial fishing (Ch. 63, sec. 67), in which event the value of the ships and vessels is deducted in determining corporate excess. The yield from both of these taxes is so slight as to make them of almost no importance.

## FOREIGN CORPORATIONS\*

### I. *Property Tax* (G. L., Ch. 59).

*Property taxable to Foreign Corporation.*

Real Estate, underground conduits, wires and pipes. (G. L., Ch. 59, Sec. 2.)

Machinery used in the conduct of the business. (idem)

Note: Registered motor vehicles are subject to the excise imposed by G. L., Ch. 60A.

### II. *Excise Tax* (G. L., Ch. 63, secs. 30 to 52, inclusive).

(1) \$5 per thousand upon the value of the corporate excess employed by it in Massachusetts† (Ch. 63, secs. 39 and 42B).

(2) 2½% upon its net income derived from Massachusetts business subject in the case of a manufacturing corporation to deduction for machinery used in manufacturing, as provided by section 42B, and subject to credit for dividends paid to Massachusetts inhabitants as provided by section 43 (Ch. 63, secs. 39 and 42B).

Provided that every such corporation shall pay a total excise not less than

(a) 1/20 of one percent of such proportion of the fair value of its capital stock as the value of its assets employed in Massachusetts bears to the value of all its assets. (Ch. 63, secs. 39 and 42B.)

or (b) (If it derives its profits from tangible property) 1/20 of one percent of its gross receipts assignable to Massachusetts business. (Ch. 63, secs. 39C and 42B.)

†“Corporate excess employed within the commonwealth” is such proportion of the fair value of its capital stock, as the value of the assets employed in business in Massachusetts bears to the value of all its assets, less the value of the following:—

(a) Its works, structures, real estate, motor vehicles, machinery, poles, underground conduits, wires and pipes, subject to local taxation in Massachusetts, except the interest of a mortgagee in its real estate.

(b) Its securities held in Massachusetts, the income of which, if received by an inhabitant of Massachusetts, would not be subject to taxation, except shares in National Banks, Voluntary Associations, Trusts and Partnerships. (Ch. 63, sec. 30, cl. 4, and sec. 42B.)

Note. A minimum tax of 1/10 of one percent of receipts assignable to Massachusetts is provided for subsidiary corporations which do not disclose true earnings, but the yield from this tax is so slight as to make it of no importance. (Ch. 63, sec. 39A.)

\*“Foreign Corporation” is here used to mean a foreign corporation doing business in Massachusetts. Foreign corporations not doing business in Massachusetts are subject to local taxation upon real estate and all tangible personal property, including merchandise, and are, of course, subject to no excise.

*Property exempt to Foreign Corporation.*

All tangible personal property (including merchandise) other than machinery used in the conduct of the business. (G. L., Ch. 59, Sec. 5, cl. 16.)

Intangible Property.

# DEDUCTIONS REDUCING TAX LIABILITY OF BUSINESS AND MANUFACTURING CORPORATIONS

P.D. 16

35

| DOMESTIC   |   | FOREIGN   |  |
|--|---|---|--|
| CORPORATE EXCESS   | INCOME  | CORPORATE EXCESS  | INCOME   |
| Liabilities deducted from assets in determining share value, so that gross value of assets is not taxed as in case of local property tax.  | Usual federal deductions from gross income to determine net income.<br>Gains from sale of tangible capital assets situated outside Massachusetts.                                   | Liabilities deducted from assets in determining share value, so that gross value of assets is not taxed as in case of local property tax.                           | Usual federal deductions from gross income to determine net income.<br>All dividends.  |
| Equity in real estate, full value of machinery used in conduct of business and full value of motor vehicles registered in Massachusetts, deducted from share value.                              | Income earned outside Massachusetts as indicated by statutory factors.  | Such percentage of the share value as the value of the assets not employed in Massachusetts bears to the total value of all assets deducted.                        | All interest except that from Massachusetts inhabitants, corporations or banks other than National Banks and Trust Companies.  |
| Full value of Massachusetts "non-taxable" securities, except shares in National Banks and in associations with transferable shares, deducted from share value.                                   | Such percentage of the income* earned in Massachusetts as the value of machinery used in manufacturing in Massachusetts bears to the value of all assets employed in Massachusetts. | Equity in real estate, full value of machinery used in conduct of business and full value of motor vehicles registered in Massachusetts deducted.                   | Gains from the sale of intangible capital assets.<br>Gains from the sale of tangible capital assets situated outside Massachusetts.  |
| Equity in all tangible property situated outside Massachusetts deducted from share value.<br>Cash and accounts and bills receivable attributable to an outside office deducted from share value. |   | Full value of Massachusetts "non-taxable" securities held in Massachusetts, except shares in National Banks and in associations with transferable shares, deducted. | Income earned outside Massachusetts as indicated by statutory factors.<br>Such percentage of the income* earned in Massachusetts as the value of machinery used in manufacturing in Massachusetts bears to the value of all assets employed in Massachusetts.<br>Credit to tax of five† percent of dividends paid Massachusetts inhabitants. |

\* Applicable only to manufacturing corporations.

† An unusual provision.

## TAXATION OF INDIVIDUALS AND BUSINESS CORPORATIONS CONTRASTED

## I. PROPERTY TAX

| INDIVIDUAL  |                      | CORPORATION  |  |
|---|----------------------|--|--|
| Taxable On*   | Exempt Upon          | Taxable On   | Exempt Upon  |
| Real Estate.  | Intangible Property. | Real Estate and Machinery used in conduct of business.                       | Intangible Property.   |
| Machinery, and all other tangible personal property including merchandise, except motor vehicles subject to the excise imposed by G. L., Ch. 60A. |                      | Note: Registered motor vehicles subject to excise imposed by G. L., Ch. 60A. | Merchandise and every other type of tangible personal property except machinery used in conduct of business. |

\* Subject to special exemptions for which see table relating to Annual Taxation by Local Assessors.

## II. TAXES OTHER THAN PROPERTY

| INDIVIDUAL   |  | CORPORATION  |
|--|--|--|
| Income Tax   |  | Excise Tax   |
| 1½% upon business income, wherever earned.                       |  | \$5 per thousand upon corporate excess.  |
| 1½% " annuities.   |  | 2½% upon that portion of its income earned in Massachusetts, but subject in the case of a manufacturing corporation to deduction for machinery used in manufacture in Massachusetts and, in case of a foreign corporation, subject to a credit for dividends paid Massachusetts inhabitants. |
| 3% " gains from sale of intangibles.                             |  |  |
| 6% " interest and dividends.                                     |  |  |
| For exemptions and deductions, see table relating to Income Tax. |  | For detail and for minimum measures, see page 33.  |

## TABLE ONE

LIST OF REVENUE COLLECTED, AND CERTAIN ASSESSMENTS  
AND THE DISTRIBUTION THEREOF

## COLLECTED BY THE COMMISSIONER OF CORPORATIONS AND TAXATION

Checks are payable to The Commonwealth of Massachusetts and deposits are made daily with the Treasurer and Receiver-General.

| TITLE OF TAX  | Description   |
|---|---|
| <i>Business Corporations</i>  |   |
| 1. Domestic business and manufacturing corporation tax*                     | Excise based upon value of corporate excess and upon net income.  |
| 2. Foreign business and manufacturing corporation tax                       | Excise based upon value of corporate excess and upon net income.  |
| 3. Special tax on income of corporations, domestic and foreign, 1920        | $\frac{3}{4}$ of 1 per cent tax based upon net income.  |

| 10. Inheritance tax   | A graduated tax on property of deceased persons.  |
| 10a. Estate tax   | To acquire 80% credit Federal Estate Tax.   |
| 11. Additional inheritance war bonus tax                                    | 25 per cent of normal tax on property of deceased persons.  |
| <i>Bank</i>   |   |
| 12. Savings bank deposit tax  | $\frac{1}{2}$ of 1 per cent based on average deposits.  |
| 12a. Massachusetts Hospital Life Insurance Company deposit tax              | $\frac{1}{2}$ of 1 per cent based on deposits.  |
| 13. Savings department of trust companies deposit tax                       | $\frac{1}{2}$ of 1 per cent based on average deposits.  |
| 14. National bank tax   | Measured by net income: Rate determined by Commissioner.  |
| 15. Trust company tax   | Measured by net income: Rate determined by Commissioner.  |
| <i>Public Service Corporations</i>  |   |
| 16. War bonus, special and extra tax  | 1 per cent and $\frac{3}{4}$ of 1 per cent tax based upon net income.   |
| 17. Gas and electric light company tax                                      | Franchise tax based upon the value of the capital stock.  |
| 18. Street railway company tax  | Franchise tax based upon the value of the capital stock.  |
| 19. Railroad company tax  | Franchise tax based upon the value of the capital stock.  |
| 20. Telephone and telegraph company tax                                     | Franchise tax based upon the value of the capital stock.  |
| 21. Power company tax   | Franchise tax based upon the value of the capital stock.  |
| 22. Crematory company tax   | Franchise tax based upon the value of the capital stock.  |
| 23. Water company tax   | Franchise tax based upon the value of the capital stock.  |
| 24. Aqueduct company tax  | Franchise tax based upon the value of the capital stock.  |
| 25. Safe deposit company tax  | Franchise tax based upon the value of the capital stock.  |
| 26. Bridge company tax  | Franchise tax based upon the value of the capital stock.  |
| 27. Canal company tax   | Franchise tax based upon the value of the capital stock.  |
| <i>Miscellaneous Taxes</i>  |   |
| 28. Stock transfer tax  | Excise based at 2 cents upon each \$100 of the par value of shares of stock.  |
| 29. Income tax  | Classified tax at varying rates based upon income; individual, partnership, fiduciary, etc.                               |
| <i>Miscellaneous Revenue</i>  |   |
| 30. Care and custody of deposits  | Assessment $\frac{1}{20}$ of 1 per cent upon deposits in trust with State Treasurer.                                      |
| 31. Costs and summons on income tax   | Assessment upon delinquent income taxpayers.  |
| 32. Interest on bank balances   | From banks, account of daily deposits.  |
| 33. Certification of town notes   | Assessment, cities and towns, \$2 per note (20 or more notes, \$1 per note).  |
| 34. Sale of books, forms, etc.  | Assessment, cities and towns, actual cost.  |
| 35. Auditing municipal accounts   | Assessment, cities and towns, actual expenses.  |
| 36. Fees as Commissioner of Corporations and Taxation                       | For certain documents, copies and service of process.   |
| 37. Foreign corporation registration fees                                   | \$50 foreign corporation registration fee.  |
| 38. Fees, failure of corporations to make returns                           | Discretionary penalties upon corporation returns.   |
| 39. Gas and electric light division (Public Utilities Department), expenses | Assessment for salaries and expenses of Gas and Electric Light Division, Department of Public Utilities.                  |
| 40. Expense of inquests   | Assessment for expense of inquests.   |

\* See Chapter 359 of the Acts of 1929 and Chapter 366 of the Acts of 1931, for taxation of Domestic Corporations engaged exclusively in buying and selling securities on their own account.

\* See Chapter 220 of 1930 in re manufacturing corporations.

## Revenue collected by the Commissioner of Corporations and Taxation — Continued

| TITLE OF TAX  | Description  |
|---|--|
| 41. State tax . . . . .   | A deficiency bill determined by an annual legislative act covering difference between money appropriated and revenue available for State purposes, based on figures representing corporate values, local assessments and polls, apportioned every three years. |
| 42. Voluntary association registration fees                             | \$50 registration fee upon voluntary associations and trusts where beneficial interest is divided into transferable certificates of participation or shares.   |
| 43. General property tax . . . . .                                      | Assessed and collected by cities and towns based on full and fair cash value of land, buildings and tangible personal property at local rates.   |
| 44. Taxation of sales of gasoline and certain other motor vehicle fuel. | To raise funds toward construction of highways and bridges, an excise on the privilege of registration.  |
| 45. Excise tax on registered motor vehicles                             | For privilege of using the highways.   |
| 46. Special State Tax (Old Age Assistance)                              | Direct Tax. (Municipalities allowed to obtain money by a one dollar head tax on each male of twenty years of age or over. Purpose to render assistance to certain persons above the age of seventy.)   |

Much of the excess in revenue sources shown as of 1926, due largely to excess income taxes and is reflected in expenditures of 1927. Difference between expenditures and assessments explained in part by uncollected taxes, or cash balances.

\* Miscellaneous is made up of diversified activities, one of the largest being "Militia" in the amount of \$896,852 for 1930 and \$1,001,355 for 1931.

\*\* Separated for Cities and Towns only.

## DECISIONS OF THE MASSACHUSETTS SUPREME JUDICIAL COURT

## Decisions Affecting Municipal Corporations

CLARENCE W. DEALTRY & OTHERS *vs.* SELECTMEN OF THE TOWN OF WATERTOWN & OTHERS.

279 Mass. 22.

Middlesex. March 9, 1932. — April 8, 1932.

*Contract, Validity. Fraud. Municipal Corporations, Officers and agents. Equity Jurisdiction, Suit by ten taxable inhabitants.*

A suit, purporting to be under G. L. 40, § 53, was brought by fifteen taxable inhabitants of a town to restrain a corporation from the construction or laying of paving called for by contracts with the town and to restrain the town officials from paying any money for work so done and, as amended upon the carrying of the work through to completion despite notice of the taxpayers' bill, to compel the return of payments so made and the removal of the paving.

The suit failed on the ground that the charges of bad faith, collusion and favoritism and of illegal infringements of patents were not sustained. It was not shown that money was about to be expended illegally or that any illegal obligation was or was about to be incurred.

The court pointed out that the general aim of G. L. c. 40, § 53 has been said to be to furnish a prompt and effective remedy to restrain cities and towns from raising, borrowing or expending money for purposes not authorized by law. It "looks to the prevention of expenditures and the incurring of obligations which a town or city has no legal or constitutional right to make or enter into. It does not authorize the correction of wrongs wholly executed and completed . . . and except in extraordinary conditions, of which *Frost v. Belmont*, 6 Allen, 152, and *Welch v. Emerson*, 206 Mass. 129, are illustrations, the statute does not authorize an order for the return of past, illegal payments."

There was no illegality as to the appropriation or the manner of advertising for bids and the contract was let to the lowest bidder. The mere fact of near relationship between the superintendent of streets and an officer of the contracting corporation raises no presumption of impropriety sufficient to support charges of collusion and bad faith. Nor did the alleged infringements of patents which might expose the town to litigation by owners or licensees of the patented material which the specifications substantially called for although the contract was otherwise awarded, serve to invalidate the contracts nor justify the restraint of their performance nor any interference by the court with the payment of money due under them. The court said that a payment which a town is under a legal obligation to make ought not to be stopped by the court upon a taxpayers' bill. *Standard Button Fastening Co. v. Harney*, 155 Mass. 507. *Edward Thompson Co. v. Pakulski*, 220 Mass. 96. The doing of an act which might involve the town in litigation at the instance of the owner of a patent is not the incurring of an obligation within the meaning of G. L. c. 40, § 53. It was for the town officials within the exercise of their discretion to decide what paving material should be used and whether there was any practical chance of successful litigation because of the material selected. The court cited *Seward v. Revere Water Co.*, 201 Mass. 453, where it was said that on a taxpayers' bill, even if the contracts were voidable neither the plaintiffs nor the court could assume the functions of the town in the matter of avoiding them.

DANIEL F. KNOWLTON & OTHERS *vs.* TOWN OF SWAMPSCOTT.

280 Mass. 69.

Mass. Adv. Sh. (1932), 1399.

Essex. March 9, 1932. — July 9, 1932.

*Zoning, Equity Jurisdiction, Adequate remedy at law. Res Judicata.*

The owners of a tract of land bounded on two sides by the Atlantic Ocean, of great value for business uses and especially for hotel purposes to which it had been devoted for many years was placed by a zoning by-law adopted by the town within the general residence district. Suit was brought against the town on the ground that the property as zoned had no valuable use but was salable at a large price if available for new buildings for hotel purposes. It was shown that land across the

street was zoned and occupied for business and urged that the inclusion of its land in the general residence district served no public interest, was not indispensable to the general plan of zoning and would result, if allowed to stand, in the deprivation of property in violation of constitutional rights.

The court upheld an interlocutory decree sustaining the demurrer of the town to this part of the bill on the ground that the owners had a plain, adequate and complete remedy at law under G. L. c. 40, § 27A. This statute, added by St. 1924, c. 133, created a board of appeals which gives opportunity to any party suffering injury to his property through the operation of a zoning by-law to present his complaint to a tribunal provided by law, familiar with the local conditions, and to secure the relief to which he is entitled if any. Experience has demonstrated its practical utility.

The court pointed out the general principle that where a statute covers the whole subject to which it relates, including means for redress for wrongs arising in connection with it, other provisions of law are superseded. The subject of zoning in Massachusetts is the creation of statute under art. 60 of the Amendments to the Constitution. In appropriate instances, the proper public officer, improperly refusing to issue a building permit under zoning by-laws, ordinances or statutes, may be compelled to do so by mandamus, but a party cannot come into equity to secure relief open to him at law. Where preliminary proceedings are specially provided for him, there must be resort to them.

ALMA L. BATES & OTHERS *vs.* TOWN OF COHASSET & OTHERS.

TOWN OF COHASSET *vs.* ALMA L. BATES & OTHERS.

280 Mass. 142.

Mass. Adv. Sh. (1932), 1419.

Norfolk. April 4, 5, 1932. — August 25, 1932.

*Proprietors of Common Lands of Hingham. Way, Public. Municipal Corporations. Adverse Possession. Evidence, Presumptions and burden of proof. Land Court, Findings by judge, Requests and rulings, Exceptions.*

This case is of interest for the interpretation of the vesting of title under ancient grants of land divided by Proprietors of Common Lands.

Petitioners for registration of the title to a disputed tract of land in the town of Cohasset contended that a certain house lot included therein extended across a travelled road, title to it having been gained by absorption and adverse possession. A cross-petition was filed by the town for registration of the title on the ground that the title is in the town, as a part of the location of the road, as common land left undivided by the Proprietors of Common Lands and as originally granted to the Town in 1640 by the General Court and never alienated by it. It was contended that this grant was made to the Town, which was then a part of Hingham, in its corporate capacity.

The court briefly reviewed the matter of ancient grants and showed that meetings of the communities of the early settlers, in all of the different phases of community life, for religious purposes, for military defence, for the division of lands, for the use of common fields, for school purposes, and otherwise, were all held in the meeting house and the records were all kept in one book. Eventually many of these phases of community life became established as separate organizations under corporate or *quasi* corporate forms and regulated by statute. The Proprietors of Common Lands were early established as such a *quasi* corporate body for the purpose of division.

The limited corporate characteristics possessed by early towns tend to make it improbable that grants made by the General Court in 1640 were intended to be to the municipality. This view is supported by *Porter v. Sullivan*, 7 Gray, 441, 443 and *Rehoboth v. Hunt*, 1 Pick. 224, 228, where the court said: "All the lands were first granted by the crown to the Governor and Company of the Massachusetts Bay in New England, and by them were parcelled out to individuals, and, at a later period, to bodies of proprietors, as tenants in common"; "The title to the township was, by the ancient conveyances, in sundry persons, not as a corporation, but as individuals, being tenants in common; for although they are mentioned in some of the ancient conveyances as townsmen, or as inhabitants of Rehoboth, this

is only by way of description, and not as designating the capacity in which they are to take."

In the specific case under consideration the court found no error in the conclusion of the judge of the Land Court that the act of the General Court in 1640 conferring upon Hingham land and meadow in Conihasset and giving commissioners power to dispose of them to the inhabitants according to their number of persons and estate was a grant not to the town in its corporate capacity, but to the inhabitants as individuals to hold as tenants in common. The court said that the form of the act, as well as subsequent events, would seem to support the theory that the land in question should be within the territorial limits of the town of Hingham rather than that the title to it should be in Hingham as a municipal corporation.

In 1788 the Proprietors of Hingham, having finished the division of the common and undivided lands, voted to accept a committee report that "all the proprietors' ways and undivided lands be given up to the Town for their use and benefit" reserving certain strips, among which was that now in dispute, over which roads were to be constructed. The court upheld the construction that this constituted not a mere acceptance of the committee report but a grant to the Town of Cohasset. There was only one organization of proprietors. That organization was formed for the purpose of dividing the common lands, and, that having been accomplished, of passing out of existence. Title to the common lands was not in the corporation. The corporate organization was created solely for the convenience of the tenants in common in the management and division of their lands. Although the town of Cohasset was not mentioned by name in the vote the court sustained the trial judge in holding that when the proprietors gave up to the town "all the proprietors' ways and undivided lands" the title to such ways and lands as were in Hingham went to Hingham and the title to such as were in Cohasset went to Cohasset and that acceptance was to be presumed since nothing appears to the contrary. The proprietors had been proprietors of common lands in Hingham when Cohasset became a separate town. They continued to hold title to the land in both towns but would naturally refer to themselves as proprietors of the common lands of Hingham. Their purpose evidently was to bring their work of division to an end and the appropriate way to do it was to convey the land in each town to the town in which it lay. In *Easton v. Drake*, 182 Mass. 283, 285, the court said: "Liberal rules are to be applied in the construction of such ancient grants, in order to carry out the intention of the parties."

To the contention that title to the land in dispute had been gained by absorption and adverse possession, the court said it knew of no such method of acquirement of title. If title did remain in the proprietors, then the land not having been set off or granted to any individual but being held for public purposes, the title would vest in the town "by virtue of its establishment and existence as a municipal corporation." The question of gaining title by adverse possession is one of fact. The care taken by the petitioners of the tract in dispute was not such as would result in the acquisition of title in them by adverse possession. The travelled ways in question merely show a user, apparently permissive, under which are found no rights adverse to the Town.

The court said that findings of fact by a judge of the Land Court will not be disturbed unless unsupported by evidence. No reason was here found to change the definite findings in its decision to the effect that the act of 1640 did not vest title to the land granted in the town of Hingham, or to the effect that the title to the locus in dispute was not conveyed to anyone, or to the effect that it remained a part of the common lands.

EDWARD J. JAFFARIAN & ANOTHER vs. JOHN J. MURPHY.

280 Mass. 402.

Mass. Adv. Sh. (1932), 1695.

Middlesex. May 13, 1932. — October 28, 1932.

*Actionable Tort. Municipal Corporations, Officers and agents: personal liability of mayor.*

The mayor of a city was charged with acting in bad faith, without fair consideration, capriciously and arbitrarily, in refusing a license to operate a miniature golf course application for which came before him in a *quasi* judicial capacity. The

question for decision was whether such wrongful act in addition to being ground for remedy by mandamus, should also afford basis for an action of tort.

It was held that if no proof could be found of a purpose to benefit himself or others at the expense of the applicant or to do malicious injury to him the public officer should be released from personal liability in such a case.

The court referred to the line of Massachusetts cases holding that one having the legal qualifications entitling him to be registered as a voter or to vote, but denied that right by the honest but mistaken act of public officers, has a right of action in tort against those who have done him a wrong. These cases have been said to rest upon "grounds of public policy, the importance of the personal right, and the difficulty of vindicating it in any other way."

Particular reference was made to the fact that assessors in assessing taxes doubtless perform executive or administrative duties rather than *quasi* judicial functions, but until exempted by statute (see now G. L. [Ter. Ed.] c. 59, § 87) they were liable to a person injured by an illegal assessment, no matter how honest they were.

A strictly logical extension of such decisions, the court said, would support the contention of ground for damages but since in numerous opinions care has been taken, in exonerating public officers from liability, to confine the grounds of decision so as to exclude the element of bad faith as a factor, where no corrupt conduct was imported, the motives of the public officer should not be ignored and a possible over-zeal for the public welfare punished by making him liable in an action of tort.

WILLIAM W. DRUMMEY, INC. *vs.* CITY OF CAMBRIDGE.

Mass. Adv. Sh. (1933), 437.

Suffolk. January 11, 1933. — February 25, 1933.

*School and School Committee. Municipal Corporations, Officers and agents.*

An inspector of the department of public safety notified the mayor and school committee of a city of his inspection of certain school buildings in the general charge and superintendence of the school committee and ordered certain things to be done to make them comply with the law. Within the thirty days allowed for such compliance the appropriate sub-committee of the school committee voted to recommend the committee's authorization to employ such experts as might be needed to draw up plans and specifications for repairs to the schools. The plaintiff corporation was then employed to give expert advice on necessary repairs in connection with the state inspector's report, some repairs not suggested by the inspector being included in its report of recommendations which was duly voted adopted. After the report which set forth the cost according to its estimate of certain "alterations" with an estimate of architect's fees, the corporation was employed to prepare plans and specifications sufficient to obtain estimates from builders and to obtain them. The charge for each of these two services was less than \$500 which was admitted to be reasonable.

The charter of the city forbade any department, board or commission to make contracts involving an amount in excess of \$500 except in writing and required the approval of the mayor and the contracting department or board. It provided that no plan for the construction of or alterations in a school building should be accepted and no work begun unless the approval of the school committee and the mayor was first obtained but specified that no such approval was required for ordinary repairs. There was also a provision that the school committee "may make all repairs" and have "control of all school buildings and grounds." No written contract was made with the plaintiff corporation nor was there evidence of any approval by the mayor.

The question for decision is whether the city was bound by the action of its school committee in employing the corporation to act as adviser at the city's expense. If it had authority to employ such services, liability was established.

The city contended that the things required by the inspector were "alterations" requiring approval by the mayor, and not "repairs" such as the school committee had authority to make without such approval. The court said that what the school committee did was not to contract for plans and specifications and for services in making alterations or repairs of certain school buildings to comply with the order of the inspector but was to obtain expert advice with regard to the action to be taken by it in view of that order and its duty to make repairs. At the period

of the year when repairs and renovations of school buildings are ordinarily made, the sub-committee on buildings and grounds was confronted not only by its usual problem of repairs but also by the order of the State inspector. What that order implied and what was best to be done might well call for expert advice. The answer might affect seriously the wisdom of undertaking repairs upon other school buildings. The court accordingly held that the committee was authorized to obtain that advice at the city's expense, the cost being sufficiently low as not to require the mayor's approval under the city's charter. This decision renders unnecessary a determination whether what was ordered to be done was properly to be classified as "alterations" or as "repairs."

Recognition of the right of such a body as the school committee to incur expense in informing itself, with regard to a matter upon which it is called to act, appears in St. 1928. c. 36 (now G. L. [Ter. Ed.] c. 40, § 5, cl. 34). The court cited *Burgess v. School District in Uxbridge*, 100 Mass. 132, in which it was held that a committee charged with a duty to report could bind the town to pay for consultation with counsel in regard to the matter, and also *Rollins v. Salem*, 251 Mass. 468, where a mayor was held to be authorized to employ at the city's expense, an expert to advise him with regard to a schoolhouse construction contract, so that he could decide wisely upon his course of action. The court made it clear, however, that the law does not contemplate that officials are at liberty to incur such expense in matters about which they should be assumed to be well informed. They cannot hire others at public expense to do their thinking for them. Their right depends on circumstances. It does not exist where, ordinarily, persons who are charged with and who have undertaken to render a service would not need expert advice in connection with it.

BAYARD TUCKERMAN, JR., & OTHERS.

vs.

FRANCIS C. MOYNIHAN.

Mass. Adv. Sh. (1933), 791.

Essex. February 7, 1933. — April 4, 1933.

*Municipal Corporations*, Town meeting, warrant, vote; Officers and agents.  
*Highway Surveyor. Mandamus. Practice, Civil, Parties.*

Three votes were passed at an annual town meeting in substance as follows:

- (1) That the surveyor of highways be instructed that all work on highways, including snow removal, where trucks are required be let to the lowest bidder under sealed proposals, duly advertised for, the contract to be approved by the Board of Selectmen and the bidders to be limited to residents of the town.
- (2) That the town authorize and instruct the surveyor of highways to discontinue on all town work the use of a Mack Truck owned by the Commonwealth of Massachusetts and return it before a certain date.
- (3) Similarly that a Ford dump truck then attached to the highway department be discontinued and sold to the highest bidder.

This action was taken under an article in the warrant for the meeting which read: "To raise and appropriate money for Schools, Highways and all town expenses and determine the manner of expending same." The last clause of the first vote providing that the bidders on highway work be limited to residents of the town was added on an amendment by one who later at the meeting was elected surveyor of highways. He accepted the position but absolutely disregarded the votes believing them to be invalid because not within the scope of the warrant, in which opinion the selectmen shared. It was his contention that the votes are inoperative because (1) he is not bound by them, (2) they are in violation of G. L. (Ter. Ed.) c. 41, § 62, which provides that, "If a highway surveyor be chosen, he shall have the exclusive control of the ordinary repair of public ways in his town without being subject to the authority of the selectmen," and (3) in part at least, they are unenforceable in this proceeding because mandamus is an improper remedy. A petition was brought by twelve taxpayers in the town to compel him to put the votes into effect.

The court said that from early times a broad interpretation has been given to the language of G. L. (Ter. Ed.) c. 39, § 10, which requires that the warrant for a town meeting shall state "the subjects to be acted upon thereat" and enjoins that

"No action shall be valid unless the subject matter thereof is contained in the warrant." It has been held to be complied with if the warrant indicates "with substantial certainty the nature of the business to be acted on." *Coffin v. Lawrence*, 143 Mass. 110, 112. "The articles . . . are the mere abstracts or heads of the propositions which are to be laid before the inhabitants for their action; and matters incidental to and connected with such propositions are alike proper for their consideration and action." *Haven v. Lowell*, 5 Met. 35, 40-41. Matters of which they give substantial and intelligent notice may properly be dealt with under them. No such strictness is to be used in construing articles which deal with matters generally acted upon by towns as is required in an article relating to modification of a zoning ordinance under G. L. (Ter. Ed.) c. 40, § 30, and the decision in *Nelson v. Belmont*, 274 Mass. 35.

In this case the voters of the town were notified that the matter of expenditure for highways would be taken up. This involved not only the money to be spent, but the method of raising it and the manner in which it was to be spent. Whether apparatus owned or possessed by the town should be utilized or should be disposed of was fairly incidental to a decision of the expenditure. So, too, that certain expense should be incurred only after sealed bids had been obtained was reasonably incidental to the subject matter of highway expenditure. The details in regard to publication and approval of the contract by the selectmen were closely connected with the business acted upon. In the opinion of the court it could not properly be held that the subject matter of the votes was not contained in the warrant.

The Massachusetts statutes authorize a town to "make contracts for the exercise of its corporate powers" (G. L. [Ter. Ed.] c. 40, § 4); to appropriate money "For laying out, discontinuing, making, altering and repairing public ways, and for materials used and labor employed thereon" (c. 40, § 5 [4]); to hold personal property and to place it in the charge of any particular board, officer or department (c. 40, § 3); to "authorize their surveyors or road commissioners or any other person to enter into contracts for making or repairing the ways therein" (c. 84, § 7). They require that highways and town ways shall, unless otherwise provided, be kept in repair at the expense of the town in which they are situated (c. 84, § 1) and impose the duty of seeing that this is done upon surveyors of highways, or upon road commissioners where the latter officials are chosen (c. 84, § 7). The election of one or the other official is required (c. 41, § 1). The sphere of duty of a highway surveyor is defined by c. 41, § 62 as heretofore explained. In c. 84, § 7 is pointed out what he must do. If a town neglects to vote a sufficient amount for the proper repair of its ways, persons may be employed by the highway surveyor or road commissioner to make the necessary repairs at the town's expense and towns may authorize them to enter into contracts for making such repairs. Thus, these statutes make the town responsible for the expense of repairing its ways but they place the burden of seeing that the work is done upon surveyors of highways who in performing this duty are not the agents of the town but are public officials. By implication there is a duty upon the town to maintain its ways in a condition reasonably safe and convenient for travellers, for a distinct duty is enjoined upon it to appropriate money to meet the expense and a penalty is imposed for neglect (c. 84, § 22). The town can contract for making repairs with anyone, *Twombly v. Billerica*, 262 Mass. 214, *Clark v. Russell*, 116 Mass. 455, *Hawks v. Charlemont*, 107 Mass. 414, *Sikes v. Hatfield*, 13 Gray, 347, even though a highway surveyor has been elected.

The court held that G. L. (Ter. Ed.), c. 41, § 62 does not operate to release the surveyor from the authority of the town. It is "without being subject to the authority of the selectmen" that his power is conferred. He is not required, as once he was, to go to the selectmen for written consent to employment by him of persons to make repairs where insufficient provision has been made by the town, yet when, in his judgment, repair is imperative. It has been decided that he has no general power to contract for repairs. That power the town alone can confer. The authority granted by the Legislature to the town to confer it, in terms permits contracts for repairs to be made with "any other person" (c. 84, § 7). This power to contract, taken with the other power, specifically given, to make contracts for the exercise of its corporate powers, implies, in the opinion of the court, power to impose the conditions as to bids, bidders, publication and approval set out in the

vote here challenged. *Oliver v. Gale*, 182 Mass. 39, is, in principle, authority that a town may require a board, not its agent but performing a public duty at the expense of the town, to let out its work to the lowest bidder. In so doing the town is not interfering with the performance of the highway surveyor's duty to see that its ways are kept in repair but only regulating his power to contract with reference to it. It cannot interfere with the performance of his duty; it can regulate it.

There was nothing to show any invalidity in the vote in regard to the use or disposition of the trucks. That was properly a question for the owner or possessor, who was not the surveyor of highways. The town could rightfully let him use them or refuse to do so.

The surveyor of highways was not, however, in duty bound to accept the agency for return or sale sought to be thrust upon him, nor was he bound in performing his duty to keep the ways in reasonably safe condition to permit the town to dictate his action. He can contract only within the limits of the authority conferred by the town; but he can order necessary repairs to be made in such manner as he deems best, and the town must pay the bill.

The court held, however, that the petitioners did not make out a case to maintain a petition for mandamus. Such a petition asks the court, in its discretion, to order an inferior court, a corporation or an officer to perform a public, ministerial or official duty. Ordinarily, it can be maintained only by petitioners who have a private right or interest beyond the right and interest of the public or their fellows affected by the action complained of. The petitioners here have no right or interest beyond that of the voters and taxpayers of the town. Nevertheless, under the Massachusetts law, where the question is one of public right and the object of the proceeding is to compel the performance of a public duty not due to the government as such, and no other remedy is open, a private person may move without showing that he has any legal or special interest in the result beyond his interest as a citizen in the execution of the laws. Where, however, special provision is made otherwise by the laws for the enforcement of the duty, mandamus is not the remedy; and where the duty is owed to the government as such, private individuals, even if taxpayers, cannot resort to it. *Wellington, petitioner*, 16 Pick. 87. It is not, except in rare instances, a remedy for the enforcement of contractual obligations.

Here no dereliction of duty is charged. The complaint is that the surveyor of highways has disregarded commands of the town and refused to act as its agent in certain things. If he has ever undertaken to act as its agent, which does not appear, the town is the party in interest and the one to move against him. These petitioners have no private or special interest in the matter and show no authority from the town to take action on its behalf. A bill in equity, not mandamus, is their remedy if they contend that money of the town is being or is about to be spent wrongfully.

### Decision Affecting Betterments

ANNIE F. MULLEN *vs.* BOARD OF SEWER COMMISSIONERS OF MILTON.

280 Mass. 531.

Mass. Adv. Sh. (1932), 1527.

Norfolk. March 7, 8, 1932. — September 14, 1932.

*Tax, Assessment:* for sewer construction. *Constitutional Law, Taxation. Sewer. Milton. Statute, Construction. Practice, Civil, Waiver. Waiver. Certiorari.*

A sewer assessment will be sustained although it includes the cost of the sewerage system in front of nonassessable property, town property, the unassessed side of a corner lot, and that part crossing streets. The court reasoned that all such sewers needed to be built. They formed a part of the total cost of the system. The division of the total cost as between the town and the estates benefited was well within the flexible limits permitted by the act under which the assessment was levied, St. 1895, c. 304.

It was held invalid, however, to include in the cost authorized by a different section of the act to be assessed upon the estates benefited any part of the apportioned cost to the town of its participation in the metropolitan sewage disposal system.

It was argued with force, in the opinion of the court, that no system of sewerage can be complete without some provision for sewage disposal. But the two systems in the case here considered, one established by the town and the other by the Commonwealth, are independent and separate business undertakings. They are constructed and financed by different boards owing duty to different superiors, the cost of each ultimately to be met by different methods. The statute in its aspect here under consideration authorizes a form of taxation. It is a familiar rule that a tax must be justified by the very words of the statute and not on the grounds of expediency.

The court deemed it significant that from the enactment of the governing statute, 1895, c. 304, until 1927 the cost to the town of participation in the metropolitan sewage disposal district was not included in any local sewer assessment. This practical construction of the act for so long a period is not without weight and the conclusion seemed to the court necessary that a writ of certiorari to quash the sewer assessment assailed must issue on this ground alone. The contention that the assessment was void because unconstitutional on the ground that it imposed a burden upon property in excess of the special benefit arising from the expenditure the court said could not be supported nor could the contention that the provisions of G. L. c. c. 80 and 83 superseded the earlier provisions of the special act concerning the town.

### Decisions Affecting Local Taxation

WILLIAM J. MALEY, GUARDIAN, *vs.* TOWN OF FAIRHAVEN.

280 Mass. 54.

Mass. Adv. Sh. (1932), 1331.

Bristol. May 12, 1932. — July 2, 1932.

*Equity Jurisdiction*, To enjoin assessment of tax. *Equity Pleading and Practice*, Waiver of defence. *Tax*, Abatement.

A suit in equity was brought by the guardian of an insane and permanently and totally disabled veteran of the great war to restrain the assessment and collection by a town, and to direct the abatement of an assessment already made, of a tax upon real estate which represented the investment of part of the money received by his ward in a judgment recovered against the United States under a war risk insurance contract, authority for which had been duly given by the Probate Court. The guardian contended that the real estate is exempt from taxation under the "War Veterans' Act, 1924," so-called, Act of June 7, 1924, 43 U. S. Sts. at Large, Part I, c. 320, § 22, page 613, which, so far as material, reads as follows: "That the compensation, insurance, and maintenance and support allowance payable under Titles II, III and IV, respectively, shall not be assignable; shall not be subject to the claims of creditors of any person to whom an award is made under Titles II, III and IV; and shall be exempt from all taxation."

The single answer filed in behalf of the town, the assessors and the collector of taxes who were joined as parties defendant, admitted the allegations of fact as set out in the bill. The court said that although it has frequently been held that ordinarily a defendant in a suit in equity, by answering to the merits or proceeding to trial, waives the defence of want of equity, it was nevertheless its duty to consider of its own motion whether it has jurisdiction of the subject matter.

The finding was that the bill should be dismissed for want of jurisdiction in equity on the ground that the Massachusetts statutes as to abatement afford ample relief to an aggrieved taxpayer.

The court quoted at length from *Welch v. Boston*, 208 Mass. 326, where in considering the jurisdiction of a court of equity to try the validity of assessments upon property it was said: "We have an elaborate statutory system covering this subject (the raising of money by taxation), the purpose of which is to assure a prompt collection of revenue for the government, in its different departments and subdivisions. Remedies are provided for those who are compelled to pay taxes illegally assessed, which are direct and adequate. For this reason it has been decided many times, in this Commonwealth, that equity will not interfere to determine the validity of a tax, but will leave the machinery of government to move precisely as it was intended to move by the framers of the laws in regard to the assessment

and collection of taxes. . . . The only remaining question is whether we have jurisdiction from the fact that none of the defendants has objected to the jurisdiction. This is a matter affecting the public interest. The considerations which have moved this court to decline to interfere with the collection of a tax assessed by the proper officers have been considerations of public policy, adopted, and impliedly declared, by the Legislature, in the statutes relative to the taxation of property. The assessors . . . have been brought before the court as defendants in this case. Their duties are prescribed, and when they have assessed the taxes and issued their warrant to the collector they have no power to do anything that shall interfere with the collection of the taxes. They cannot consent to proceedings in a court of equity, to determine the validity of the action that they have taken officially under their oaths. . . . The same is equally true of the collector of taxes. When his warrant is committed to him by the assessors he is to do that which the law has prescribed for him, namely, he is to collect the taxes, and all of them, so far as possible."

The further holding was stressed by the court that the town in its corporate capacity had no more power to consent to proceedings in a court of equity to determine the validity of the assessment and collection of a tax than the assessors or collectors of taxes for the reason that the collection of taxes being a matter in which the whole public is interested, the only body competent to assent to jurisdiction in the interests of the public is the General Court. The conclusion was that even if the rule were adopted that where the plaintiff in a suit in equity "shows that in addition to the illegality of an exaction in the guise of a tax there exist special and extraordinary circumstances sufficient to bring the case within some acknowledged head of equity jurisprudence, a suit may be maintained . . .", the guardian could not prevail because no such circumstances here appear. The court held the case at bar to be the ordinary one where it is contended that taxes have been assessed contrary to law for which the statutory remedies are adequate.

FREDERICK W. BURNHAM *vs.* TOWN OF TEMPLETON.

280 Mass. 473.

Mass. Adv. Sh. (1932), 1749.

Worcester. September 26, 1932. — October 28, 1932.

*Practice, Civil*, Amendment. *Tax*, Payment under protest.

Payment of a tax assessed upon tangible property by the delivery and acceptance of a check, on the back of which was written a statement that it was paid under protest but without the signature of the drawer of the check nor of any party to the protest does not constitute basis for an action to recover a tax within the meaning of G. L. (Ter. Ed.), c. 60, § 98 which reads: "No action to recover back a tax shall be maintained . . . unless commenced within three months after payment of the tax nor unless such tax is paid . . . after . . . a written protest signed by him." The single question for decision was whether the protest made on the back of the check was signed by the taxpayer.

Because the statute quoted makes no provision in terms as to the location of the signature of the protestant, or that the terms of the protest shall be subscribed, it was contended that in law it is signed if the name of the protestant appears on the back or front of a single paper, provided an intentional connection is intrinsically shown to exist between the subject matter of the face and back of the paper.

The court said that this would be true of a memorandum required by the statute of frauds, and of the statute of wills, and perhaps in some other instances where a signing is required but that the addition of the words "signed by the person paying the same" to the statutes relating to the collection of taxes under an act to amend and codify such statutes, shows a legislative intent that the written protest itself should be signed by the party paying the tax and that the validity of the writing as a protest would not be met by proof of a signature of any other document however closely related it might be to the writing alleged to be a protest.

JAMES F. DILLON *vs.* OTTO C. LANGE.

280 Mass. 427.

Mass. Adv. Sh. (1932), 1775.

Hampden. September 22, 1932. — October 28, 1932.

*Merger. Mortgage, Of real estate. Tax, Sale.*

The remedies of a mortgagee compelled to satisfy a tax upon mortgaged property are extended and not limited by a provision in the mortgage that if the mortgagor should not pay the taxes, the mortgagee might pay them "and the amount paid with interest thereon from the time of payment, shall be added to the principal sum" secured by the mortgage and by the similar statute, G. L. (Ter. Ed.) c. 60, §§ 58, 60, St. 1932, c. 2. One of the mortgagee's remedies is to buy at the tax sale and hold the tax title in addition to the mortgage. The tax title is not extinguished by merger with the mortgage. Since the mortgagee has a clear interest and right to keep separate the mortgage and the tax title there is no merger in such a case. The assignment of the mortgage by the mortgagee leaves the tax title still vested in him and a suit to remove the cloud of the tax deed from the title to a mortgage acquired by mesne assignment and foreclosed was held to fail.

THE GRASSELLI CHEMICAL COMPANY *vs.* BOARD OF ASSESSORS OF THE CITY OF BOSTON.

281 Mass. 79.

Mass. Adv. Sh. (1932), 1777.

Suffolk. November 15, 1932. — November 21, 1932.

*Tax, Commonwealth Flats.*

A Massachusetts corporation leased from the Commonwealth for business purposes a part of the Commonwealth Flats in South Boston for a term of ten years beginning May 1, 1920, covenanting to pay rent and taxes during the term. Upon the dissolution of the corporation in 1929, the lease was assigned to the taxpayer, a foreign corporation, but such assignment was not assented to by the commonwealth. The assessors accordingly levied a tax as of April 1, 1930, upon the entire valuation of the land covered by the lease. In an appeal from a decision of the Board of Tax Appeals sustaining the refusal of the assessors of Boston to abate the tax, the sole contention of the taxpayer is that the assessors in valuing the property ought to have taken into account the fact that the lease terminated on April 30, 1930. It was agreed that if this contention was not sound the assessment was reasonable.

The court held that the tract assessed was manifestly not exempt but subject to taxation under G. L. (Ter. Ed.) c. 59, § 2 which provides that "All property, real and personal, situated within the commonwealth . . . unless expressly exempt, shall be subject to taxation." Clause 2 of § 5 of the same chapter makes "specific" exception to exemption as follows: "Property of the commonwealth, except . . . lands in Boston known as the commonwealth flats, if leased for business purposes." By § 11 "Taxes on real estate shall be assessed, in the town where it lies, to the person who is either the owner or in possession thereof on April first." Reference was made to *Boston Molasses Co. v. Commonwealth*, 193 Mass. at page 388, in respect to the scope and effect of the special statute governing the taxation of the Commonwealth Flats (St. 1909, c. 490, Part I, § 12) where the provision that, if leased for business purposes, they should be taxed by the City of Boston to the lessees thereof respectively, in the same manner as the land and buildings thereon would be taxed to such lessees if they were the owners of the fee was held to be satisfied only by a taxation of the fee simple estate to its full value. The court said that the terms of the statute are mandatory to the effect that the assessment must be upon the lessee to the same extent as if the lessee were the owner in fee. The circumstance that the lease might expire shortly after the tax date was held to have no effect upon the value of the fee as described in the mandate of the statute. The principle declared in *Lodge v. Swampscott*, 216 Mass. 260, to the effect that valid restrictions on the use of land are to be taken into account in the assessment of a tax is not pertinent in this case in view of the unmistakable words of the statute.

CHARLES S. WYNN *vs.* BOARD OF ASSESSORS OF THE CITY OF BOSTON.

281 Mass. 245.

Mass. Adv. Sh. (1932), 2201.

Suffolk. March 8, 1932. — December 24, 1932.

*Tax, Abatement. Statute, Construction.*

On April 1, 1931, a taxpayer made application for abatement of a 1930 real estate tax. More than four months having passed without a decision by the assessors the application was deemed to be denied under the provisions of G. L. (Ter. Ed.) c. 58A, § 6 and an appeal taken to the Board of Tax Appeals which refused the abatement on the ground that, although the real estate was found to have been overvalued, the taxpayer was not entitled to an abatement because he had not filed a list of his personal property. Whether this decision was correct was the only question for the court's consideration.

G. L. 59, § 64 as it was at the time of the assessment of the tax in question provided that no abatements should be granted unless the list required by § 29 of the same chapter be brought in to the assessors before a specified time was actually brought in or unless the assessors or the appellate board found good cause for the delay. By the provisions of St. 1931, c. 150, § 3, which became effective March 31, 1931, this section was amended to allow the abatement of a tax on real estate whether or not a list was brought in within the time specified, provided, only, that the application for abatement included "a sufficient description of the particular real estate as to which an abatement is requested." It was not contended in this case that compliance with this provision had not been made. There was no evidence that the taxpayer owned any taxable personal property in the city nor that the notice to bring in lists of personal property required by § 29 was given by the assessors although the court expressed willingness to assume these conditions in favor of the assessors, if material. The point at issue was whether the original statute operative when the tax was assessed prevailed or the amended statute in effect when the application for abatement was made to the assessors as well as when appeal was taken to the Board of Tax Appeals. Or, in other words, whether the above described change in the statute applies to an application for an abatement made after the effective date of such amendment, the time for filing the lists required by the original statute having expired before that date.

The court reversed the decision of the Board of Tax Appeals and held that the amendment made by St. 1931, c. 150, § 3 is applicable to the present case since no express statutory provision kept alive the statutes in force before March 31, 1931, as applied to any class of cases, and that the taxpayer is therefore entitled to an abatement.

The court said that sections 61 and 64 of G. L. c. 59, both before and after this amendment, are in form procedural. They do not purport to affect the substantive right of the taxpayer to be assessed upon "a fair cash valuation" of his taxable property (G. L. [Ter. Ed.] c. 59, § 38), but purport merely to prescribe the conditions under which an abatement may be granted if he is found to be "taxed at more than his just proportion, or upon an assessment of any of his property in excess of its fair cash value." (§ 59.) Lists which under § 29 assessors may or must by notice require taxpayers to bring in are for the assistance of the assessors in performing their duties (see *Boston Rubber Shoe Co. v. Malden*, 216 Mass. 508, 510) and the protection of taxpayers against assessments on property which they do not own. (§ 35.) But no penalty is provided for failure to bring in such lists except that by such a failure a taxpayer submits himself to "the doom of the assessors" (*Lincoln v. Worcester*, 8 Cush. 55, 64; G. L. [Ter. Ed.] c. 59, § 36) and is deprived of full remedy by abatement. The exclusive remedy for overassessment of real or personal property is the statutory proceeding for abatement. *Central National Bank v. Lynn*, 259 Mass. 1, 6-7; S. C. 266 Mass. 145. Additional remedies are available where the tax is wholly illegal. Bringing in a list, however, is not one of the conditions precedent to recovery of an illegal tax, which may be recovered back in an "action" as prescribed in G. L. (Ter. Ed.) c. 60, § 98, even if no list was brought in. But it is the form of the proceeding and not the illegal nature of the tax which renders a list unnecessary since, apart from St. 1931, c. 150, bringing in a list is a condition precedent to abatement of a tax wholly

illegal. The requirement of a list as a prerequisite for relief from improper taxation is, therefore, not only in terms included in the statutes dealing with abatements, but also in substance peculiar to relief by abatement. In the long history of statutory abatement (see *Sears v. Nahant*, 205 Mass. 558) there have been material differences between the conditions precedent to abatements by assessors and those precedent to abatement by appellate tribunals. An important difference still exists as may be seen from a comparison of § 61 with § 64 of G. L. (Ter. Ed.) c. 59. The court said that the natural conclusion is that the requirements of lists included in the statutes regulating abatements are to be regarded as constituent parts of the remedies thereby provided. The limitation is upon the particular remedy rather than upon the taxpayers' rights.

Statutes are ordinarily interpreted as prospective in operation unless an intention that they shall operate retroactively clearly appears. But a statute dealing with a remedy is prospective within this principle when applied to causes of action existing or actions pending at the time it took effect, if the time for its application had not then expired unless while in form affecting the remedy only, in reality, it materially affects substantive rights previously acquired. Such statutes, being in the main remedial, are liberally interpreted in order to effectuate their purposes. These principles of interpretation are applicable to a statute providing a more effective remedy for the enforcement of a prior right.

Interpreted in accordance with the principles stated the court decided that the amendment applies to the present case. Its manifest purpose is to give to owners of taxable real estate less restricted means of enforcing their rights to be taxed only on its actual value. Nothing in the amendment indicates a legislative intention to exclude from its benefits any taxpayer whose rights had not been finally adjudicated and who brings himself within its terms. If such an exclusion had been intended it could readily have been accomplished by an express provision to that effect. Although the history of the legislation resulting in St. 1931, c. 150 shows that a provision specifically applicable to applications for abatement filed after the effective date of the act or then pending was stricken out before its passage no inference is warranted that the amending statute was not intended to include an application for abatement filed, as here, after its effective date.

The time for the application of the amendment to the present case had not expired when it became operative. Nor had the taxpayer's rights been fully adjudicated under the statutes in force before amendment. The time for filing an application for abatement under those statutes had not expired and as required thereon he could have filed with it a list of his real estate with an estimate of the fair cash value of each parcel. Under the amendment when applicable — whatever the law was before — the appellate board might grant an abatement, even if no list of personal property had been seasonably filed and neither the assessors nor the appellate board found that there was a reasonable excuse for the delay.

The change in the statute, therefore, as applied to the present case, did not go to the extent of providing a remedy where there was none before but at most provided a more effective remedy. The extension of the right of review on appeal was clearly procedural and remedial furnishing a new tribunal for the adjudication of undecided issues and naturally applied to existing causes of action.

The amendment did not under the guise of changing procedure affect adversely substantive rights of the taxpayer for it made less rather than more stringent the requirements for abatement. Principles not requiring discussion here would be involved if such rights were affected adversely. The requirements as to bringing in lists are "in the general interest and for the protection of the public." The control of such procedural requirements rests in the General Court. The conclusion of the court was that reason appeared why the considerations leading to the change of policy here involved were not applicable to existing cases.

CITY OF BOSTON vs. EDWIN C. JENNEY, TRUSTEE.

Mass. Adv. Sh. (1933), 417.

Suffolk. January 10, 1933. — February 23, 1933.

*Tax, Sale:* foreclosure of tax title.

In a petition for foreclosure of a tax title the material facts are as follows: The city of Boston held a tax deed of certain land made by the collector for non-pay-

ment of taxes assessed for the year 1919. Sales of the property for non-payment of taxes were made for the years 1922, 1923 and 1924 and the deeds duly recorded. The purchaser of the tax title in the years 1923 and 1924 later quitclaimed all the right, title and interest acquired thereunder to the purchaser of the tax title in 1922 who, in 1931, obtained a decree of the Land Court, which declared the title obtained under the tax deed for sale for unpaid taxes of 1922 to be absolute. The city appealed from this decision; having in 1926 again sold the land for non-payment of taxes and taken over the tax deed under such sale, it now sought to have the title thus acquired declared to be absolute.

The court cited the decision in *Landers v. Boston*, 267 Mass. 17 as controlling. It was there held that, by virtue of G. L. (Ter. Ed.) c. 60, § 61, where a town or city had purchased or taken real estate for payment of taxes, it could not later sell or take the premises for non-payment of subsequent taxes, costs and interest, but must obtain them on the redemption or the foreclosure of the right of redemption under such taking or purchase; and that any subsequent sale or taking made before such redemption or foreclosure was invalid. The sales made by the city after the sale for the taxes of 1919 were, therefore, uncalled for and invalid. The deed relied upon by the city for the sale of 1926 was also invalid.

The court said that if it were suggested that the title under the sale for unpaid taxes of 1922 which was deemed to be absolute rests upon a deed open to the same objection the answer is that the city must rely upon its own title, and, furthermore, that a title once declared absolute by the Land Court is not open to attack but is beyond challenge, G. L. (Ter. Ed.) c. 185, § 45.

### Decisions Affecting Business Corporations

MARTIN HAYS *vs.* THE GEORGIAN, INCORPORATED, & OTHERS.

280 Mass. 10.

Mass. Adv. Sh. (1932), 1231.

Suffolk. December 7, 8, 1931. — July 1, 1932.

*Equity Pleading and Practice*, Appeal, Bill, Demurrer. *Corporation*, Promotion, Reorganization, Officers and agents. *Fraud*.

The directors of a Massachusetts corporation well knowing its precarious financial condition, conceived the scheme of organizing a new corporation for the purpose of selling the assets of the old corporation to it, and of selling through the medium of the new corporation large blocks of stock upon a basis which would enable (1) the old corporation to pay its debts, (2) the directors to recover sums invested by them in the old corporation, and (3) the directors to obtain large profits. An agreement was accordingly entered into with certain bankers and an appraisal company to appraise the assets of the old corporation at an excessive valuation, to cause a sale of these assets to the new corporation, and to cause the new corporation to issue preferred and common stock for resale to the public so as to accomplish the purposes set forth above and to yield to the directors and the bankers "an unconscionable profit."

A minority stockholder who was not an original stockholder but who purchased stock from the promoters brought suit to recover the profits made by the promoters out of the transactions, to be paid to the new corporation.

After establishing its jurisdiction over the case, the court held that equity will not lie in the name of a corporation, or minority stockholder, to compel refund of excessive profits in a reorganization where suit is brought not by an original subscriber but by one who purchased shares from a broker or other vendor of stock. If any wrong was committed on the buyer, it was by the seller, not by the corporation. The buyer, under those circumstances, is not in a position to enforce rights of the corporation.

The court distinguished this case from *Old Dominion Copper Mining & Smelting Co. v. Bigelow*, 188 Mass. 315 and 203 Mass. 159, in which the complainants were original subscribers and were not informed of the secret profits of the promoters. In the present case the complainants did not purchase stock from the corporation and therefore cannot hold it liable. Whether one is defrauded in buying stock as an original subscriber in a corporation, or as the vendee of an original subscriber,

may not have effect on the extent of the loss to the person defrauded, the court said, but the distinction appeared to it to be founded on a substantial basis.

When one as an original subscriber buys stock directly from a corporation in conformity to the plan for its promotion, the parties to the transaction are the subscriber and the corporation. The subscriber has a right to assume that the corporation has been honestly organized. There is something akin to an implied representation on the part of the corporation that there has been no breach of duty toward it on the part of its promoters. The invitation to the public to become original subscribers to stock as a part of the scheme of promotion imports a representation by promoters that the corporation has been honestly organized without violation of their fiduciary duty to it because there is a general presumption in favor of honesty. The ruling was sustained that no stockholder can sue unless there has been or is to be an issue of stock direct by the corporation to innocent subscribers and, unless this appears, all stockholders are left to any individual causes of action which they have against the persons selling them stock.

The circumstance that in this particular case the bankers after the establishment of the new corporation took title directly from it as original subscribers from time to time of shares which they resold to the public does not take the case out of the operation of the general principle stated. Purchasers of such stock from the bankers cannot be regarded as equitable original subscribers with all the rights accorded to actual original subscribers.

ECONOMY FOOD PRODUCTS COMPANY *vs.* ECONOMY GROCERY STORES CORPORATION.  
281 Mass. 57.

Mass. Adv. Sh. (1932), 1957.

Suffolk. May 11, 1932. — November 7, 1932.

*Trade Name. Equity Jurisdiction.* To enjoin unfair competition, To enjoin infringement of trade name.

In an appeal from a suit brought by the Economy Food Products Company engaged since 1913 entirely in wholesale business, against the Economy Grocery Stores Corporation, developed from a small corporation, organized in 1915, into a large chain store grocery business, the finding was sustained that there was no unlawful competition nor any enforceable right to require a change of name.

The court said that G. L. (Ter. Ed.) c. 155, § 9 will not interfere to restrain competition where there exists no conscious intent to injure; no effort to secure for oneself the benefit of another's industry, business capacity and capital outlay; and no harm to the public from imposition through probable confusion.

There was evidence that due to the presence of the word "Economy" in each name and that each corporation dealt in food products, intelligent people had confused the names here in question. Such similarity of names that they may be readily confused by intelligent people has been held to constitute jurisdiction in equity to restrain doing business in violation of G. L. (Ter. Ed.) c. 155, § 9. While an objectionable similarity was admitted, although the only appreciable injury was the all but inevitable diversion of trade which happens from the growing business on the part of the Economy Grocery Stores Corporation in its particular field within part of the greater area in which the Economy Food Products Company seeks a different class of customers, failure to act under this statute until 1930 serves as a bar to relief under it. A warning in 1917 that legal steps would be taken if injury were done was not enough. The court referred to the principle already established that unless objection to the use of a corporate name be made with reasonable promptness the courts would not restrain such use.

The right given by said § 9 differs essentially from the right to be free from unfair competition or unlawful interference with trade marks or trade names and from the right given by G. L. (Ter. Ed.) c. 110, § 4. Primarily it is based upon the public right not to be misled by identical or similar corporate names. If a private person wishes to profit by it he should act, however, before lapse of time has permitted equities to grow in the offender's favor. He should not wait until expenditures of energy and of capital have given a value to the name in the hands of the holder, who may, as in this case, be innocent of any improper motive in adopting it originally. What period of time and what circumstances will bar relief in any particular case, the court said, must depend upon the facts of that case.

It was further shown that no remedy appears by virtue of G. L. (Ter. Ed.) c. 110, § 4 which relates to the right to restrain the use of the identical name in question or that of a deceased person thus represented. All that is here complained of is the use of the word "Economy." That is not the complainant's name. Its name is "Economy Food Products Company." The court rules that such a name cannot be broken into component parts and the use of a part be restrained under this statute.

THE CONLIN BUSS LINES, INC. *vs.* OLD COLONY COAST LINES, INC.  
BOSTON, WORCESTER & NEW YORK STREET RAILWAY COMPANY *vs.* SAME.  
THE CONLIN BUSS LINES, INC. *vs.* CARL K. ASELTON & OTHERS.  
BOSTON, WORCESTER & NEW YORK STREET RAILWAY COMPANY *vs.* SAME.

Mass. Adv. Sh. (1933), 715.

Suffolk. December 13, 1932. — April 3, 1933.

*Interstate Commerce. Carrier, Of passengers by motor bus. Motor Vehicle, Bus.*

These suits in equity were brought under G. L. (Ter. Ed.) c. 159A to determine whether carriage of passengers from one place to another within one state by a route which lies in part in another state is interstate in nature.

The plaintiff Massachusetts corporations are common carriers of passengers and transport a large number of passengers between Boston and Springfield and intermediate places over highways entirely within this state. Each corporation operates under certificates of convenience and necessity issued by the department of public utilities and licenses procured from the various cities and towns through which its route passes, has filed the requisite bond and otherwise complied with controlling statutes and regulations as required by G. L. (Ter. Ed.) c. 159A. The purpose of their suit was to enjoin the defendants from transporting passengers for hire over highways between Boston and Springfield, without having obtained a certificate of public necessity and convenience from the department of public utilities and otherwise complying with the provisions of c. 159A.

The defendants are carriers of passengers for hire by motor vehicle between Boston and Springfield following the same route as the plaintiffs from Boston to Worcester but thence turning and running through the State of Connecticut over, for the most part, a modern high speed road which is much less used and consequently where less hazard to travel exists and where superior scenic beauty is offered to that of the Post Road route continued by the plaintiffs from Worcester to Springfield. The distance traveled is about the same, the running time about ten minutes less and the fares less than the fares charged by the plaintiff corporations. No passengers are carried who are traveling from one point to another within Massachusetts, except those who are carried through Connecticut as a part of the transportation. The rest of the business of the defendants is transportation of passengers from places outside of to places within Massachusetts. The interstate nature of that part of it is not questioned. The defendants contend that their business is "exclusively interstate" and therefore beyond the regulatory power of Massachusetts and excluded from the operation of G. L. (Ter. Ed.) c. 159 by its § 1. The soundness of that contention is the main question for determination.

The master who heard the case found after a detailed comparison of the number of passengers carried between places in Connecticut and places in Massachusetts and the revenue derived therefrom, as compared with the number carried between places within Massachusetts but through Connecticut as part of the route followed, and that revenue, that the business of each defendant between places outside of and within this state "is negligible and very incidental to the service provided by each between Massachusetts points passing via Connecticut en-route . . . and that they would not operate this route if the only business they could legally carry was from Massachusetts to Connecticut or *vice versa*."

The court said that since Congress has not yet voted upon the interstate transportation of passengers by motor vehicles over highways, State laws regulating the matter "fall within that class of powers which may be exercised by the States until Congress has seen fit to act upon the subject." Such laws, however, must be strictly regulatory and may not involve discretionary, partial, or actual prohibition.

*Commonwealth v. New England Transportation Co.*, Mass. Adv. Sh. (1933), 671. The subject of such regulation as to method of transportation, inspection of vehicles, speed of travel, competency of drivers, conservation of highways, tax or some form of compensation for their use, etc., must be here excluded as not involved. The court emphasized the point that the only question for decision was whether on the facts presented the carriage of passengers by the defendants is "exclusively interstate" and thus excepted from the operation of c. 159A by the express words of the final sentence of its § 1. This question is presented for the first time and, in the opinion of the court, is not covered by *Barrows v. Farnum's Stage Lines, Inc.* 254 Mass. 240 nor by *Commonwealth v. Potter*, 254 Mass. 271 and cases there cited.

The court said that the definition of interstate commerce and the determination of what constitutes it are questions to be answered according to principles declared by the United States Supreme Court as the final guide, since by art. 1, § 8, of the Federal Constitution Congress is vested with power "to regulate commerce . . . among the several states. . . ." It accordingly cited various explicit decisions touching facts indistinguishable in essence from those here present and declaring principles which control the cases at bar. In *Hanley v. Kansas City Southern Railroad*, 187 U. S. 617, where a loop of the railroad over which shipments were made ran through another state, it was said "To bring the transportation within the control of the State, as a part of its domestic commerce, the subject transported must be within the entire voyage under the exclusive jurisdiction of the State." In *Western Union Telegraph Co. v. Speight*, 254 U. S. 17, where it was more convenient and less expensive to send a telegram from one place to another within North Carolina over lines in part in Virginia, it was held that "The transmission of the message through two states is interstate commerce as a matter of fact. . . . The fact must be tested by the actual transaction. *Kirmeyer v. Kansas*, 236 U. S. 568, 572." Where merchandise was shipped from choice over a route lying partly in another state, it was decided that "Transportation . . . over the route partly within and partly outside of Missouri is interstate commerce." *Missouri Pacific Railroad v. Stroud*, 267 U. S. 404.

The facts here, although somewhat similar, are distinguishable from *Lehigh Valley Railroad v. Pennsylvania*, 145 U. S. 192, where the validity of a tax was involved. This was cited in the opinion in the *Hanley* case as a decision to which some state courts had attributed an unwarranted excess of deference. Cases upon which the plaintiffs in part rely like *Cook v. Marshall County*, 196 U. S. 261; *Browning v. Waycross*, 233 U. S. 16; *Baltimore & Ohio Southwestern Railroad v. Settle*, 260 U. S. 166; *Sprout v. South Bend*, 277 U. S. 163, and *Superior Oil Co. v. Mississippi*, 280 U. S. 390, do not appear to this court as pertinent because they are instances where the court looked through contractual or other subterfuges of parties to the real nature of the facts to determine whether interstate commerce existed or was involved. Nor was the finding in *Inter-City Coach Co. v. Atwood*, 21 Fed. Rep. (2d) 83 at variance with this conclusion. There the proposal to run between two terminals within one state for a short distance in another state was not considered a *bona fide* commercial arrangement but a "mere fiction of interstate commerce" to escape state regulation. An inference of that nature is not here warranted.

The court held that the transportation conducted by the defendants, is in fact interstate. Their motive in undertaking business along a route which has certain advantages did not make the business intrastate. The conclusion was that the business conducted by the defendants is exclusively interstate within the meaning of those words in G. L. (Ter. Ed.) c. 159A, § 1 and that the defendants are consequently exempted from the operation of that statute.

CRIMMINS & PEIRCE CO. & OTHERS vs. KIDDER PEABODY ACCEPTANCE CORPORATION & OTHERS.

Mass. Adv. Sh. (1933), 731.

Suffolk. March 8, 1932. — April 4, 1933.

*Corporation, Rights of stockholders, Classes of stock.*

A Massachusetts corporation was organized to take over the business and assets of a preëxisting corporation as a going concern. It issued class A preferred stock

to the preëxisting corporation in exchange for all its assets subject to its liabilities. The old corporation distributed this class A preferred stock share for share to its own stockholders in liquidation. To raise capital for its business operations the new corporation issued for cash class B preferred stock, described in a circular letter to stockholders outlining the plan of organization of the new corporation, as on a parity as to security with class A preferred stock, "except that it will be redeemable by the Company or at the option of the holder, at par and accrued dividends." The circular letter announcing the vote of the directors in accordance with which class B preferred stock was issued recited the provision that such shares might at the option of the holder be retired upon any dividend date at the price of par plus accrued and unpaid dividends upon the required notice in writing. Neither class had voting rights nor any voice in the management, these rights being vested exclusively, in effect, in common stock which was also issued in addition to a class of second preferred stock. There was a further provision that class B preferred stock should be reserved for sale for cash at not less than par but must first be offered pro rata to class A preferred stockholders. Dividends on both class A and class B preferred stock were preferential and cumulative, the only difference in this respect being that the rate was fixed at 5% for class A stock but for class B was to be fixed by the board of directors at the time of issuance. The class B rate was made 6%. In the event of dissolution class A and class B were to be treated as equal, to be paid in full without distinction. The rights and preferences of the two classes were set forth in the agreement of association and were a part of the contractual obligations of the stockholders between themselves and between them and the corporation.

Redemption rights were also provided and it was upon their correct interpretation that this case arose. Under such provisions the whole or any part of class A and the whole or any part of class B preferred stock might be retired at the option of the board of directors on any semi-annual dividend date upon thirty days' notice by the payment of the par value plus accrued and unpaid dividends. Class B stock, however, might also be retired at the option of the holder at the same redemption cost under such conditions as the board of directors might prescribe at the time or times of issue but upon not less than eighteen months' notice. The preferences established for class B over class A preferred stock were fully set forth to the holders of the stock of each class.

The respective dividends due upon the several classes of preferred stock not having been paid for two dividend periods, the holders of a majority of the shares of class B preferred stock notified the corporation that they desired to have their stock retired at par plus accrued and unpaid dividends. Certain holders of class A preferred stock brought suit to restrain the defendant directors of the corporation from their announced intention of complying with this exercise of the right of redemption until such time as it could be done without the result to them and to all other holders of class A stock of greatly aggravating a serious impairment of capital already existing. There were no allegations that the corporation was insolvent nor that injury to creditors was threatened nor bad faith, fraud or breach of trust involved on the part of the directors nor that the retirement and redemption of class B preferred stock would disable the corporation from continuing to operate although the inference is that its activities might be considerably curtailed. Relief was sought by the stockholders of one class to restrain those of another class in the same corporation from enforcing their asserted rights. The main contention was that the redemption of class B stock would leave the corporation in such condition that class A stock would not be worth par or would be so reduced as to destroy the implied condition of the issuance of the two classes of preferred stock, that is, their substantial equality.

The court said that this contention could not be supported. Preferences between different classes of stock in domestic corporations are recognized by statute as part of the established policy of Massachusetts. In view of the provision that every business corporation is authorized to create two or more classes of stock with such preferences, voting powers, restrictions and qualifications thereof as shall be fixed in its agreement of association or articles of organization (G. L. [Ter. Ed.] c. 155, §§ 18, 19; c. 156, § 13), the court said it could not well be contended under the circumstances here set forth that the preferences of class B stock over class A were in themselves illegal nor outside the terms of the enabling statutes.

The inquiry came therefore to the interpretation of the above described right of redemption clause in the agreement of association. The rights thereby established with respect to the stockholders as between each other and as between the stockholders and the corporation are contractual. The court cited the principle that all the provisions and phrases of a written contract are presumed to be employed with the purpose that each has an appropriate meaning. In interpreting contracts every word is to be given force so far as practicable. The interest of the parties must be gathered from a fair construction of the contract as a whole and not by special emphasis upon any one part.

The particular preference given class B stock over class A stock, that the former is entitled to cumulative dividends at a higher rate and may be redeemed at par at the option of the holder, follow a sentence in the agreement of association establishing preferences where both classes are on an equality. It is accompanied by the word "also", which denotes a new, distinct, and additional matter. Since there was no provision as to the source from which funds were to be taken for the redemption of class B stock, they are held payable from any available funds of the corporation. This is in distinction to *Miller v. M. E. Smith Building Co.* 118 Neb. 5, where the contract was interpreted to mean that the redemption must be made solely from earnings and there were no earnings. The provisions as to preference were doubtless on the certificates of stock in conformity to G. L. (Ter. Ed.) c. 155, §§ 18, 19, but the plaintiff stockholders were in any event presumed to know of the provision. It may well have been an inducement to the investment of cash by purchasers of class B stock, which could be issued only for cash at not less than par.

Right of redemption has been recognized as a part of a contractual preference in issuing preferred stock. In principle it is analogous to purchase by a corporation of its stock which commonly is valid. While the court said it had been held that contracts for redemption of stock are subject to the implied limitation that they cannot be enforced if the effect is to render the corporation insolvent, or if there are other express limitations upon the right, there was here no allegation of the insolvency of the corporation if the class B stock were redeemed as requested. Moreover, in determining whether a corporation is insolvent, liability to stockholders on capital stock is not taken into account. *Calnan v. Guaranty Security Corp.* 271 Mass. 533, 542.

A preference in favor of putting cash into an established business violates no principle of fair dealing if all the parties in interest know about it as appears here to be the case. It is fairly inferable that some special inducement was thought necessary to stimulate the investment of cash in the corporation in return for purchase of class B preferred stock. It formed a part of the contract on which subscriptions to that class of stock were made.

The court concluded by saying that in general and unless restrained by valid statutes, competent persons have the utmost liberty of making contracts. Agreements voluntarily made between such persons are to be held sacred and enforced by the courts and are not to be lightly set aside on the ground of public policy or because as events have turned out it may now seem unfortunate to one party. This principle is held applicable to the facts in the present case where the class A preferred stockholders entered into the agreement of association without compulsion and of their own choice. Its terms are plain and under it the right of redemption of class B preferred stock may not be restrained.

### Decisions Affecting the Sale of Securities

HERBERT A. KNEELAND *vs.* ALBERT EMERTON.

280 Mass. 371.

Mass. Adv. Sh. (1932), 1839.

Suffolk. January 6, 1932. — October 31, 1932.

*Contract, Validity, Sale of securities. Sale, Validity, Of securities. Corporation, Sale of stock. Statute, Construction. Waiver. Laches. Constitutional Law, Due process of law. Words, "Owner," "Repeated and successive transactions."*

The purpose of G. L. (Ter. Ed.) c. 110A is to protect the public from fraud in the purchase of corporate securities by controlling their sale by means, among other requirements, of the registration of persons selling them. In general, it

provides for filing with the Public Utilities Commission a notice of intention to sell securities (§ 5), to be followed within seven days by a statement in considerable detail in regard to them and to the corporation issuing them, and for the periodic filing of statements of condition of such corporations. The commission has the power to forbid the sale of such securities if of the opinion that it is fraudulent, or would result in fraud, as in the case of securities of little or no value or based upon unsubstantial projects. Certain classes of securities are exempted from the operation of the act [§ 3(a)]. Extended provision is made for the registration of brokers and heavy penalties imposed for violation of the terms of the statute.

The question here presented is whether or not it was the intent of the legislature as disclosed by the words of the statute that a sale made in violation of it should be absolutely void. The court held that even if such an express provision, which had been under consideration, was not embodied in the act as passed by the legislature without amendment, nevertheless its requirements amount to a mandate in unequivocal terms to the effect that there can be no sale until the notice of intention to sell required by § 5 of c. 110A has been filed. To hold the provisions of this section as merely directory would frustrate a main purpose of the statute and permit sales of fraudulent stock, without redress for the defrauded purchases, during a period of at least seven days and such further time as might be required for adequate examination by the commission of the information required to be submitted to it. The conclusion seemed to the court irresistible that the purpose of the legislature, as disclosed by the statutory words, and its chief design are that contracts made in violation of the statute should be void. In no other way can the individuals for whose protection the statute was enacted secure genuine relief from the evils liable to be inflicted upon them by unrestrained and unregulated sales of fraudulent securities. Therefore, such a sale being void, a purchaser of securities ignorant of the fact that there was any violation of the statute by the seller, was held to be entitled to recover the price paid for them upon rescission of the transaction.

To the contention that "notice of intention to offer for sale the security named" is required only of a "person offering the same for sale", and therefore does not apply in a case where the seller did not offer stock for sale because its purchase was solicited from a broker without offer on his part, the court held that while a literal reading of parts of the section gave some support to this view, it was too narrow a construction in the light of the purpose of the statute and all its provisions. Property may be offered for sale without personal solicitation to anybody to become a purchaser. The design of the statute is to protect the public, not from solicitation for sales of securities, but from fraudulent securities. That purpose would fail of adequate enforcement if limited to instances where the seller makes a preliminary offer to a particular buyer. The court pointed out that the main prohibition of § 5 is against sales of securities. Its precise words are that "no security . . . shall be sold" until after compliance with specified prerequisites. The subsequent provisions the court said must be interpreted to effectuate the positive preceding prohibition.

In examining the final contention that § 5 (a) is so vague and indefinite in exempting from the provisions of the act an "isolated sale" of a security not "made in the course of repeated and successive transactions of a like character" and not made by an underwriter of the securities sold, that "men of common intelligence must necessarily guess at its meaning and differ as to its application", the court said that regard must be had to the settled underlying principle that all rational presumptions are to be made in favor of the validity of a statute. Its enforcement will not be refused unless its conflict with the Constitution is established beyond reasonable doubt.

The words "isolated sale" in the opinion of the court are not susceptible of misconstruction. The word "security" is defined by § 2 (c) of chapter 110A with adequate precision. The attack is centered on the words "in the course of repeated and successive transactions of a like character." The words "repeated and successive transactions" in their context are not too indefinite in the opinion of the court to inform the ordinary person of their signification. They are used by way of contrast to the word "isolated" employed earlier in the same sentence. Sales of securities manifestly constitute the "transactions." In such a context an

"isolated sale" means one standing alone, disconnected from any other, and "repeated and successive" mean transactions undertaken and performed one after the other. The court said that two sales of securities, made one after the other within a period of such reasonable time as to indicate that one general purpose actuates the vendor and that the sales promote the same aim and are not so detached and separated as to form no part of a single plan, would be considered "repeated and successive transactions." It did not hold it essential to the validity of the statute that it prescribe the exact period of time within which "repeated and successive transactions" must occur because they must be within a reasonable time fixed by the common law in the light of all the circumstances. The phrase "transactions of like character" in its context refers to "sale of any security" mentioned earlier in which the dominant factor is "transactions" and not the particular security. The words "like character" import resemblance in salient features and not identity in all particulars. Thus construed, the court held that §§ 5 and 3 (a) are not open to the objection of vagueness on constitutional grounds. The ordinary person can understand what he is permitted to do and what he is forbidden to do.

Chapter 110A does not reach into fields where terms may be new and nomenclature without definite and settled signification. Its purpose is to protect people from fraud in the purchase of corporate securities. Scarcely any subjects in the common law are more familiar to popular understanding than fraud and sales and securities of corporations. The statute assailed was accordingly held to be sufficiently definite considering the nature of the evil which the Legislature desired to curb as not to violate the due process of law provision of the Fourteenth Amendment to the Constitution of the United States and the rights guaranteed by Art. 2 of the Bill of Rights of the Constitution of this Commonwealth.

COMMONWEALTH *vs.* THE NATIONAL CITY COMPANY OF BOSTON.

280 Mass. 439.

Mass. Adv. Sh. (1932), 1859.

Suffolk. October 3, 1932. — October 31, 1932.

*Sale, Of securities. Constitutional Law, Due process of law.*

A complaint by the Commonwealth charging a Massachusetts corporation with sales of securities in violation of G. L. (Ter. Ed.) c. 110A, § 5 was contended on the same basic ground as in *Kneeland v. Emerton*, ante, 1839, namely, that §§ 5 and 3 (a) in combination are so vague and indefinite as to present insoluble ambiguities and thus render the statute unconstitutional. The court said that all the arguments here put forward in assailing the constitutionality of this statute were there carefully examined and discussed in detail and that the decision in that case being equally pertinent to the case at bar is controlling. The circumstances that *Kneeland v. Emerton* was a civil action, sounding in contract, while the present case is a criminal prosecution, affords no ground for a sound distinction in the application of constitutional principles to the present case.

### Decisions Affecting Voluntary Associations

CARL LARSON *vs.* RALPH P. SYLVESTER.

Mass. Adv. Sh. (1933), 571.

Middlesex. February 7, 1933. — March 29, 1933.

*Equity Pleading and Practice, Exceptions, Appeal. Contract, What constitutes. Trust, Personal liability of trustee. Practice, Civil, New trial.*

In this case the issue was whether a contract for work done for a building trust, established under a written declaration, the beneficial interest under which was divided into transferable shares, was made with a trustee looking to the trust as the responsible party or with him in his individual capacity and on his personal responsibility. It is largely of interest here for the dicta contained in it describing trusts in general and drawing certain vital distinctions.

The court said that speaking generally, a trust is not a legal personality. With the exception later to be dealt with, it cannot be sued. It is represented by the

trustee. He embodies it. He holds title and deals with property in which trust rights exist. Contracts with regard to the rights and property affected by trusts are the contracts of the trustee. He, in person, is liable upon them. He is not acting as representative or agent of another. He is acting for himself but with fiduciary obligations to others.

A trust differs from a corporation or a partnership. A corporation is a legal person. A partnership, under the Massachusetts law, is an association of individuals united for the transaction of business. A corporation can be sued as a body corporate in its own name. A partnership must be sued, ordinarily, in the names of the partners. Many purposes are served if persons may unite in placing property in the hands of a trustee and allowing him to transact business not as an agent or partner of theirs but as owner of the property subject only to equitable obligations. When this device was put into use trust instruments appeared dealing with property in equity owned by people, voluntarily associated, whose rights were represented by transferable certificates, but, at law, owned and managed by a trustee or trustees and the court had to pass on their nature and decide whether trusts or partnerships had come into being. *Gleason v. McKay*, 134 Mass. 419; *Phillips v. Blatchford*, 137 Mass. 510; *Williams v. Milton*, 215 Mass. 1; *Frost v. Thompson*, 219 Mass. 360; *Priestly v. Treasurer & Receiver General*, 230 Mass. 452.

In 1909 the Legislature required the trustees of such voluntary associations to file copies of the trust instrument with the commissioner of corporations and with the clerk of the town or city where the business was usually carried on. (St. 1909, c. 441, § 1.) In 1916 it authorized bringing suits at law against such a voluntary association. (St. 1916, c. 184.) It was decided in *Bouchard v. First People's Trust*, 253 Mass. 351, that the statute did not apply to express trusts as distinguished from voluntary associations; and, by St. 1926, c. 290, the statute was broadened to include the peculiar trusts organized under a written instrument with beneficial interests divided into transferable certificates of participation or shares which are the only trusts suable at law. (See now G. L. [Ter. Ed.] c. 182, §§ 1, 6.) The statutes, however, have made no change in the law applicable to the trustee. He is still liable personally; but he can still, as he could before the statutes cited were enacted, avoid personal responsibility by stipulating or agreeing with the other party that the latter shall look only to the trust property for compensation or for damages for breach of the trustee's agreement, and not to the trustee personally. Save for the purpose of being sued, the trust, as distinguished from the trustee, is not made a separate legal entity.

In the present case the court held that although it is well established that a trustee can exempt himself from personal liability by stipulation or agreement, a signature as "trustee" or a description of himself as "trustee" does not constitute such an agreement. Nor would the fact that the plaintiff knew that the trustee was acting in that capacity for the trust and not individually relieve him of liability. There must have been an agreement that he should not be liable personally in order to confine the plaintiff to recourse against the trust. How far this principle is modified by the negotiable instrument act, G. L. (Ter. Ed.) c. 107, § 42, *Baker v. James*, 280 Mass. 43, was not here necessary to consider.

### Decisions Affecting the Income Tax

THE FIRST NATIONAL BANK OF BOSTON, TRUSTEE, *vs.* COMMISSIONER OF CORPORATIONS AND TAXATION.

279 Mass. 168.

Suffolk. December 12, 1931. — May 24, 1932.

*Tax, On income. Trust. Jurisdiction.*

Income received by a national bank in this state as trustee under the will of a deceased resident of Vermont for the benefit of and paid to a beneficiary resident in Massachusetts was held to be a proper subject for taxation within the jurisdiction of this commonwealth, even though the bank was appointed trustee by a court of Vermont to which it is accountable for the administration of its trust under the laws of that state and taxes were assessed to it as trustee upon the equitable interest of the beneficiaries in the town where the testatrix last resided in Vermont.

The court said that the scope of the Vermont statute under which a tax was laid

was to subject to taxation only the "equitable interest of the beneficiary." Such interest is property different in kind from the legal ownership. It belongs to the beneficiary of the trust who was a resident not of Vermont but of Massachusetts. Whatever may be the validity of the Vermont taxing statute here in question the court declared it to fall short of creating a taxable situs in Vermont for the property constituting the trust in the present case where the beneficiary of the trust and the recipient of the income sought to be taxed was at all times here material a resident of this state.

The general rule in the absence of other special and controlling factors is that the situs of intangible personal property such as constituted the corpus of this trust follows the residence of the trustee. In this case the trustee, a national bank which was an inhabitant of Massachusetts within the meaning of G. L. c. 62, § 10, physically held the securities constituting the trust at its principal place of business within this commonwealth. Jurisdiction by this state is thus held to be complete and the fact that property from which the income taxed was derived has been subjected to a tax in some other jurisdictions does not prevent the levy on the income received in Massachusetts.

In the opinion of the court the force and effect of *Maguire v. Trefry*, 253 U. S. 12, have not been shaken or narrowed by more recent decisions of the United States Supreme Court and the rule therein adopted is the rule of this decision. The basis of this tax levied under G. L. 62, §§ 10 and 11, is the receipt in Massachusetts by a resident of this state from a trustee also a Massachusetts resident, of income from securities physically kept within this commonwealth. Under this rule there is adequate basis for jurisdiction to levy the tax and its principle supports the right to tax equally, whether the foreign state, where may be located the situs of the trust fund, sees fit to impose a tax or not. Such a tax stands upon as firm footing as does a tax upon shares of stock in a foreign corporation or upon the income from such shares assessed to the owner thereof in the state of his domicile although the property and assets of the corporation may have been lawfully taxed at their full value in some other jurisdiction.

THOMAS W. NESS *vs.* COMMISSIONER OF CORPORATIONS AND TAXATION.

279 Mass. 369.

Suffolk. December 12, 1931. — May 26, 1932.

*Domicil.* Tax, On income. Words, "Inhabitant."

Abatement was sought of an income tax paid by an individual upon his income for the year 1928 on the ground that he was not liable for a tax upon such income unless he continued to be an "inhabitant" of Massachusetts, within the meaning of the taxing statute, for some part of the year 1929 and that he did not continue to be such an "inhabitant" for any part of that year.

The facts in the case show that before the end of the year 1928 the complainant had formed an intention to acquire a domicile in Florida, specifically, at Fort Meyers where, in April, 1928, he had purchased a dwelling house upon which on November 21 he paid Florida state, county and city taxes. On December 5, he notified the board of assessors of the Massachusetts city of which he was an inhabitant during the year 1927 and "at least through December 27" in 1928, that he was leaving to take up his permanent residence in Florida, giving his future address, and requesting the cancellation of any further assessment of poll taxes and the notification of the board of registrars for the removal of his name from the list of voters. On December 28, 1928, he left the city with the intention of going directly to live permanently in the house he had purchased and with no intention of returning to Massachusetts "as a state of domicile." He arrived in Florida waters about 3 A.M., January 1, 1929, landing in Jacksonville, Florida, at 7 A.M., and reached Fort Meyers on the next day. The only question as to liability to the income tax rests upon the interpretation of the word "inhabitant."

The governing statutes provide for the taxation of different classes of income at a given rate for each class. In each classification the language of the statute specifies income "received by any inhabitant of the commonwealth during the preceding calendar year." Returns of income are required from every "individual inhabitant of the commonwealth . . . whose annual income from all sources

exceeds two thousand dollars", with certain exceptions, and from every "other individual inhabitant" receiving taxable income. These provisions are distinguished from the requirements of the statute before amendment in 1929 that every "individual who is an inhabitant of the commonwealth at any time between January first and June thirtieth, both inclusive, in any year" and certain other persons, "shall be subject to the taxes imposed by this chapter" and "shall file a return . . . if he has in the preceding year received income taxable under this chapter."

The court said that if being an inhabitant of Massachusetts within such meaning is equivalent to having a domicile herein, the complainant was an inhabitant of Massachusetts until sometime in January, 1929. That being the case, the fact that before the year 1928 closed, he had abandoned his old home and was beyond the borders of Massachusetts on his way to his new home with no intention of returning to Massachusetts "as a state of domicile" was not sufficient to effect a change of domicile and the burden of proving such a change of domicile before January 1, 1929, was not sustained.

It was pointed out by the court that the rules governing domicile are well settled. Every person must have a domicile somewhere. "Domicil of origin or domicile acquired remains until a new one is acquired." So far as this case turns on the rules governing domicile it is not distinguished from the principle already established that a domicile once existing cannot be lost by mere abandonment even when coupled with the intent to acquire a new one, but continues until a new one is in fact gained. "To establish a change of domicile, fact and intent must concur."

The decisions relied upon by the claimant were not regarded by the court as opposed to the otherwise unbroken current of its decisions for the proposition that an existing domicile may be lost without another being gained, even though it was recognized in one case in closely similar circumstances that no change of domicile in its technical sense was effected, the decision going on the ground that being an "inhabitant" of a place within the meaning of the taxing statute was not equivalent to being domiciled therein and although in another case there was language to the effect that a person who had gone beyond the limits of the state with the intention of taking up his residence in another state "had abandoned his domicile in this state."

The court said that in the interpretation of the income tax statute the principle that to be an "inhabitant" of Massachusetts is equivalent to being domiciled herein has been accepted without discussion in income tax decisions. Since the tax upon income is in large part a substitute for the tax upon intangible property previously imposed upon owners thereof in the cities and towns of which they were inhabitants no reason appears for a more restricted meaning of the word "inhabitant" in the income tax statute than in the personal property statute. In that respect it was emphatically stated that the word "inhabitant" as used in the statute when referring to liability to taxation by an overwhelming preponderance of authority means "one domiciled." It was demonstrated by a thorough examination of the earlier cases that there were no conflicting precedents in the Massachusetts decisions with two exceptions which, the court said, in effect must be regarded as overruled although not in terms. It had been pointed out, however, with great caution that in each of these cases where a different interpretation had been given the word inhabitant from "being domiciled in", an intention was shown, formed before removal from Massachusetts, fixing a place certain for the future home but it was not there considered necessary to decide whether they should be followed in a case presenting precisely similar circumstances. This case expressly left undecided has now arisen and the court found no sound ground for taking it out of the general principle stated and accepted as law in later cases that under the taxing statutes inhabitancy and domicile are equivalent. The court emphasized, however, that the meaning of the word "inhabitant" was considered only as used in the governing tax statute. As is true of the words "citizen" and "resident" its meaning depends upon the connection in which it is used.

Since the complainant did not acquire a domicile in Florida by inhabitancy until after January 1, 1929, he continued to be an "inhabitant" of Massachusetts for a part of the year 1929 and was accordingly liable to taxation by Massachusetts upon his income for the year 1928.

KENDALL F. CROCKER *vs.* COMMISSIONER OF CORPORATIONS AND TAXATION.

280 Mass. 238.

Mass. Adv. Sh. (1932), 1521.

Suffolk. May 20, 1932. — September 14, 1932.

*Tax, Income. Constitutional Law, Income tax. Statute, Construction.*

An individual owned a considerable block of stock in two corporations, a large part of which in each case represented shares acquired by the receipt of stock dividends over the period of years since the original purchases. Upon the sale of a substantial part of the individual's entire holdings in each corporation a tax was assessed upon the income arising from the gain realized from the sale of such intangible personal property in accordance with the income tax statute. The calculation of such gain was made without regard to the value of the shares acquired as stock dividends at the time of their receipt but by apportioning the cost of the number of shares purchased over the entire number of shares held at the time of the sale, including the shares received as stock dividends. Upon the cost of a single share thus found, the cost of the number sold was computed and subtracted from the amount actually realized from the sale.

The taxpayer contended that the gain for income tax purposes should be determined by apportioning the cost of the shares purchased plus the value of the shares received as a stock dividend at the time of their receipt over the total number of shares owned when the sale was made.

In an appeal from the decision of the Board of Tax Appeals sustaining the action of the commissioner in refusing an abatement upon this basis, the court said that the determination of the question thus presented depended upon the construction of the governing statute. It is there expressly provided that in taxing as income gains over losses received by the taxpayer from purchases or sales of intangible personal property, "when shares of new stock of the company issuing the same received as a stock dividend or shares of stock which were the basis of such stock dividend are sold, the basis of determination of the gain or loss shall be the cost, or value when acquired otherwise than by purchase, of the stock which was the basis of such stock dividend, apportioned over the old and new shares of such company held after the receipt of such stock dividend."

In the opinion of the court the legislative mandate is clear to the effect that in calculating this kind of income when some shares of stock in a corporation have been bought or acquired otherwise than by purchase as matter of original ownership, and some other shares of the same stock have been received by way of stock dividends on such originally owned shares, the cost of each share when sold shall be ascertained by taking the actual cost price of the shares when originally purchased or their actual value when originally acquired otherwise than by purchase, and dividing that cost by the total number of shares owned, including both those originally acquired by purchase or otherwise and those received by way of stock dividends. This meaning is emphasized by the amendment to the statute governing the determination of the taxable income arising from gains over losses realized from the sale of capital assets whereby the words establishing as the cost of all shares of stock for such calculation, the value of the shares on January 1, 1916, if then owned, and the value of the shares when acquired after that date, were changed so as to except from that method of calculating cost shares of stock acquired by way of stock dividends in new shares of stock in the company issuing the same. The court pointed out that by reason of this statutory change the decision in *Parker vs. Commissioner of Corporations and Taxation*, 258 Mass. 379 is no longer an authority as to the present method of calculation of income derived from sales of stock thus received as stock dividends. It was there held that a dividend of stock is a distribution of capital assets and the basis of determination of its value for income tax purposes is the value on the date it was acquired. The statutory foundation for this decision is now removed and in calculating the tax on the gain from the taxpayers' sale of stock the commissioner was confirmed in following the rule prescribed by the present statute which is held to be here applicable and violative of no constitutional right.

It was argued by the appellant that since in *Tax Commissioner vs. Putnam*, 227 Mass. 522, under the statutes then controlling, it was decided that a stock dividend

was taxable as income and since stock dividends were subsequently exempted from taxation as income the effect of the amendment prescribing the apportionment of the cost of shares purchased over the total shares held including stock dividends, is to tax retroactively as income stock dividends which were received prior to the enactment of such amendment and thus render assessment under it unconstitutional. The court held that such argument was fallacious and based on a misconception of the statute. No tax whatever is imposed on stock dividends. When received they become capital assets and are subject neither to an income tax on their receipt nor to a property tax on their possession. They are indistinguishable, either in form or substance, from those shares of stock originally owned. If the taxpayer chooses to retain all his shares of stock he is subjected to no tax. It is only when he makes a gain by a sale at a price higher than cost that he becomes subject to tax. There is no retroactive feature in the governing statutes. They apply only to gains actually realized in the year for which the tax is levied. The tax here assailed was therefore held to be neither retroactive nor levied on dividends but a simple tax on income realized through a sale of stock assessed in accordance with statutory provisions and not in conflict with any previous decisions of the court.

ELIZABETH C. MADDEN *vs.* COMMISSIONER OF CORPORATIONS AND TAXATION.  
ANGELE W. MADDEN *vs.* SAME.

280 Mass. 321.

Mass. Adv. Sh. (1932), 1611.

Suffolk. April 4, 1932. — September 26, 1932.

*Tax, On income. Corporation, "Rights."*

The Massachusetts income tax statute provides for a tax upon the class of income arising from the excess of gains over losses received by the taxpayer from purchases or sales of intangible personal property. The determination of such gains or losses was prescribed by the statute, as then amended, to be upon the basis of the value on January 1, 1916, which is the effective date of the present income tax act, in the case of property owned on that date, and of its cost in the case of property acquired by purchase after that date. It was provided that "If the property other than stock dividends in new stock of the company issuing the same was acquired otherwise than by purchase, the basis of determination of the gain or loss shall be the value on the date when it was so acquired."

Under these governing statutes the question arose for decision as to whether in calculating gains arising from sales of stock acquired after January 1, 1916, through the exercise by a stockholder of rights issued to him to subscribe for new stock, the cost of such stock includes the value of the rights as well as the subscription price, or whether such cost is the subscription price alone.

The Court pointed out that plainly such shares do not come within the last provision quoted, that is, property, other than stock dividends, acquired otherwise than by purchase, in which case the basis of determination of gain or loss upon their sale would be the value on the date acquired. The shares were acquired from the corporation issuing them by the stockholder's subscription. That subscription was accomplished by the payment to the corporation in cash, or its equivalent, of the par value of the stock accompanied by the surrender of certain rights. This in substance and effect was a purchase of the shares of stock from the corporation.

Since the determination of gain is based upon the cost in the case of property acquired by purchase, after January 1, 1916, the crucial point for decision becomes how the "cost" of these shares shall be determined.

Rights given by a corporation to its shareholders to subscribe for new stock to be issued by it constitute an attribute of the existing shares. They represent the privilege accorded to shareholders of participating in preference to strangers and on equal footing with other shareholders, in buying new shares of capital stock to be issued by the corporation. The value of each new share is the par value paid by the subscriber plus a sum equal to the difference between its par value and its market value. This additional sum represents the value of the rights in the market. Although rights come to the shareholder as a gratuity, cost him nothing, and are a new thing of value not theretofore possessed by him, they are nevertheless things of

value to the shareholder. If used in connection with subscriptions for new stock they represent capital in the form of shares; if sold, they become cash in hand. The practical effect of the transaction is that to the extent to which rights have a value, they enter into the cost of the new shares to the shareholder who makes use of them for subscription to new stock. However cost may be defined, according to common understanding, a thing of value which in combination with money is transferred to another in return for some other new thing of value constitutes a part of the cost of that which is acquired. The result seems to follow necessarily that in calculating the excess of gains over losses, where stock is acquired through the exercise of rights to subscribe for new stock, the cost of the new shares properly includes the value of the rights as well as the subscription price.

In sustaining the refusal of the Commissioner to abate a tax assessed upon this basis and reversing the decision of the Board of Tax Appeals, the Court expressed itself as aware that this result may be undesirable but that its province is only to interpret the words of the statute. It cannot by construction of the statute controlling the facts in the case at bar anticipate the operation of the amendment subsequently enacted which now requires the cost of rights to subscribe to corporate securities to be taken as zero unless acquired by actual purchase in open market.

COMMISSIONER OF CORPORATIONS AND TAXATION *vs.* J. WARREN ALFORD &  
OTHERS, TRUSTEES.  
SAME *vs.* SAME.

Mass. Adv. Sh. (1933), 431.

Suffolk. January 10, 1933. — February 25, 1933.

*Trust, Construction of instrument creating trust: vested or contingent interest.*  
*Tax, On income.*

By the will of a resident of Massachusetts a trust was created under which the residue of her estate was given to pay to her daughter the net income thereof for life and thereafter equally to her three grandchildren for their lives. The trust was to last for twenty years after the death of the last survivor. The remainder interests of the issue of the three grandchildren were described as shares in the trust fund which the trustees were directed on the termination of the trust to pay over to them by right of representation. There are references in the will to the shares of issue of deceased grandchildren as existing before the termination of the trust. There are no words of contingency as to who shall take such as the phrase "then living."

During the years 1928 and 1929 when there were living a daughter of the testatrix, two grandchildren and five minor great-grandchildren, who were all residents of another state, the Massachusetts trustees under the trust sold securities at a gain and held the income so resulting for future distribution under the terms of the will. Such gains were taxed as "Income accumulated in trust for the benefit of unborn or unascertained persons or persons with contingent interests" within the meaning of G. L. c. 62, § 10.

The Board of Tax Appeals sustained the objection of the trustees, to this determination of the taxes assessed, upon the ground that the interest in the trust *res* including the gains here in question was vested in ascertained persons who were not inhabitants of Massachusetts. It was argued that the tax was levied upon income accumulated for the benefit of non-resident members of a class and that there were living members of the class, all non-residents, in whom the remainder under the will was vested, even though the time for possession was postponed and the remainder will open to let in after born members.

In an appeal under the provisions of G. L. (Ter. Ed.) c. 58A, § 13 from the decision of the Board of Tax Appeals, it was contended that if there were no issue of the grandchildren living twenty years after the death of the surviving grandchild the property will go presumably to the heirs of the testatrix; and if there were issue living at the time of distribution it would go to such issue and only to such issue as were then living, and that it followed consequently that those who would take could not be ascertained until the time of distribution arrived. It was urged that even if the remainder interest were vested in the five living grandchildren, it

did not follow that they were ascertained because their interest was subject to be divested and the persons who would take in that event would be "unascertained" just as certainly as though the remainder were contingent.

It was also contended that the phrase of the statute "contingent interests" refers to "interests" and not to remainders, and that an interest by way of executory devise or an interest subject to divestment is properly described as a "contingent interest," and that there is no reason why income accumulated for contingent remaindermen should be exempt from taxation and other forms of "contingent interest" should be subject to a tax. And, further, that no right or interest can vest in the great-grandchildren until the grandchildren shall die leaving issue — an event that has not happened.

The court pointed out the settled rules of law that estates are deemed vested unless it plainly appears that the testator intended otherwise and that a gift to children or relatives is not to be deemed an executory devise if it is capable of taking effect as a remainder. It said that it is equally well settled that no remainders will be construed to be contingent which may consistently with the intention be deemed vested and that it is also the rule that estates are deemed to vest at the earliest possible moment unless an opposite intention is clearly shown by the will. Gifts to members of a class vest in the living members notwithstanding a provision that on the death of a member his share shall go elsewhere and notwithstanding that the class may open to let in after born members who may include persons standing in different degrees of relationship to the common ancestor. *Blanchard v. Blanchard*, 1 Allen, 223. *Crapo v. Price*, 190 Mass. 317, 319, 322. *Richardson v. Warfield*, 252 Mass. 518, 522.

In agreement with the Board of Tax Appeals, the court held that the remainder interests were intended by the testatrix to be vested in the issue, at any rate before the period of distribution, even if those interests were subject to being diminished by the birth of other issue or divested by death upon the termination of the trust. The contingency unprovided for by the will, that is, that all issue might die before the time of distribution is not to be considered as affecting this construction. Whether the share of the last surviving issue would on his death descend to his heirs or go to the heirs of the testatrix may be uncertain, but in either case the event would not affect the vesting of the remainder interests.

As to whether the interests were vested when the income assessed was received the court held that the rule laid down in *Moore v. Lyons*, 25 Wend. 119, 144 is applicable, that "where a remainder is so limited as to take effect in possession, if ever, immediately upon the determination of a particular estate, which estate is to determine by an event which must unavoidably happen by the efflux of time, the remainder vests in interest as soon as the remainderman is *in esse* and ascertained; provided nothing but his own death before the determination of the particular estate will prevent such remainder from vesting in possession." The issue now living being minors and the testatrix having died in 1910, the court assumed, as did the Board of Tax Appeals, that the remainder was not vested at her death. Following the rule cited it was held to be vested during the years 1928 and 1929 in the five living children of the three grandchildren. The income taxed was accumulated for their benefit and they were not "unborn or unascertained persons or persons with contingent interests" as those words are used in G. L. c. 62, § 10. During those years the great-grandchildren, the beneficiaries of the trust, were not inhabitants of Massachusetts but of another state. The court held that the income consequently was not taxable under G. L. c. 62, § 10, and should have been abated in full.

## Decision Affecting the Business Corporation Tax

J. G. McCrory Company vs. Commissioner of Corporations and Taxation.

280 Mass. 273.

Mass. Adv. Sh. (1932), 1579.

Suffolk. May 10, 1932. — September 15, 1932.

*Tax, Excise on corporation, Assessment. Corporation, Taxation. Board of Tax Appeals, Commissioner of Corporations and Taxation. Words, "Appeal," "Review."*

A domestic business corporation, all the stock of which was owned by a foreign corporation which controlled sixteen other subsidiaries similarly operating five and ten cent retail stores in other states, disclosed in its excise return a net loss of income for the taxable year and such large liabilities, all but a small part of which represented accounts payable to the parent corporation, that there was no basis of taxation except under a minimum taxing provision on the basis of gross receipts assignable to Massachusetts.

Subsequently, upon verification of the corporation's excise return the commissioner assessed a substantial additional tax, acting under a statute which provides that the commissioner, in determining for the purposes of taxation the value of the taxable corporate excess of a corporation, domestic or foreign, shall not take into consideration any debts of the corporation unless he is satisfied that no part of such debts was incurred for the purpose of reducing the amount of taxes to be paid by it, "and, in the case of a domestic business corporation which is the subsidiary of a foreign corporation or closely affiliated therewith by stock ownership, that such debts represent only the fair value of the property given therefor." The corporation's statements in its excise return were accordingly rejected and the additional tax estimated by making an apportionment of the income of the joint enterprise as disclosed in the consolidated federal tax return filed by the parent corporation and its controlled companies including the taxpayer. For such estimate and in the absence of evidence to the contrary, the commissioner deemed it fair to presume that the combined and consolidated income of the affiliated corporations engaged in the joint enterprise was derived in such part from the activities of the Massachusetts business corporation in this state as the extent of business activities and property employed here (indicated by the available factors adopted by the legislature for the apportionment of income in general) bore to the total activities and total property employed in the joint enterprise by the parent corporation and all its subsidiaries.

Upon denial by the commissioner of the taxpayer's application for abatement of the additional tax thus assessed petition for abatement was filed with the Board of Tax Appeals. In the commissioner's answer to that petition it was claimed that the subsidiary Massachusetts corporation was entirely subject to the control of the parent corporation, that its books of account were so managed as not to show its true net income or its assets, that the capital disclosed in the tax return was a nominal and arbitrary amount, inadequate to carry on the business as it was in fact carried on, and that the liabilities were excessive and not such as to satisfy him that they were not incurred for the purpose of reducing taxes nor that they represented the fair value of the property or services given therefor.

The Board of Tax Appeals granted the abatement on its findings from uncontradicted evidence that the corporation had no business transactions of any nature with the other subsidiaries, that it kept separate books of accounts from which its excise return was made up, the facts and figures contained therein being true and accurate. The large liability was owed to the parent corporation, which in the regular course of business acts as purchasing agent for the Massachusetts subsidiary on a regular commission basis, for advances for the purchase of merchandise, furniture and fixtures and for certain administrative and other services, such as window dressing, etc., at fair charges which were less than the corporation would be obliged otherwise to pay, due to the fact that the large business done by the parent company enabled it to buy and operate more cheaply than the subsidiary could. It was found that the debts represented only the fair value of such property or services, were an actual and not fictitious indebtedness incurred in good faith and not for the purpose of reducing taxes.

The commissioner appealed from the decision of the board contending that the function of the board in a proceeding of this nature is limited to a review of his action and that it was not empowered to try the whole matter anew. It was held by the court that the board was authorized to retry every issue raised by the petition and answer filed with it.

The court pointed out that the word "appeal" in the Massachusetts statute usually has been interpreted to mean a full new trial or an entire rehearing upon all matter of fact and questions of law. It is used in contrast to the word "review" which signifies a re-examination of proceedings already had and should be construed and interpreted according to the common and approved usage of the language. It must be presumed to have been employed advisedly by the General Court in the sections governing the present procedure.

The provision of the statute establishing the Board of Tax Appeals that its decisions should be final as to findings of fact was interpreted by the court to mean that its findings have the same force and effect as the verdict of a jury or the finding of a judge sitting without a jury in an action at law or the finding of a judge or master in equity upon unreported evidence. So far as the findings are based upon unreported evidence they cannot be disturbed. The court ruled that a careful examination of the testimony, the credibility and weight of which were entirely for the board's determination, showed that the findings of fact made by the board must stand and be accepted as true. They were explicit to the effect that the return made by the taxpayer was correct and that the amount stated to be due on accounts payable was actual indebtedness incurred in good faith and not for the purpose of reducing taxes.

The ruling of the Board of Tax Appeals was sustained by the court that the method of determining corporate excess and net income must be in conformity with the definitions of these terms as contained in the governing statute if the return of the corporation is discredited by the commissioner and an additional assessment undertaken under the statutory provision which allows him to disregard any debts unless he is satisfied that they were not incurred for the purpose of reducing taxes and that they represent only the fair value of the property or services given for them. While the tax here in question is an excise and not a property tax the principle that to measure the tax on one person's property or income by reference to the property or income of another is unconstitutional applies when the excise is measured by property or income not belonging to the corporation sought to be taxed.

The court expressed the opinion that the statement by the board of its view of this section of the statute as one designated to avoid the effect of an improper reduction of net assets through "the use of fictitious debts" and not to attempt to oblige corporations requiring money and affiliated with others from which they may borrow to enlarge the amount of their capital by imposing a penalty upon the creation of an indebtedness for which full value has been given must be read in connection with rulings made at the request of the commissioner that debts incurred for the purpose of reducing taxes, either as a dominating or a subsidiary purpose or in combination with other purposes, were not to be taken into consideration in determining the corporate excess. Thus taken together they seem to the court to mean that if the board had found as a fact that the corporate structure of the taxpayer was designed in conjunction with that of the parent corporation to produce a constant state of heavy indebtedness by the domestic corporation for the purpose of reducing its taxation, the findings of fact actually made by the board could not have been made and the result would have been different.

It was emphasized that the decision rests chiefly upon the findings of fact made by the board. The court said it was not necessary to determine whether the interpretation given by the board of the section governing the disallowance of debts is correct as applicable to all states of facts. In sustaining the abatement granted by the Board of Tax Appeals such interpretation in its application to other facts is expressly left open for consideration if and when the occasion may arise.

**Decisions Affecting the Inheritance Tax**

HAROLD T. DAVIS, ADMINISTRATOR, *vs.* COMMISSIONER OF CORPORATIONS  
AND TAXATION.

(Jones T. Eager Case.)

280 Mass. 138.

Mass. Adv. Sh. (1932), 1415.

Middlesex. November 12, 1931. — July 16, 1932.

*Tax, On successions.*

The valuable part of property passing by the will of a resident of Massachusetts to his widow consisted of an interest in remainder in a trust fund in which the grantor retained a life interest. The remainderman predeceased the life tenant. The question for decision was whether such tax should be computed on the valuation of the remainder interest owned by the testator, subject to the life estate, as of the date of his death or on its appreciably larger value at the death of the life tenant.

Holding that the determination of the question results from the import of the statutory words as applied to the facts presented, the court quoted from the governing section of the tax law which reads as follows: "Except as otherwise provided in this and the following section, the tax imposed by this chapter shall be assessed upon the value of the property at the time of the death of the decedent. In case of a devise, descent, bequest or grant to take effect in possession or enjoyment after the expiration of one or more life estates or of a term of years, the tax shall be assessed on the value of the property or interest therein coming to the beneficiary at the time when he becomes entitled to the same in possession or enjoyment. . . ." It pointed out that the word "decedent" in the first sentence plainly refers to the person, succession from whom is made subject to tax and that the words of the second sentence create an exception to the broad language of the first sentence as to the time when the value of the property passing by succession shall be ascertained for purposes of taxation by limiting the words "devise, descent, bequest or grant," which comprise all the usual ways for the succession of property, to succession taking effect "in possession or enjoyment after the expiration of one or more life estates or of a term of years." Property like that here in question, the court said, which consists of a vested remainder to take effect in possession and enjoyment only after the expiration of a life estate, certainly comes within the scope of the words of the second sentence quoted, the natural meaning of which in their context does not confine "the life estates" or "term of years" to such as have been created by the same decedent. The court said that the section must be read in conjunction with the next section of the succession tax law, under which "any person entitled to a future interest in any property may pay the tax on account of the same at any time before such tax would be due . . . , and in such cases the tax shall be assessed upon the value of the interest at the time of payment. . . ." The two sections together, in the opinion of the court, are designated in part to afford alternative methods of determining the amount of the tax based on the time as of when the value of the estate passing may be ascertained, and not based on the person by whom the life estate or term of years was created. The court held that it is the quality of the estate passing by succession and not the identity of the individual creating that quality to which the statutory words are directed and that it makes no difference with the exercise of the power of testamentary disposition of this kind of property whether such a remainder was created by the act of the testator or of some third person. It found no statutory words indicative of a legislative intent, either expressly or by fair implication, to limit the broad and inclusive sweep of the general language of the law to life estates and terms of years created by the grantor, donor, or intestate alone, the effect of which would be to confine the valuation for succession tax purposes as of the time when the beneficiary becomes entitled to the property in possession or enjoyment, to remainders created by the testator and to exclude all other remainders from such a valuation.

The Supreme Judicial Court accordingly affirmed the finding of the Board of Tax Appeals which was confirmed by the Probate Court sustaining the assessment of the Commissioner of Corporations and Taxation as to the valuation of the remainder as of the date of death of the life tenant.

OLIVER PRESCOTT, EXECUTOR, *vs.* ST. LUKE'S HOSPITAL & OTHERS.

280 Mass. 229.

Mass. Adv. Sh. (1932), 1511.

Bristol. February 4, 1932. — September 14, 1932.

*Devise and Legacy, Legacy tax.*

In a petition for instructions in the construction of the will of a Massachusetts resident and that of a sister who predeceased her, as to the apportionment among residuary legatees of legacy taxes paid to the Commonwealth, the question for decision was whether the amounts of such taxes should be charged against each residuary estate as a whole or exclusively against the legacy due to a lodge of Masons which was an unincorporated organization, subject to the legacy tax, the remainder of the residuary estate having been given to charitable corporations exempt from legacy taxes. Each will contained a clause directing that all legacy, succession or inheritance taxes imposed by law upon any of the legacies given were to be paid out of the estate so that the legatees named in the will would receive the full amount without deduction for any tax.

The court said that the decision of the point depends not upon the statute concerning the taxation of legacies, but upon the intent of each testatrix as expressed in her will. The design that legacy taxes be paid out of the residue or other part of the estate must be manifested by the words of the will; otherwise such taxes are to be taken out of the legacy to each beneficiary. G. L. c. 65, § 17. If no clear testamentary direction can be found, it must be presumed that it was intended that the burden of the tax should fall where the law places it. *Plunkett v. Old Colony Trust Co.* 233 Mass. 471, 475.

A gift of a legacy free of inheritance and legacy taxes was defined by the court to mean primarily that such taxes are not to be deducted from the gift but to be paid out of the general estate. As a corollary a gift of a legacy free of inheritance and legacy taxes also means that such taxes must be paid before the residue is calculated. Using words with technical nicety a gift of the residue or a share in the residue free from legacy, succession or inheritance taxes cannot apply to the residue for such taxes must be paid out of the residue unless a special fund is set up. Testators are not held to the use of words with technical nicety provided their purpose is plain.

In the present case the court held that each testatrix had manifested a main design in her will that she intended in the circumstances that have come to pass that the taxes be taken out of what would otherwise be the residue before the residue itself is finally ascertained, and that the charities in common with the other residuary legatee bear that tax proportionally. Controversies similar to this appear to have risen more frequently in England than in this country but the court found no authorities at variance with this conclusion.

## SALES TAX.

### CONSTITUTIONALITY.

## OPINION OF THE JUSTICES.

Mass. Adv. Sh. (1933), 839.

On April 5, 1933, in view of bills pending before the General Court (Senate Document No. 220, House Documents Nos. 795, 1055 and 410) the Senate adopted an order requiring the opinion of the Honorable the Justices of the Supreme Judicial Court as to whether it is within the competency of the General Court to levy a duty or excise on retail sales of produce, goods, wares, and merchandise and also as to the existence of legislative power to regulate sales of tobacco and beverages to the extent of requiring the registration of dealers in them and the imposition of a duty or excise in the form of a substantial fee upon the privilege of registration as an essential prerequisite to making sales.

In its reply the court went to c. 1, § 1, art. 4, of the Constitution of the Commonwealth of Massachusetts for the words of broad import which empower the General Court to exercise taxation. They are as follows: "full power and authority are hereby given and granted" to the General Court "to impose and levy proportional and reasonable assessments, rates, and taxes, upon all the inhabitants of, and persons resident, and estates lying, within" Massachusetts and "to impose and

levy reasonable duties and excises upon any produce, goods, wares, merchandise and commodities, whatsoever, brought into, produced, manufactured, or being within the" Commonwealth. Since the questions asked relate solely to "duties and excises" the court said that only that part of the grant of power to tax need be here considered. The grant of "full power and authority" is comprehensive and does not easily lend itself to implied exceptions, although it must be limited in construction so as to be in harmony with other equally mandatory provisions of the Constitution.

When the word "duties" was adopted as a part of the constitution, Massachusetts was an independent state with only the loose connection with the other original states afforded by the Articles of Confederation, and it remained such independent state until it ratified the Federal Constitution and that instrument became established in accordance with its art. 7, in 1788. Construed in the light of these facts, "duties" included at least the power to collect revenue from goods imported into and exported from Massachusetts, a power surrendered to the United States by art. 1, §§ 8 and 10 of the Federal Constitution. The court said it is not necessary to consider whether it may have a wider meaning because it is of the opinion that the proposed tax falls within the description of "excises."

The term "excise" was said in *Portland Bank v. Apthorp*, 12 Mass. 252, 256, to be "of very general signification, meaning tribute, custom, tax, tollage, or assessment"; in *Oliver v. Washington Mills*, 11 Allen, 268, 274, to be "a fixed, absolute and direct charge laid on merchandise, products or commodities, without any regard to the amount of property belonging to those on whom it may fall, or to any supposed relation between money expended for a public object and a special benefit occasioned to those by whom the charge is to be paid." In *Minot v. Winthrop*, 162 Mass. 113, 119, it was stated that "The excises to which the inhabitants of the Province of Massachusetts Bay were accustomed were taxes in the nature of license fees for carrying on certain kinds of business, taxes on the sale of goods, wares, and merchandise, such as intoxicating liquors, tea, coffee, and chocolate, china ware, etc., and stamp taxes on legal papers." *Pacific Insurance Co. v. Soule*, 7 Wall. 433, at 445, contains this language: "Excise is defined to be an inland imposition, sometimes upon the consumption of the commodity, and sometimes upon the retail sale; sometimes upon the manufacturer, and sometimes upon the vendor." Excises have also been defined as "taxes laid upon the manufacture, sale or consumption of commodities within the country, upon licenses to pursue certain occupations, and upon corporate privileges." The court said it was apparent from what had been said that the proposed tax falls within the kind of exaction of public revenue included within the word excises as used in the Constitution.

From the tenor of the questions asked, read in the light of the accompanying bills, the inquiry is limited strictly to sales of tangible personal property and does not include sales of other property which would fall within the broad definition of "commodities," the scope of which, with the difficulties involved in its interpretation, the court felt it was unnecessary here to consider. It was further assumed that sales of gasoline are excluded from the inquiry because no reference is made in any of the bills to the provisions of G. L. (Ter. Ed.) c. 64A, levying a tax on sales of gasoline based on the number of gallons sold, although the court said it might be open to doubt whether all the bills make this omission clear. The words "produce, goods, wares, merchandise" were held inclusive enough according to the approved usage of the language to comprise all articles of tangible personal property usually sold at retail.

The questions and bills make it clear, however, that the proposed excise is to be levied not upon personal property which is static but upon a change in its location or a movement in trade wrought by a transfer of title. It is not levied upon the mere ownership, or the right to hold and possess property, or the exercise of what frequently are termed natural rights. While an excise upon sales of tangible personal property based upon a percentage of the sale price does bear some resemblance to a property tax, the court considered the dominant feature in the present connection to be the change of title and possession necessarily involved in the sale, and not the value of the property. In this respect it is analogous to the excise on legacies and successions, which is based upon the value of the property passing by will, and to the excise on the franchises of domestic corporations under

earlier statutes. The court pointed out that the context in which the word "excises" occurs in c. 1, § 1, art. 4, of the Constitution renders that kind of a tax appropriately operative upon a change in the location and title of tangible personal property, such as accompanies a sale. Although it is there indicated that when the Constitution was adopted in 1780, an excise upon tangible personal property brought across the frontier or State line for, or after, sale was contemplated, such sales are expressly excluded from the operation of two of the proposed bills and it is assumed that all the questions are based upon the implication that sales in interstate or foreign commerce, not within the taxing power of the state under the Federal Constitution, are not contemplated in any proposed legislation.

The grant of power to the General Court "to impose and levy reasonable duties and excises upon any produce, goods, wares, merchandise, and commodities" are designed to be a grant in addition to that previously conferred "to impose and levy proportional and reasonable assessments, rates and taxes" upon inhabitants, residents and property. The words quoted relate to the great sovereign function of taxation upon which government must depend for its support and are to be interpreted in accordance with the common understanding of voters at the time of their adoption. Thus construed, the court held that they extend to the exercise of the incident of ownership of the designated personal property manifested by the transfer of title and delivery of possession inevitably associated with a sale.

This power to levy an excise need not be confined to a fixed exaction on every transfer, but may be based upon a reasonable percentage of the sale price. It does not thereby become a property tax, provided in size and nature it conforms to the general conception of an excise. In the opinion of the court it makes no difference whether the burden of the excise rests finally upon the buyer or upon the seller.

It was accordingly the opinion of the Justices that as a matter of construction of language and interpretation of words, the General Court has the power to impose an excise upon sales of tangible personal property. This conclusion finds support by comparison with similar words in the Federal Constitution and decisions touching their meaning.

The words of c. 1, § 1, art. 4, of the Constitution of the Commonwealth, already quoted, are seemingly as broad in respect to excises as those in art. 1, § 8, of the Constitution of the United States, whereby Congress is given power "to lay and collect . . . duties, imports and excises . . . uniform throughout the United States." That power has been held to include an excise upon the sale of property. In *Thomas v. United States*, 192 U. S. at 370, it was said of those words, "they were used comprehensively to cover customs and excise duties imposed on importation, consumption, manufacture and sale of certain commodities, privileges, particular business transactions, vocations, occupations and the like. Taxes of this sort have been repeatedly sustained. . . ."

The question as to the constitutionality of an excise on the consumption, or to be exacted at the time of consumption, of produce, goods, wares, or merchandise, was not construed as requiring consideration by the court as no bill accompanying the senate order provided for such an excise.

The words of the Massachusetts Constitution bearing upon the question of legislative authority to regulate sales of tobacco are that "full power and authority" are granted to the General Court "from time to time to make, ordain, and establish all manner of wholesome and reasonable orders, laws, statutes and ordinances, directions and instructions" not repugnant to its other provisions. The court said that this also is language of broad import and includes the exercise of the police power. The policy of courts has been not to limit that power by attempts to define it. Necessary and lawful business of a nature, liable, in the absence of regulation and supervision, to harm the public health, safety or morals, may be required to be licensed. It is common knowledge that the use of tobacco by youth is regarded as deleterious. Sales or gifts of tobacco to minors are prohibited under penalty by G. L. (Ter. Ed.) c. 270, § 6. Legislation of this nature is not uncommon and has always been upheld as constitutional on the ground that tobacco is an article of such characteristics that it is within the province of the Legislature to say under what conditions it may be sold or to prohibit its sale entirely in certain forms for the protection of public health and morals.

The court said that the selection of dealers in tobacco from among other dealers as subject to license is a permissible classification and not arbitrary or capricious. The regulations of the sale of tobacco proposed are held by the court to come within the lawful exercise of the police power. An excise in way of license fee lawfully may be laid upon vendors of tobacco measured by a percentage on sales under the same reasoning which finds for the general sales tax.

A requirement that those who dispense or deal in beverages shall be registered and pay a license fee is held to stand in its constitutional aspects upon the same footing as a similar requirement as to tobacco. Supervision and regulation of persons by whom, and conditions under which, beverages are sold and dispensed may be thought to have a close connection with the public health. Cleanliness and purity of such liquids and of the places where they are kept and sold may be regarded as necessary to the innocuous use of beverages. The constitutionality of this proposed excise is likewise upheld.

The court ventured the suggestion that in two drafts of bills printed in House Document No. 410 there is provision to the effect that the proposed excise is in lieu of local property tax. Whether such a provision would be valid the court said may be open to grave doubt.

## OPINIONS OF THE ATTORNEY GENERAL

January 27, 1932.

In reply to the question as to whether a justice or special justice, who has presided at a session of a district court, and after its conclusion held a session at another court, can submit for payment an account for two days' compensation in one calendar day under the provisions of G. L. (Ter. Ed.) c. 218, § 6, or any other law, the Attorney General answered in the affirmative.

Under the governing statute cited, with certain exceptions, the pay of a special justice is regulated according to "each day's service" in a particular court and is computed at the same rate as the salary of the justice of that court. A special justice is entitled to payment for a day's service even though the business of the court in which he is sitting requires his attendance for only a fraction of a day. In the opinion of the Attorney General, it necessarily follows that a special justice may in some instances render a day's service in more than one court on the same calendar day, and in such cases, he is entitled to receive a day's compensation from the County Treasurer in payment of each such "day's service."

March 15, 1933.

In view of the banking conditions prevailing on the above date, the Attorney General was asked if a municipal officer would be "free from personal liability under G. L. (Ter. Ed.) c. 44, § 55A if he deposits public moneys in any national bank, savings bank or trust company organized under Massachusetts laws and then permitted to do business either with or without restrictions."

The language of the statute is as follows:

"A city or town officer receiving public money and lawfully and in good faith and in the exercise of due care depositing the same in a savings bank or trust company organized under the laws of the commonwealth or in a national bank doing business in the commonwealth shall not be personally liable to the city or town for any loss of such money by reason of the closing up of such depository for the liquidation of its affairs."

The Attorney General said that in accordance with these provisions, the personal liability of a state officer depositing public money in any of the banking institutions named depends upon his good faith and due care in making the deposits. This is ordinarily a question of fact rather than law. It is impossible to predict that in any given case an official will be found by a court or jury to have exercised good faith and due care, and so be free from personal liability under said section 55A.

## THE BOARD OF TAX APPEALS.

The Board of Tax Appeals under authority of Chapter 416 of the Acts of 1930 became operative as of December 1, 1930.

DECISIONS OF THE BOARD OF TAX APPEALS.  
Cases decided between December 1, 1930, and May 25, 1933.

## LEGACY AND SUCCESSION TAX

|     |                |     |  |   |   |
|-----|----------------|-----|--|---|---|
| 58  | May 4, 1931    | 51  | Davis, Harold T.,<br>adm. estate of<br>Jones T. Eager            | A remainder interest created by a deed of trust subject to a life estate in the donor is taxable under G. L. c. 65, §§ 1, 13 upon the value of the property coming to the beneficiary on the death of the grantor, and not at the time of the prior death of the beneficiary.   | Commissioner<br><i>Affirmed by the Massachusetts Supreme Judicial Court. See 280 Mass. 138 (Mass. Adv. Sh. [1932], 1415).</i> |
| 381 | August 9, 1932 | 249 | Lyon, Albert M., and<br>others, executors u/w<br>Ivis B. Shriner | Under G. L. c. 65, § 25, as amended by St. 1930, c. 416, § 30, an appeal to the Board of Tax Appeals, by an executor or administrator, must be from the decision of the commissioner determining the value of all the property of the decedent upon which the tax is to be computed, and the board is required to appraise all that property. No jurisdictional question being raised, the opinion of the board is that it should make such appraisal and submit any question of law to the court. The value to be determined by it is the market value and where no sales have occurred different elements enter into its consideration. | Appellants  |

## SPECIAL RECESS COMMITTEES AND COMMISSIONS

To the list printed upon page 57 of the department report of 1929, page 90 of 1930 and page 65 of 1931, there may be added the following:

1. Special Report of the Director of Accounts relative to fees and allowances to Public Officers (Senate Document 5, 1933), 10 p.

2. Special Report of an Investigation relative to providing for certain annual payments by the Commonwealth to certain towns on account of the construction of certain additions to the Metropolitan Water System (House Document 228, 1933), 11 p.

3. Report of the Commissioner of Corporations and Taxation on ways and means for raising revenue required for financing the furnishing of adequate assistance to certain aged citizens (House Document 410, 1933), 63 p.

## RECOMMENDATIONS FOR LEGISLATIVE ACTION

In accordance with the General Laws the following was duly communicated:

## THE COMMONWEALTH OF MASSACHUSETTS

DEPARTMENT OF CORPORATIONS AND TAXATION,  
STATE HOUSE, BOSTON, December 7, 1932.

TO THE GENERAL COURT OF MASSACHUSETTS:

In compliance with the provisions of section 33 of chapter 30 of the General Laws (Ter. Ed.), there is submitted herewith such part of the annual report of the Commissioner of Corporations and Taxation (Pub. Doc. No. 16) as contains recommendations or suggestions for legislative action, accompanied by drafts of bills.

HENRY F. LONG,  
*Commissioner of Corporations  
and Taxation.*

RECOMMENDATIONS  
CORPORATIONS

1. *Dissolution.* — This recommendation is for a continuance of the practice whereby annually an act is passed to dissolve certain corporations. Many of the corporations have ceased to function; some apparently have no officers, others have failed to file certificates of condition or tax returns, and many have been enjoined by the Supreme Judicial Court by action of the Attorney General from doing business. It is requested that such of these as will be submitted be dissolved. Certain other corporations which have satisfied all requirements, and have by vote of the corporation expressed their desire to be dissolved, are also submitted. (Chapter 148 of 1933.)

2. *Subsidiary or Controlled Corporations.* — The decision by the Supreme Judicial Court in the J. G. McCrory Company case requires recourse to the legislature in order to prevent wholesale evasion by means of subsidiary and controlled corporations of the manufacturing and business corporation excise tax law. Such corporations commonly undercapitalized prevent any substantial corporate excess tax and when so managed that by means of the arrangement between the parent corporation and the subsidiary, the latter is allowed no substantial profits, a tax on the net income is defeated. There are already over five hundred such corporations and it is obvious that if such a device can be employed to defeat the corporation tax the number will increase by leaps and bounds. In the past upwards of half a million dollars annually has been levied and collected from such corporations but the McCrory case indicates that the methods whereby this amount of tax was levied can no longer be sustained under the existing law. This contingency was foreseen as a possibility and heretofore legislation has been proposed but not enacted to strengthen the power of the commissioner to deal with such cases. The recent commissions studying the general tax situation recommend the need of remedial legislation and incorporated certain provisions for this purpose in their reports. It is believed that the legislation here proposed would place in the hands of the commissioner the means of again dealing with the situation effectively. (Chapter 303 of 1933.)

3. *Verification.* — This proposal provides for the payment of interest on additional assessments made as a result of audit and verification. The interest would run from the date when the original tax was due. Under the existing law a corporation which is underassessed in the first instance in effect has deferred the due date upon a portion of its excise tax which is obviously unfair to corporations that are assessed the full amount of the excise at the time of the original assessment. The personal income tax law already contains provision for the payment of interest in cases similar to those which would be affected under this proposal (see General Laws, chapter 62, section 37). (Chapter 195 of 1933.)

4. *Returns.* — This proposal relates to the provision for the filing of tax returns by domestic and foreign business and domestic and foreign manufacturing corporations. Because of the amendment to the law changing the date for determination of the corporate excess (see Acts of 1927, chapter 258) the reference in the present statute to April 1 is no longer applicable. Neither is it necessary that the corporation should wait until the first of April before filing of return. The proposal clears up this difficulty and permits the filing of returns on or before

April 10. Furthermore, the present law fails to require incorporation in the tax return of certain information indispensable in connection with the assessment of the gross receipts' minimum tax. This proposal makes unequivocal the language in respect to the right of the commissioner to require information for a needful purpose in connection with the determination of the tax. (Chapter 58 of 1933.)

5. *Liability and Minimum.*—This proposal relates to the determination of liability to the excise in the case of domestic and foreign corporations and provides that the corporations shall be subject to the excise regardless of whether they are actively engaged in business so long as they have the franchise and the right to engage in business. It brings the law clearly back into conformity with what was the law under the former franchise tax and will clear up a source of litigation which has already resulted in two cases going to the Supreme Judicial Court. Such a change would not produce any hardship as the measures of the excise tax would limit the amount of the tax to a nominal figure in the event a corporation was not actively engaged in business. It also involves a single minimum tax in lieu of the present capital stock minimum and the present gross receipts minimum. This single minimum tax is at a very low rate, about one-fifteenth of the average state rate upon tangible property which is now made exempt from local taxation and upon intangible property having a situs and being employed in Massachusetts. As indicated the rate is very much less than that which the individual pays upon his merchandise under the present law and is only the approximate equivalent of what he pays through the medium of the income tax upon his intangible property. It is to be noted that this provision is for a minimum tax only and will not apply unless the usual excise is so small that it does not exceed the amount of the minimum. In other words, it is not imposing an additional tax but simply provides that where the excise as measured by corporate excess and by income is so small that it does not even equal two dollars per thousand upon tangible property now exempt from local taxation and upon intangible property employed in Massachusetts, the proposed minimum shall apply. It abolishes the existing capital stock minimum and the existing gross receipts minimum which yield relatively little revenue and which present certain administrative difficulties which make them to a certain extent objectionable.

The proposal also deals with the situation arising from the Carlos Ruggles Lumber Company case (261 Mass. 450). In that case it was held that a domestic corporation had the right under the existing law to allocate income if the corporation is engaged in interstate commerce even though when the allocating factors are applied it results in the allocation of all the income to Massachusetts. The situation thereby arising is provocative of litigation. It seems to permit the corporation to escape taxation altogether upon a certain portion of its income. Under the proposal allocation of income outside the Commonwealth would be permitted only in the event that such income could be taxed by some other state if that state desired to impose or did in fact impose a tax on or measured by income.

There is also provision made for the setting aside of the statutory method of allocation of income in the case of foreign corporations. At the present time the corporation alone has the right to object to the statutory method of allocation if it does not fairly disclose net income earned in Massachusetts. It is only employed when the corporation believes that the statutory method allocates too much income to Massachusetts. There is no provision for remedying the situation when the method allocates too little to Massachusetts. The proposal gives the commissioner the right in such cases to set aside the statutory method. In other words, it gives the commissioner a right corresponding to that of the corporation. (Chapter 342 of 1933.)

6. *Foreign.*—This proposal relates to the taxation of corporations engaged in Massachusetts exclusively in interstate commerce. The Alpha Portland Cement Company case (268 U. S. 203) held that the present excise cannot constitutionally be applied to such corporations. Unquestionably, a tax may constitutionally be imposed upon the property, both tangible and intangible, of such corporations so far as it has a situs in Massachusetts. Probably a tax may be imposed upon the income of such corporations earned within Massachusetts. This proposal provides for the taxation of the property and income. In order to avoid discrimination against this type of corporation, provision is made whereby such a corporation

may at its option be assessed under the provisions of the excise applicable to other business corporations.

Undoubtedly, the purpose of the legislature in defining corporate excess was to avoid double taxation by certain deductions but as the law is now worded deductions are required of items which are not one hundred per cent present in the amount from which the deduction is to be made. This proposal corrects this situation and limits the deduction to the proper amount. To contrast the present statute with the proposal by way of formulae the following examples are set forth.

Under the present statute, assuming  $X$  represents the deductible items, the formula would read as follows:

$$\frac{\text{Value of assets employed in Mass.}}{\text{Value of total assets}} \times \text{Share value less } X = \text{Corporate Excess}$$

Under the proposal the formula would read as follows:

$$\frac{\text{Value of assets employed in Mass. less } X}{\text{Value of total assets}} \times \text{Share value} = \text{Corporate Excess}$$

The present provision of the corporation tax law ignores the whole theory of an excise tax and attempts to give an illogical deduction to certain corporations because stockholders thereof have paid a personal income tax. It is thought that no corresponding provision exists in any other State at the present time. A similar provision in the Oregon law was declared unconstitutional in *Standard Lumber Company v. Pierce*, 228 Pac. 812 (Oregon). (Referred to next annual session.)

7. *Net Income*. — This proposal changes the definition of "net income" as employed in the laws relating to the taxation of business and manufacturing corporations, banks, and trust companies. This substitutes for the existing definition the definition employed by New York State.

Such a change would tend toward greater uniformity in the taxation of corporations and banks.

The United States Supreme Court has in the *Educational Films Corporation* case (282 U. S. 379) held the New York definition of net income constitutional. It is highly improbable that the same definition if adopted by Massachusetts would be held unconstitutional. Hence, the income base lost through the *Macallen* decision (279 U. S. 620) would, in some measure, at least, be recovered both in the case of banks and business corporations.

The attempt to adjust federal net income to "net income" as defined in the Massachusetts law has raised several difficult questions and resulted in appeals and litigation. The *Everett Trust Company* case decided by the Board of Tax Appeals (1931 Advance Sheets 1) is an example, which this definition would clear up.

The definition would also permit audit of net income without awaiting Federal action and independent of Federal action. Recently Federal changes have been reported involving over one hundred thousand dollars in Massachusetts taxes with respect to a single corporation and going back from ten to fourteen years. It would be better both for Massachusetts and the corporations to have these matters, as far as possible, more promptly adjusted, and without the existing control as exercised through Federal action. (Chapter 327 of 1933.)

#### INHERITANCE

8. *Joint Owners*. — The present inheritance tax law is ambiguous in respect to the taxation of property passing because of the death of a joint owner. Where two or more joint owners received their joint property by will or gift from a third person, contributing nothing themselves, it has been contended by executors that no tax is due, although it is apparent that the decedent's interest passed at decedent's death. The legislation proposed makes these interests determinable. In an attempt to reach fairness in taxing it is difficult to ascertain the amount actually contributed by each party, and the legislation requested will make for greater accuracy in the computation of the tax. Under the proposed amendment the tax that will be assessed will probably not be increased or diminished to any appreciable extent, but will be fairer to the taxpayer in its application, and will be consistent with the interest that passes. (Referred to next annual session.)

9. *Trustees*. — This section is rewritten to provide, in the first instance, that date on which the tax on the various interests becomes due and payable; is fol-

lowed by provision for the payment of the tax on future interests and suspension of payment by the court, in certain cases; and concludes by naming those liable for the payment of the tax.

It is a more compact and orderly arrangement of the section and in addition it provides that taxes upon interests passing by deed, grant or gift, taking effect in possession or enjoyment after the death of the donor, shall be payable by the trustee in office when the right of possession or enjoyment accrues, if there be a trustee at that time. This should be of material assistance in the collection of the tax, as it will be less difficult to collect the tax from a trustee, who is more often a responsible party, is more likely to be located within Massachusetts and has assets in his hands from which the tax can be paid, than from beneficiaries often located outside the Commonwealth and who in many instances have disposed of the property, unaware that the passing of the property to them is subject to a tax. (Chapter 293 of 1933.)

10. *Nonresident.* — Reciprocal relations need to be established with the other States of the Union so that a nonresident decedent cannot by the probating of wills in a State be relieved from taxation in the State of domicile or the State of probating. The States of New York, Rhode Island, Virginia, in addition to others, have adopted legislation which provides that if other States will advise the State of domicile of the probating of a nonresident will, reports will be made to the State of domicile. The proposal here submitted is in line with the legislation passed by other States, and will permit Massachusetts to enjoy the reciprocal advantages of other States by itself establishing the practice of reporting to the State of domicile the probating of any will in this Commonwealth of a nonresident decedent. (Chapter 319 of 1933.)

#### MUNICIPAL

11. *Betterments.* — The local assessors experience difficulty in not being able properly to trace betterment assessments. The present law requires the original board that determined the betterments to commit the betterments for collection to the collector of taxes. The assessors, however, are charged with the duty of apportioning payments and of adding to the current year's tax bills unpaid betterments. There is no provision in the law for this information to come to them and they are obligated to get it from the collector. This proposal will make it clear that the original board shall handle abatements and that the commitment shall be made through the assessors to the collector, thus providing the assessors with permanent records. (Chapter 63 of 1933.)

12. *Partial Payments.* — This proposal, before the Legislature for some time, has for its objective the collection of taxes as of July first and as of October first, with partial payments between and after these dates up to the expiration of the calendar year. It also changes the taxing date from April first to January first. Provision may well be made so as to alleviate the distress by putting this bill in operation at once for permitting for the first year or even a longer period the running of taxes for the first period without interest, or some equivalent adjustment which it has not been possible to make in the bill which is now presented because it has been deemed advisable to allow this adjustment to be made in the final draft of the bill if the Legislature approves the proposal. (Chapter 254 of 1933.)

#### CONSTITUTIONAL

13. The Constitution of Massachusetts, being very restrictive and very frequently interpreted, has caused the necessity of a narrow construction to be in control when legislation is proposed. This proposal for amendment to the Constitution has been before the Legislature for some time but has not yet met with approval. It authorizes, in part, liberality in the laying of a tax on income, and also permits the classification of tangible personal property. This proposal will permit of legislation which will tend to give a better spread to the Massachusetts tax base. (Placed on file "Ought to pass.")

14. *Interest on Abatements.* — Existing law in many instances compels the Commonwealth to return with taxes abated paid interest at six per cent. Approximately 50 per cent of taxes collected by the Commonwealth is annually distributed to the cities and towns for their uses. The Commonwealth even during this period of distress is not obligated to pay in excess of three per cent for its

temporary loans. The payment of six per cent on abated taxes constitutes an exaction of money to the extent of at least three per cent on all money returned, and a charge on the cities and towns that they should not bear. It is therefore suggested, in order to save in every possible way, that three per cent only be allowed by way of interest on abatements. (Referred to next annual session.)

## COMMISSIONER'S LEGISLATIVE REPORTS

The Commissioner of Corporations and Taxation was charged by the Legislature in 1930 to make reports in respect to finding revenue to provide for the operation of the law effective July 1, 1931, to provide for adequate assistance to certain aged citizens. This report is designated as House No. 1, 1931, and was printed in my report for 1930.

Chapter 398 of the Acts of 1931 entitled "AN ACT IMPOSING AN OLD AGE ASSISTANCE TAX ON MALE INHABITANTS OF THE COMMONWEALTH ABOVE THE AGE OF TWENTY TO PROVIDE REVENUE FOR CARRYING OUT THE TERMS OF THE LAW PROVIDING ADEQUATE ASSISTANCE TO CERTAIN AGED PERSONS," provides by

SECTION 9 thereof that "The commissioner is hereby directed to consider ways and means for permanently raising the revenue required by the commonwealth and by the cities and towns thereof to provide for financing the old age assistance act, so called, giving special consideration to various forms of sales taxes, amusement taxes, luxury taxes, increases in income and inheritance taxes and any other form of additional taxation by which such revenue may be provided, and shall report to the general court his findings and recommendations, together with drafts of legislation necessary for carrying said recommendations into effect, by filing the same with the clerk of the house of representatives not later than the first Wednesday in December of the year nineteen hundred and thirty-two." (No Report made for submission to 1932 session [see Chapter 259, 1932].) (See report to the General Court; House 410, 1933.)

See 1930 Report and Instruction to Assessors, Nos. 13 and 14, for description of The Massachusetts Board of Tax Appeals. See 1930 Report for information on Reciprocal Inheritance Taxation.

## PUBLICATIONS

The following have been compiled and printed:

Public Document No. 16. — The Annual Report of the Department, for the year ending November 30, 1931, received from the printer August 27, 1932.

Public Document No. 19. — Part I. Aggregates of Polls, Property, Taxes, etc., as assessed April 1, 1931, received from the printer in March, 1932.

Public Document No. 19. — Part II. Aggregates of Property, Taxes, etc., assessed in December, 1931, received from the printer in May, 1932.

Public Document No. 29. — Statistics of County Finances for the year ending December 31, 1931, received from the printer in July, 1932.

Public Document No. 79. — Statistics of Municipal Finances for years ending between November 30, 1930, and March 31, 1931, received from the printer in August, 1932.

Estimate of County Receipts and Expenditures for the year ending December 31, 1932, issued in February, 1932, as a Legislative Document.

Instruction to Assessors No. 14, received from the printer January, 1933.

Rules and Regulations, Massachusetts Business Corporation Excise, dated January 1, 1933.

## CONFERENCES

*Conferences.* — For the purpose of recording the events, reference is made to the Twenty-fifth Annual Conference on Taxation, under the auspices of the National Tax Association (organized 1907), held at the Deshler-Wallick Hotel, Columbus, Ohio, September 12 to 16, 1932, and the Twentieth Annual Conference on Taxation, under the auspices of the New England State Tax Officials Association (organized January 18, 1912), held at Hotel Randall, North Conway, New Hampshire, October 6 and 7, 1932.

The North American Gasoline Tax Conference (organized November, 1926) was held September 21, 22 and 23, 1932, at Philadelphia, Pennsylvania.

The Municipal Finance Officers Association of the United States and Canada, formerly the International Association of Comptrollers and Accounting Officers (organized November, 1903) annual meeting was held June 7, 8 and 9, 1932, at Washington, D. C.

The Forty-Third Annual Session of the Association of Massachusetts Assessors was held November 15 and 16 and as usual brought out much of interest. "Instruction to Assessors No. 14" has been issued containing some of the addresses delivered at these meetings. The program follows:

FORTY-THIRD ANNUAL SESSION  
OF THE  
ASSOCIATION OF MASSACHUSETTS ASSESSORS

Tuesday and Wednesday, November 15th and 16th, 1932  
Auditorium, State House, Boston.

PROGRAM

*Tuesday, November 15, 1932*

First Session, 10 A.M. Auditorium, State House, Boston.

General Reception, Registration, Payment of Dues. Meeting new members.  
Obtaining Banquet Tickets.

The Forty-Third Annual Session opened: Address by the President, Adrian P. Coté, of Brockton.

Reading of the Records. Frank A. Rogers, of Gloucester, Secretary.

Report of Treasurer. Joseph H. Handford, of New Bedford.

Report of Legislative Committee and Report of Special Committee on Reduction of the Burden of Direct Taxation. James J. Casey, of Cambridge, Chairman.

Other reports, if any. Voting on amendment to by-laws. Other matters or announcements.

Suggestions for discussion at the Round Table on Wednesday.

Naming of nominating committee and other committees, if any.

Discussion of plans for Summer meeting.

Filing with the Secretary; assessing and collecting questions for answer.

Second Session, November 15, 1932.

1.30 P.M., Auditorium, State House, Boston.

The Tax Situation. Henry F. Long, Commissioner of Corporations and Taxation.  
Effect of the Depression on High Grade Residential Property. Walter Channing, Boston Real Estate Exchange.

The Syracuse Valuation System during the Depression. Clifford Goes, Syracuse, N. Y., Assessor.

How Assessors should Prepare Their Case for the Board of Tax Appeals. Fred J. Lucey — Lucey System — Past President.

Discussion.

Third Session, November 15, 1932.

Banquet, 5.30 P.M., Boston Chamber of Commerce Building, 80 Federal St.

Assessors, Collectors and Guests may be accompanied by ladies.

Call to Order. Adrian P. Coté, of Brockton, President. Toastmaster, Charles D. Harnden, of Leominster, President, Massachusetts Treasurers' and Collectors' Association.

Some Observations on the Assessment of Taxes. Hon. William H. Blodgett, Tax Commissioner of Connecticut.

Is Taxation Necessary? Henry F. Long, Commissioner of Corporations and Taxation.

*Wednesday, November 16, 1932.*

Fourth Session, 10 A.M. Auditorium, State House, Boston.

Tax Titles. David W. Creelman, Director of Division of Local Taxation.

Taxes, Mortgages, Foreclosures. George R. Glendining, Editor: *Banker and Tradesman*.

How Reductions in Valuations have been Effected in New Bedford. Joseph H. Handford, of New Bedford.

The Widow's and Soldier's Exemption.

The efficacy of Clause 20, Sec. 5, Chapter 59, G. L. (Ter. Ed.)

Assessors to give their experience and views.

Round Table:

Henry F. Long, Presiding.  
All Assessors Participating.

Subject Matters:

Farm Land Taxation.

Acreage Taxation.

Exemptions under Clause 3, Section 5, Chapter 59, General Laws.

Abatements.

Certificates from Town Clerks and Treasurers.

How the Assessor can help the Collector.

And any other subject of interest.

Questions and Answers for Assessors and Collectors.

David W. Creelman, Director of Local Taxation.

Fifth Session, November 16, 1932.

2 P.M., Auditorium, State House, Boston.

(or at close of Fourth Session.)

Report of Nominating Committee.

Business Meeting.

Election of Officers.

Suggestions for future activities.

Adjournment.

Meeting of new Executive Committee.

## ASSOCIATIONS AND MEETINGS IN 1932

| Name of Association   | Date of Organization | Meetings   |             |                        |                         |

\* Hampshire County joined in 1924.

\*\* On May 15, 1928, the Massachusetts Treasurers' Association, organized February 22, 1890, and the Massachusetts Tax Collectors' Association, organized April 11, 1912, in joint meeting were by vote of both organizations amalgamated as one organization under the name, Massachusetts Tax Collectors' and Treasurers' Association, Monthly Meetings — Boston.

## MAIN OFFICE

## GASOLINE EXCISE TAX

Privilege of Registering Motor Vehicles  
General Laws, Chapter 64A (Chapter 316 of 1928)

The fourth year of the operation of the gasoline tax law has been as encouraging as could be expected. The rate of two cents per gallon was maintained to May 1, 1931, and the rate of three cents subsequent to that date, but the total amount of money received has been greater than it was reasonable to anticipate. The total receipts were for the nine months ending November 30, 1929, \$7,416,747.14, and the total amount received for the twelve months' period ending November 30, 1930, \$10,342,676.23, for the period ending November 30, 1931, \$13,685,385.73, and for the period ending November 30, 1932, \$16,651,872.79.

TAXATION OF SALES OF GASOLINE AND CERTAIN OTHER MOTOR  
VEHICLE FUEL

The administration of the gasoline tax law has been accomplished without any expense, the entire administration costs being absorbed by the Department generally. The administrative practice has not changed. In 1932, through 103 Licensed Distributors and 100 Licensed Distributors E the gasoline tax was collected. There are no uncollected gasoline taxes for the four years. The refunding of gasoline used other than in the propulsion of motor vehicles did not materially exceed in percentage the amount refunded in 1929, 1930 and 1931, and is done very simply by the requests of gasoline consumers who use the forms (G.T.9) provided for refund. The forms used have been slightly changed and are as follows, the 1929 forms being shown in one column and the 1930, 1931 and 1932 being shown in the next column:

| 1929  | 1930 to 1932, inc. |
|---|--------------------|

\* Obsolete 1932.

In order to make proper comparatives the calendar year is also used. The receipts of the gasoline tax go to the Highway Fund except for the temporary increase in the tax under chapter 243 of the Acts of 1932, and are expended under an appropriation of the General Court for highway maintenance and construction in Massachusetts under the direction of the Commissioner of Public Works. Through the use of auditors and other sections of the Department of Corporations and Taxation at a period during the year of approximately two weeks when it is not advisable to audit taxpayers' returns because of their filing returns both through the State and the Federal government, additional revenue in the amount of \$21,783.00 has been obtained during 1932. There are practically no administrative difficulties in the gasoline tax law at all comparable with other forms of taxation. The requirement of a bond from those who are licensed as Distributors insures the collection of the tax but Massachusetts' experience from 1929 through 1932 with but one bond that had to be sued on indicates that care in licensing the Distributors insures prompt and full collection of the tax. The practice is if a Distributor does not report promptly on the fifteenth day of the month following the month of sale he is immediately sent a notice on the night of the fifteenth following. If he does not pay the tax the fifteenth of the month following, he is sent a demand for the tax immediately, and if not paid a warrant is issued and handed to a constable for the tax collection. This collection method is easily absorbed by the collection section of the Department which collects all the taxes other than local taxes in the Commonwealth. The gasoline tax being laid in connection with the registration of automobiles it is interesting to record here the experience of registration.

For the third year, contrary to the experience of all previous years but two,

motor vehicle registration in Massachusetts for the fiscal year ended November 30, 1932, revealed a loss from the previous year. This is the fourth such loss on the books of the registry, the first being in 1927, the year of the Ford shut-down, and the second in 1930, the first full year of the "depression."

Passenger car registrations for the fiscal year reached 805,459, a drop of 80,494 from 1931. The number of business cars and trucks reached the peak in 1931 with registrations totaling 116,580, against 112,551 in 1932. Popularity of the motorcycle is still on the wane. Registrations of motorized "bikes" numbered 3,068 in 1931 and only 1,661 in 1932, compared with 10,333 in 1925, or more than 83 per cent decline in the past seven years.

Fees from registrations, licenses, etc., totaled \$6,142,129 for the 1932 fiscal year, \$287,886 under the previous year's total, and under half of the 1928 figure. Registration fees were lowered beginning with 1929, but the difference has been more than offset by the gasoline tax.

The desire to drive is apparently as strong as ever, as evidenced by the fact that 1,014,635 persons hold Massachusetts permits to operate motor vehicles in this State, against 1,024,304 in the previous year. Only 81,036 persons took examination for driving licenses during the year, as compared with 184,077, the number of 1929, — no doubt a reflection of the business situation.

Record of motor vehicle registrations in Massachusetts for the fiscal year ended November 30, 1932, compared with previous years:

|                       | 1932        | 1931        | 1930        | 1929        | 1928         | 1927         |

\* Amounts thus marked on Section 26, Chapter 81, General Laws base.

## Acts of 1931, Chap. 122.

"SECTION 4. There is hereby imposed an additional excise tax of one cent on each gallon of fuel, as defined in section one of chapter sixty-four A of the General Laws, sold in the Commonwealth during the period beginning with the first day of May of the current year and ending with the thirtieth day of April, nineteen hundred and thirty-three, the same to be levied and collected, and the proceeds thereof disposed of, as provided in said chapter sixty-four A, and the provisions of said chapter shall apply to said additional excise to the same extent as to the normal excise levied thereunder."

*Approved March 24, 1931.*

## Acts of 1932, Chap. 243.

AN ACT PROVIDING FOR THE PAYMENT BY THE COMMONWEALTH TO ITS MUNICIPALITIES OF SUBSTANTIALLY THE WHOLE OF THE PROCEEDS OF THE TEMPORARY INCREASE IN THE GASOLINE TAX.

*Whereas*, The deferred operation of this act would tend to defeat its purpose, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

*Be it enacted, etc., as follows:*

SECTION 1. There shall be paid on June first in the current year, from the appropriation made by item five hundred and eighty-nine of the general appropriation act of the current year, to towns then entitled to state aid for repair and improvement of public ways, other than state highways, under section twenty-six of chapter eighty-one of the General Laws, as most recently amended by chapter one hundred and seventy-one of the acts of nineteen hundred and thirty, the sum of four hundred and fifty-six thousand three hundred dollars, the same to be apportioned among said towns at the rate of fifty dollars for each mile of public ways, other than state highways, within their respective limits. Amounts paid to towns as aforesaid shall be in addition to the amounts to which they are entitled under said section twenty-six. There shall also be paid, without appropriation, from the Highway Fund on said June first to cities and towns not entitled to state aid as aforesaid the sum of five million five hundred thousand dollars, the same to be apportioned among such cities and towns in proportion to the amounts for which they will be respectively assessed for the state tax of the current year; provided, that no such city or town shall receive a sum less than was received by it under section seven of chapter one hundred and twenty-two of the acts of nineteen hundred and thirty-one. The amount of any sum payable to a city or town hereunder shall, in the current year, be included by the assessors thereof as an estimated receipt and deducted from the amount required to be raised by taxation to meet appropriations made in said year for the construction, reconstruction or maintenance of highways.

SECTION 2. Said section seven is hereby repealed.

*Approved May 20, 1932.*

## Acts of 1932, Chap. 248.

AN ACT EXTENDING THE TIME DURING WHICH THERE SHALL BE COLLECTED AN ADDITIONAL EXCISE TAX ON SALES OF GASOLINE.

*Be it enacted, etc., as follows:*

The time during which the additional excise tax of one cent is imposed on each gallon of fuel, as defined in section one of chapter sixty-four A of the General Laws, sold in the commonwealth, is hereby extended to and including the thirtieth day of April, nineteen hundred and thirty-six, and the provisions of section four of chapter one hundred and twenty-two of the acts of nineteen hundred and thirty-one shall apply to the tax so imposed during such extended period.

*Approved May 23, 1932.*

MOTOR VEHICLE EXCISE TAX  
General Laws, Chapter 60A (Chapter 379 of 1928)  
Privilege of using the highways

The third year of the operation of the motor excise tax law, amended April 23, 1930, has proceeded as formerly. The total experience for 1932 is available and from the information at hand, the 1929, 1930, 1931 and 1932 comparative is as follows:

|        | Cars<br>Taxed | Total<br>Value | Total<br>Tax | Average<br>Car<br>Value | Average<br>Tax<br>per Car | Rate<br>per \$1,000 |
|--------|---------------|----------------|--------------|-------------------------|---------------------------|---------------------|
| 1929 . | 1,000,077     | \$389,777,927  | \$10,363,324 | 71                      | \$389 75                  | \$10 36             |
| 1930 . | 995,946       | 352,760,905    | 8,534,837    | 50                      | 354 20                    | 8 57                |
| 1931 . | 986,930       | 304,113,291    | 7,611,555    | 12                      | 308 14                    | 7 71                |
| 1932 . | 897,540       | 240,317,775    | 6,183,706    | 22                      | 267 75                    | 6 88                |

In connection with the motor excise tax law, instructions were sent to the assessors and rules and regulations established by the Commissioner of Corporations and Taxation.

## LEGISLATION OF 1932

The General Court enacted at the 1932 session the following laws which have to do with the work of the Department of Corporations and Taxation:

- Chapter 2 An Act to facilitate local tax collections by extending the right of the holder of a mortgage on land to pay a tax assessed thereon.
- Chapter 5 An Act relative to the registration of motor vehicles or trailers in case of death, insolvency or bankruptcy of the owners thereof.
- Chapter 21 An Act re-allocating the funds made available in the year nineteen hundred and thirty-one for financing a program for the acceleration of state highway and building construction.

- Chapter 44 An Act creating the Mutual Savings Central Fund, Inc., for the purpose of protecting deposits in savings banks.
- Chapter 45 An Act establishing The Co-operative Central Bank.
- Chapter 50 An Act relative to the sale of real estate by foreign testamentary trustees.
- Chapter 54 An Act relative to tax summonses and to sales of land for district taxes and water rates.
- Chapter 56 An Act requiring county treasurers to give bond annually.
- Chapter 67 An Act relative to the form of certificates of incorporation of business corporations.
- Chapter 69 An Act making appropriations for the employment of additional persons, and expenses incidental thereto, as a measure of relief during the present unemployment emergency, and for other emergencies.
- Chapter 74 An Act further regulating contracts made by county commissioners and certain other boards.
- Chapter 94 An Act providing for advance payments on account of taxes for the current year in certain cities and towns.
- Chapter 97 An Act permitting cross examination of any officer or agent of a corporation which is an adverse party.
- Chapter 109 An Act relative to vacations for municipal laborers.
- Chapter 112 An Act relative to investments by savings banks in bonds of the Boston Elevated Railway Company maturing during public management and operation of said company.
- Chapter 114 An Act extending the provisions of certain laws to veterans of the Indian Wars.
- Chapter 136 An Act relative to the changing by business corporations of shares of stock with par value to shares of stock without par value.
- Chapter 139 An Act dissolving certain corporations.
- Chapter 147 An Act to change the name of the Metropolitan Transit District to the "Boston Metropolitan District" and to define the authority of said district to issue notes and bonds.
- Chapter 152 An Act relative to interest on delinquent income taxes and to the service of warrants for the collection of such taxes.
- Chapter 155 An Act making permanent certain provisions of law relative to investigations by the director of accounts of municipal accounts and financial transactions.
- Chapter 164 An Act establishing the basis of apportionment of state and county taxes.
- Chapter 170 An Act making appropriations for the maintenance of departments, boards, commissions, institutions and certain activities of the commonwealth, for interest, sinking fund and serial bond requirements, and for certain permanent improvements.
- Chapter 180 An Act making certain changes and corrections in the general statutes.
- Chapter 186 An Act relative to returns of income distributed by certain trustees and other fiduciaries to beneficiaries in the commonwealth.
- Chapter 197 An Act relative to the furnishing by collectors of taxes of certificates of unpaid water rates and charges and to the establishment of liens for such rates or charges.
- Chapter 216 An Act incorporating the Central Credit Union Fund, Inc., and defining its powers and duties.
- Chapter 218 An Act providing that the sale or taking of real property for payment of unpaid taxes thereon shall not prejudice proceedings for the abatement of such taxes.
- Chapter 223 An Act establishing an advisory commission for the town of Mashpee.
- Chapter 228 An Act making appropriations for maintenance of certain counties, for interest and debt requirements and for certain permanent improvements, and granting a county tax for said counties.
- Chapter 238 An Act relative to ownership by railroad corporations of stock in corporations performing certain auxiliary services.

- Chapter 243 An Act providing for the payment by the commonwealth to its municipalities of substantially the whole of the proceeds of the temporary increase in the gasoline tax.
- Chapter 248 An Act extending the time during which there shall be collected an additional excise tax on sales of gasoline.
- Chapter 259 An Act relative to the furnishing of adequate assistance to certain aged citizens.
- Chapter 284 An Act imposing an estate tax on the transfer of real or tangible personal property in the commonwealth owned by a person who at the time of death resided elsewhere.
- Chapter 286 An Act changing certain appropriations for Berkshire County.
- Chapter 290 An Act in amendment and revision of the sale of securities act.
- Chapter 297 An Act to authorize counties to receive gifts.
- Chapter 303 An Act relative to the renewal of certain temporary revenue loans by cities and towns.
- Chapter 307 An Act in addition to the general appropriation act making appropriations to supplement certain items contained therein, and for certain new activities and projects.
- Chapter 309 An Act to apportion and assess a state tax of nine million seven hundred fifty thousand dollars.
- Resolve 1 Resolve providing for an investigation relative to the governmental activities of the town of Mashpee.
- Resolve 13 Resolve requiring an investigation relative to providing for certain annual payments by the commonwealth to certain towns on account of the construction of certain additions to the Metropolitan Water System.
- Resolve 26 Resolve providing for an investigation by the Director of Accounts relative to fees and allowances in connection with the service of processes, the attendance of witnesses and the transportation of prisoners and certain other fees and allowances.
- Resolve 52 Resolve providing for an investigation and study by a special joint committee of the general subject of public expenditures.

### LEGISLATION OF 1933

- Chapter 3 Relative to the renewal of certain temporary revenue loans by cities and towns.
- Chapter 8 Authorizing domestic corporations to contribute to certain funds for the betterment of social and economic conditions.
- Chapter 28 Regulating the issue of temporary loans by certain counties.
- Chapter 29 Regulating the use of unexpended proceeds of serial bonds and notes issued by certain counties.
- Chapter 49 Creating an emergency finance board and defining its powers and duties.
- Chapter 58 Relative to tax returns of business and manufacturing corporations.
- Chapter 63 Relative to the action of assessors and collectors of taxes in the collection of betterment assessments.
- Chapter 66 Relative to the dissolution of business corporations in certain cases.
- Chapter 80 Relative to the time of filing annual returns of interests in certain ships and vessels as a basis of excise taxes thereon.
- Chapter 82 Relative to the appointment and qualification of deputy collectors of taxes.
- Chapter 89 Making appropriations for the employment of additional persons as a measure of relief during the present unemployment emergency.
- Chapter 99 Providing for advance payments on account of taxes for the years nineteen hundred and thirty-three and nineteen hundred and thirty-four in certain cities and towns.
- Chapter 120 Authorizing and regulating the manufacture, transportation and sale of wines and malt beverages.
- Chapter 130 Extending the time for appeals from the refusal of assessors to abate taxes.

- Chapter 147 Providing for notice of appeals to the county commissioners from refusals to abate betterment assessments.
- Chapter 148 Dissolving certain corporations.
- Chapter 151 Increasing the amount of local taxes exempt from penalty interest.
- Chapter 157 Providing that failure of a board of officers to take action upon a petition for abatement of a betterment assessment shall, for the purpose of appeal, be equivalent to refusal to abate the assessment.
- Chapter 164 Relative to proceedings for the sale or taking of property for non-payment of taxes and related proceedings.
- Chapter 165 Enlarging the class of persons entitled to apply for abatement of local taxes and to pursue other remedies in relation thereto.
- Chapter 167 Relative to appeals upon certain matters concerning taxation.
- Chapter 168 Relative to proceedings by collectors of taxes in respect to demands and to forms for use in the collection of local taxes.
- Chapter 185 Relative to the publication of by-laws in towns.
- Chapter 195 Providing for the inclusion of interest in the assessment of additional taxes upon certain corporations.
- Chapter 197 Relieving cities and towns of the metropolitan parks district of financial obligation in relation to the maintenance of boulevards.
- Chapter 198 Relative to the exemption from local taxation of institutions for the treatment of mental disorders.
- Chapter 216 Further regulating the number of licenses that may be issued for the sale at retail of wines and malt beverages not to be drunk on the premises.
- Chapter 219 Relative to eligibility for Old Age Assistance.
- Chapter 228 To prevent fraud and misrepresentation in the sale of gasoline, lubricating oil and other motor fuels, and to prevent adulteration thereof.
- Chapter 234 Providing for the collection by the commissioner of corporations and taxation of the excise payable to the Commonwealth for the privilege of manufacturing and selling or importing and selling wines and malt beverages.
- Chapter 236 Requiring the filing of annual returns by certain incorporated clubs and other corporations.
- Chapter 254 Relative to the date of assessment of taxes, to the payment thereof and to the listing of residents.
- Chapter 266 Relative to applications to assessors for abatements of local taxes.
- Chapter 284 Providing for the licensing of clubs dispensing food or beverages.
- Chapter 285 Providing for appeals by persons aggrieved by failure of cities and towns to render Old Age Assistance.
- Chapter 293 Increasing the rates of legacy and succession taxes in certain instances.
- Chapter 303 Changing the laws relating to taxation of certain classes of corporations, especially as they relate to subsidiary or controlled corporations.
- Chapter 307 Authorizing cities and towns to borrow on account of public welfare and soldiers' benefits from the Commonwealth and elsewhere and authorizing the Commonwealth to issue bonds or notes to provide funds therefor.
- Chapter 308 Relative to the partial payment of local taxes.
- Chapter 316 Relative to estate taxes in the case of persons dying while residents of foreign countries.
- Chapter 319 Providing reciprocal relations in respect to death taxes upon estates of nonresident decedents.
- Chapter 321 Temporarily increasing the membership of the Board of Tax Appeals and relative to the procedure before said board.
- Chapter 322 Making appropriations for maintenance of certain counties, for interest and debt requirements and for certain permanent improvements, granting a county tax for said counties, and making certain adjustments relative to compensation and travel allowances of certain county officials and employees.

- Chapter 323 Providing for the enforcement of the payment of soldiers' relief by cities and towns in certain cases.
- Chapter 325 Relative to collection of taxes on real estate by sale or taking and to redemption of tax titles and making certain minor adjustments in the laws relating to such taxes.
- Chapter 327 Relative to taxation of banks, trust companies and certain other corporations, especially with respect to the definition of net income.
- Chapter 328 Further regulating the granting of Old Age Assistance.
- Chapter 334 Making certain corrections and changes in the laws relating to savings banks and savings departments of trust companies.
- Chapter 341 Establishing a municipal finance commission for the town of Millville.
- Chapter 342 Amending the laws relative to the taxation of business and manufacturing corporations.
- Chapter 344 Relative to the receipt and disposition of funds received by the Commonwealth under the Federal Emergency Relief Act of nineteen hundred and thirty-three.
- Chapter 346 Making certain adjustments in the laws regulating the manufacture, transportation and sale of wines and malt beverages.
- Chapter 350 Providing for the payment and distribution of income taxes in two instalments, regulating the assessment and refunding of interest thereon, and fixing the date when certain late assessments thereof are payable.
- Chapter 357 Temporarily discontinuing the income tax exemption as to dividends of certain foreign corporations.
- Chapter 364 An Act establishing in the Department of Public Welfare a State Board of Housing and defining its powers and duties, and relating to certain dividend corporations under the control of said board.
- Chapter 365 Enabling the Commonwealth to secure certain benefits provided by the National Industrial Recovery Act.
- Chapter 366 Enabling cities and towns and fire, water, light and improvement districts to secure the benefits provided by the National Industrial Recovery Act.
- Chapter 367 Relative to the terms of certain bonds and notes to be issued by the Commonwealth.
- Chapter 368 Relative to the terms of certain bonds, notes or other forms of written acknowledgment of debt to be issued by the Commonwealth.
- Chapter 369 To apportion and assess a State tax of nine million dollars.
- Chapter 370 Transferring a portion of the proceeds of the gasoline tax from the highway fund to the general fund.

## VALUATION OF MACHINERY, POLES, WIRES AND UNDERGROUND CONDUITS, WIRES AND PIPES OF TELEPHONE AND TELEGRAPH COMPANIES

### General Laws, Chapter 59, Sections 39-42

The value at which machinery, poles, wires and underground conduits, wires and pipes of telephone and telegraph companies shall be assessed is determined annually by the Commissioner of Corporations and Taxation and certified by him to the assessors of the various cities and towns of the Commonwealth. This is the only class of property subject to local assessment, the value of which is not determined by the local assessors. Such property is in reality one continuous piece of property cut across by the various town lines, and the value as a whole should be considered in determining its fractional subdivision.

The total valuation for 1932, as determined by the Commissioner, was \$56,342,-341, the value as determined for 1931 being \$55,193,484, an increase of \$1,148,857. It is to be borne in mind that this does not include all the poles and wires of such corporations, but only those which are erected upon private property or in a rail-

road location. It does include conduits with the wires and pipes therein laid in public streets, but not the poles and wires erected in public streets or ways. This property is in substance reached through the corporate franchise tax. The property thus valued by the Commissioner at \$56,324,341 is subject to taxation at the local rates. Using the average rate throughout the State, which is about \$30.46 per thousand as a basis for computation, the corporations paid about \$1,716,187 in 1932 on this class of property. A right of appeal against the value as thus determined is granted by the statute to the corporations and also to the assessors. No appeals were taken during 1932.

The valuation of the machinery of such corporations as determined by the Commissioner for 1932 was \$542,627. There are altogether sixteen corporations whose property is subject to valuation under the provision of this statute.

## THE TAXATION OF STOCK TRANSFERS

### General Laws, Chapter 64

An excise tax upon the sale, delivery, transfer or agreement to sell any shares or certificates of stock in any foreign or domestic corporations or voluntary associations made in Massachusetts. The sale of stamps for the fiscal year ending November 30, 1932, was \$308,471.54, less the amount refunded for stamps erroneously affixed, \$266.96, leaving a net revenue of \$308,204.58. The tax has been in operation since December 1, 1914, and by the provisions of Section 8, no transfer of stock made subsequent to that date on which the tax is not paid at the time of transfer, unless the failure to pay was through accident, mistake or inadvertence, can be made the basis of any action or legal proceeding.

The annual yield from this tax indicates if not the prosperity, at least the evidence of prosperity as indicated by those who buy and sell stocks. The lowest yield (\$112,707.04) was in the war year 1918. There was a gradual increase up to the year 1927 (\$425,435.64). The yield for 1928 (\$540,058.32) and for 1929 (\$866,857.24) indicates the abnormal activities on the stock market during those years. The crash in the autumn of the year 1929 reduced the tax to \$514,921.40 in 1930, and to \$308,471.54 in 1932. These sudden changes indicate the difficulty of estimating twelve months in advance, the probable revenue from a source which depends so completely upon conditions impossible to foretell.

This tax is easily and inexpensively administered, — the only expense being the cost of printing the stamps and the slight compensation paid to the selling agent, the Old Colony Trust Co. The tax is practically automatic, the taxpayer taxing himself for his activities at the time when the liability is created and the Commonwealth receiving the tax once a month, the whole revenue being retained by the State. There are adequate checks in the transfer books of the corporations whose stock is transferred, but the revenue will always reflect and be subject to the speculative impulses of the public.

The revenue from the sale of stamps from December 1, 1914, to November 30, 1932, inclusive, is as follows for the years ending November 30:

|                    |                    |                    |                    |
|--------------------|--------------------|--------------------|--------------------|
| 1915..\$162,535 98 | 1920..\$264,172 52 | 1925..\$299,173 86 | 1929..\$866,857 24 |
| 1916.. 212,878 09  | 1921.. 191,144 34  | 1926.. 322,297 92  | 1930.. 514,416 78  |
| 1917.. 148,906 14  | 1922.. 219,633 14  | 1927.. 425,435 64  | 1931.. 341,169 76  |
| 1918.. 112,707 04  | 1923.. 207,249 44  | 1928.. 540,058 32  | 1932.. 308,204 58  |
| 1919.. 214,248 86  | 1924.. 219,589 08  |                    |                    |

Average yield for eighteen years, \$309,482.15.

## INSURANCE COMPANIES

### General Laws, Chapter 63, Sections 20-29

#### *Tax upon Premiums*

Under the provisions of these sections there were subject to the premium tax 26 foreign life companies; 348 fire and marine companies, of which 53 were organized under the laws of Massachusetts; and 153 miscellaneous companies, of which 36 were domestic companies.

The basis of the tax is the total gross premiums written or renewed for insurance, or reinsurance, of property or interests in Massachusetts, deduction being granted for all premiums returned or credited to policyholders during the taxable year, including so-called dividends in the case of mutual companies, and for reinsurance paid to authorized companies, provided it is shown to the satisfaction of the Commissioner of Corporations and Taxation that the tax upon such premiums is being paid in full by the reinsuring company.

The rate of tax provided by the statute is 1 per cent for domestic companies and 2 per cent for foreign companies, but retaliatory provisions specify that the tax upon every foreign insurance company shall be not less in amount than would be imposed by its parent state or country upon a like insurance company incorporated in Massachusetts, if doing business to the same extent in such state or country.

The following table shows the assessment upon net premiums, classified by the rates per cent charged in conformity with the above provisions and in reconciliation of differing bases of taxation:

| Net Premiums Subject<br>to Tax | Rate Per Cent       | Amount of Tax             |
|--------------------------------|---------------------|---------------------------|
| \$32,066 51                    | $\frac{1}{10}$ of 1 | \$32 07                   |
| 76,766 78                      | $\frac{1}{4}$ of 1  | 191 91                    |
| 705,342 41                     | $\frac{3}{8}$ of 1  | 2,645 03                  |
| 335,355 18                     | $\frac{1}{2}$ of 1  | 1,676 79                  |
| 80,533,682 15                  | 1                   | 805,336 78                |
| 364,874 08                     | $1\frac{1}{2}$      | 5,473 12                  |
| 2 307,624 35                   | $1\frac{3}{4}$      | 40,383 43                 |
| 83,691,152 15                  | 2                   | 1,673,923 00 <sup>1</sup> |
| 324,199 19                     | $2\frac{1}{4}$      | 7,294 48                  |
| 351,435 52                     | $2\frac{3}{10}$     | 7,910 00                  |
| 2,448,693 96                   | $2\frac{1}{2}$      | 61,217 36                 |
| 1,373,289 21                   | $2\frac{9}{10}$     | 35,705 52                 |
| 65,931 06                      | $2\frac{8}{10}$     | 1,890 00                  |
| 29,295 02                      | $2\frac{3}{4}$      | 805 61                    |
| 422,851 09                     | 3                   | 12,685 54                 |
| 637 66                         | $15\frac{9}{10}$    | 101 72                    |
| <b>\$173,063,196 32</b>        |                     | <b>\$2,657,272 36</b>     |

<sup>1</sup> Includes one \$100 privilege tax.

So far as the tax authorized by these sections relates to foreign life insurance companies, the statute now embodies the decision of the court sustaining the interpretation of the Commissioner, that the premium tax shall be exacted only in cases where and to the extent that such tax exceeds the tax assessed under Section 20 upon the net value of policies described below. (*Metropolitan Life Ins. Co. v. Commonwealth*, 198 Mass. 466.) The amount of premium tax which would have been paid by these 26 foreign life companies, were it not for the credit to be given on account of the tax on the net value of policies, is \$810,303.21. But in the case of 10 of the 26 companies upon which a premium tax of \$698,726.26 was computed, the tax upon the net value of policies exceeded the premium tax, and so no premium tax was exacted, and in the case of the other 16 companies upon which a premium tax of \$111,576.95 was computed, there was given a credit of \$52,941.44 assessed as the tax on the net value of policies under Section 20. Therefore these 16 foreign life companies are actually required to pay only \$58,635.51 as a premium tax.

The total premium tax to be collected is as follows:

|                                     | Domestic            | Foreign               | Total                 |
|-------------------------------------|---------------------|-----------------------|-----------------------|
| Life companies . . . . .            | —                   | \$58,635 51           | \$58,635 51           |
| Fire and marine companies . . . . . | \$66,271 26         | 648,527 64            | 714,798 90            |
| Miscellaneous companies . . . . .   | 129,918 41          | 1,002,251 84          | 1,132,170 25          |
| <b>Total . . . . .</b>              | <b>\$196,189 67</b> | <b>\$1,709,414 99</b> | <b>\$1,905,604 66</b> |

In settlement of claims the following abatements were made on account of taxes of previous years: 1930, \$603.85; 1931, \$429.37.

Additional taxes, due to audit, were assessed as follows: 1930, \$1,994.07; 1931, \$5,260.00.

*Tax upon the Net Value of Policies of Life Insurance Companies*

Foreign and domestic life insurance companies are alike subject to tax upon the net value of all policies in force upon the lives of residents of Massachusetts at the rate of one-fourth of 1 per cent. The aggregate net value of such policies issued by 47 companies, of which 12 were domestic companies, was \$812,313,879.17. The total excise assessed was \$2,030,784.74.

TAX UPON SAVINGS AND INSURANCE BANKS

General Laws, Chapter 63, Section 18

Under this section the General Insurance Guaranty Fund and the life insurance departments of twenty-two savings banks were taxed upon all funds held or in possession as a part of their insurance reserve or surplus at the rate of one-half of 1 per cent, deduction being granted for certain investments specified by Section 12 of Chapter 63. The total amount taxable was \$3,869,247.20, and the tax assessed, \$19,346.24.

Adjustments due to audit of 1930 taxes resulted in a net abatement of \$15.48; 1931 taxes in a net additional assessment of \$1,458.59.

With respect to net income as reported to the United States Government for the years 1918 and 1919, insurance companies were also subject to additional War Bonus and Special Taxes under the provisions of Chapter 255 of the General Acts of 1918, as revived and re-enacted by Chapter 342 of the General Acts of 1919 and of Chapters 550 and 600 of the Acts of 1920. As a result of Federal changes in the taxable net income of these years the following additional assessments and refunds have been made to insurance companies during 1932:

1919 War Bonus Tax:

|                        |   |   |   |   |   |   |         |         |
|------------------------|---|---|---|---|---|---|---------|---------|
| Additional Assessments | . | . | . | . | . | . | —       |         |
| Refunds                | . | . | . | . | . | . | \$56 58 |         |
|                        |   |   |   |   |   |   |         | \$56 58 |

1920 Special Tax:

|                        |   |   |   |   |   |   |        |       |
|------------------------|---|---|---|---|---|---|--------|-------|
| Additional Assessments | . | . | . | . | . | . | \$3 70 |       |
| Refunds                | . | . | . | . | . | . | 50 71  |       |
|                        |   |   |   |   |   |   |        | 47 01 |

Total Net Refund on account of War Bonus

and Special Taxes . . . . . \$103 59

THE APPROVAL OF CORPORATE ORGANIZATIONS AND REPORTS

Articles of organization, amendments, certificates of condition and reports of various kinds some of which are required to be filed by corporations in the office of the Secretary of the Commonwealth and must first be approved by the Commissioner of Corporations and Taxation. Certificates thus presented for the approval of the Commissioner of Corporations and Taxation are submitted by domestic corporations including public service corporations, foreign business corporations as defined in Chapter 181 of the General Laws, religious, charitable, social corporations and the various other classes of companies that may be organized under Chapter 180 of the General Laws, and voluntary associations.

## MASSACHUSETTS CORPORATION ORGANIZATION

The number of corporation organizations which received the approval of the Commissioner during the year, together with the authorized capitalization thereof, follows:

| Law  | Number      | Capital                   |
|--|-------------|---------------------------|
| Domestic business corporations, G. L., chap. 156 . . . . .                                 | 2,494       | \$46,896,770 <sup>1</sup> |
| Public service companies, G. L., chap. 158 . . . . .                                       | 3           | 76,000                    |
| Gas and electric companies, G. L., chap. 164 . . . . .                                     | —           | —                         |
| Co-operative banks, G. L., chap. 170 . . . . .   | —           | —                         |
| Credit unions, G. L., chap. 171 . . . . .  | 6           | — <sup>2</sup>            |
| Trust companies, G. L., chap. 172 . . . . .  | 1           | 200,000                   |
| Charitable and certain other purposes, G. L., chap. 180<br>with capital stock . . . . .    | 8           | 458,500                   |
| Charitable and certain other purposes, G. L., chap. 180<br>without capital stock . . . . . | 208         | —                         |
| Churches, G. L., chap. 67 . . . . .  | 5           | —                         |
| Drainage districts, G. L., chap. 252 . . . . .   | —           | —                         |
| Co-operative Associations, G. L., chap. 157 . . . . .                                      | 6           | 135,000                   |
| Co-operative Associations, G. L. 157 without capital<br>stock . . . . .                    | 3           | —                         |
| Medical Milk Commission, G. L., chap. 180 . . . . .  | —           | —                         |
| Labor or Trade Organizations . . . . .   | 2           | —                         |
|  | <hr/> 2,736 | <hr/> \$47,766,270        |

*Dissolution*

The Secretary of the Commonwealth reports that 26 corporations have been dissolved by order of the Supreme Judicial or Superior Court. In addition, the Legislature, by Chapter 139 of the Acts of 1932, dissolved 2,973 business corporations and 34 corporations organized for charitable or other purposes.

## ARTICLES OF AMENDMENT

Information relating to certificates examined and approved by the Commissioner of Corporations and Taxation follows:

*Increase of Capital Stock*

|  | Amount of Increase        |
|--|---------------------------|
| 181 business corporations, under General Laws, Chapter 156, Section 44 . . . . .     | \$21,765,000 <sup>3</sup> |
| 6 trust companies, under General Laws, Chapter 172, Section 18 . . . . .             | 1,094,000                 |
| 11 gas and electric companies, under General Laws, Chapter 164, Section 10 . . . . . | 8,452,150                 |
| 1 public service corporation, under General Laws, Chapter 158, Section 24 . . . . .  | —                         |
| Charitable and religious corporation, under General Laws, Chapter 180 . . . . .      | —                         |
| Total . . . . .  | <hr/> \$31,311,150        |

*Reduction of Capital Stock*

|  | Amount of Reduction             |
|--|---------------------------------|
| 213 business corporations, under General Laws, Chapter 156, Section 45 . . . . .     | \$44,481,699 <sup>4</sup>       |
| Gas and electric company, under General Laws, Chapter 164 . . . . .                  | —                               |
| 2 public service corporations, under General Laws, Chapter 158, Section 24 . . . . . | 1,560,000                       |
| 5 trust companies, under General Laws, Chapter 172, Section 18 . . . . .             | 2,128,000                       |
| Total . . . . .  | <hr/> \$48,169,699              |
| Net decrease . . . . .   | <hr/> \$16,858,549 <sup>5</sup> |

<sup>1</sup> And 1,909,441 shares without par value.<sup>2</sup> And 954,415 shares without par value.<sup>3</sup> And a decrease of 3,904,760 shares without par value.<sup>4</sup> Unlimited.<sup>5</sup> And 4,859,175 shares without par value.

*Issue of Capital Stock*

425 business corporations, under General Laws, Chapter 156, Section 16.

*General Amendments*<sup>1</sup>

418 business corporations, under General Laws, Chapter 156, Sections 41 and 42.

*Miscellaneous Amendments*

347 changes in annual meeting date.

6 corporations organized for charitable and other purposes; change of purpose, under General Laws, Chapter 180, Section 10.

27 changes of name, under General Laws, Chapter 155, Section 10.

[Applies to all corporations except domestic business corporations, railroad and street railway companies.]

4 changes of name under General Laws, Chapter 180, Section 11.

1 change in par value of shares, under General Laws, Chapter 164, Section 8.

No change of purpose, under General Laws, Chapter 164, Section 22.

No payment of capital, under General Laws, Chapter 164, Section 20.

No acceptance of Section 3, Chapter 156, General Laws.

2 verifications of payment of capital, Chapter 158, Section 36.

## CERTIFICATES OF CONDITION

15,929 business corporations, under General Laws, Chapter 156, Section 47.

115 gas and electric and other public service companies, under General Laws, Chapter 158, Section 37.

## CHANGE OF OFFICERS

1,295 changes of officers, under General Laws, Chapter 156, Section 24, and Chapter 164, Section 29.

## SUMMARY

The foregoing shows that 21,723 amendments and certificates have been examined and approved by the Commissioner of Corporations and Taxation during the year; a decrease of 1,228 over 1931.

## FOREIGN CORPORATIONS

## General Laws, Chapter 181

The term "foreign corporation" as used in the General Laws, Chapter 181, is defined as a corporation, association or organization, except an insurance company or a corporation organized for a purpose for which domestic corporations can be organized under chapter one hundred and eighty, which has been established, organized or chartered under laws other than those of Massachusetts.

## REGISTRATION

Foreign corporations under the provisions of General Laws, Chapter 181, Sections 3 and 5, as a condition precedent to doing business in Massachusetts, must file with the Commissioner of Corporations and Taxation —

1. Appointment of the Commissioner of Corporations and Taxation as its attorney upon whom all lawful processes in any action or proceeding against it may be served.

2. A copy of its charter certified by the Secretary of State (or other qualified officer) of the State or country which issued it.

3. A certificate regarding its capital stock, officers, and other information.

4. A true copy of its by-laws.

209 corporations registered and 268 corporations filed affidavits of withdrawal during the year ending November 30, 1932, or have been withdrawn from the list of active companies because of their repeated delinquency as to taxes and the filing of certificates of condition. The companies registered have an aggregate authorized capital stock of \$60,761,100, and 5,767,550 shares without par value. The fees amounting to \$10,450 have been deposited with the Treasurer and Receiver-General.

<sup>1</sup> Includes change of name, par value of stock, location, nature of business, classes of capital stock subsequently to be issued, and their voting power, right to sell, lease or exchange of all property and assets, including good will and corporate franchise.

## AMENDMENTS

Under the provisions of said chapter, there have been filed 9 certificates of increase and 48 certificates of decrease of capital stock. 28 corporations have filed amendments changing their corporate names.

Increases in authorized capital stock reported aggregated \$2,464,000, and, 2,300 shares without par value and reductions aggregated \$52,342,360 and 1,885,065 shares without par value.

## CERTIFICATES OF CONDITION

Foreign corporations are required annually to submit to the Commissioner of Corporations and Taxation for his approval a certificate of condition. After examination, if the certificate conforms to the requirements of the statute, the Commissioner indorses his approval thereon. The certificate is then filed in the office of the Secretary of the Commonwealth. 2,063 certificates of condition have been examined and approved during the year.

## SERVICE OF PROCESS

Under the provisions of Sections 3 and 3A of Chapter 181 of the General Laws, as amended, 1,054 writs have been served upon the Commissioner of Corporations and Taxation during the year, and the fees accompanying, \$2,108, have been deposited with the Treasurer and Receiver-General.

## VOLUNTARY ASSOCIATIONS

## General Laws, Chapter 182

Section 2 of Chapter 182 of the General Laws provides that, as to voluntary associations under a written instrument or declaration of trust, except certain "Voting Trusts;" when the beneficial interest is divided into transferable certificates of participation or shares a copy of the written instrument or declaration of trust creating it be filed with this Department. 48 such voluntary associations have registered during the year, and the fees, amounting to \$2,400, have been deposited with the Treasurer and Receiver-General.

## PETITIONS TO REVIVE CERTAIN CORPORATIONS, ETC.

Section 7 of Chapter 3 of the General Laws, as amended, provides that whoever intends to present to the General Court a petition to establish or revive a corporation of a certain class, amend the charter, change the corporate purpose or name, shall, on or before November 1, prior to the intended presentation, deposit the same with the Commissioner of Corporations and Taxation; and if the petition relates to a corporation organized for business or profit it shall be accompanied by a fee of \$25.

Under the provisions of this section there has been received and turned over to the Treasurer and Receiver-General the sum of \$210, and the petitions forwarded to the General Court.

## MISCELLANEOUS RECEIPTS

There has been received \$1,499.60 for copies of documents filed in this office and for witness fees, and this amount has been deposited with the Treasurer and Receiver-General.

## DIVISION OF MISCELLANEOUS TAXES

## TAXATION OF NATIONAL BANKS AND TRUST COMPANIES

## General Laws, Chapter 63, Sections 1-7 as amended

In compliance with the law, the following procedure was followed to obtain the 1931 rate applicable to "banks."

## THE COMMONWEALTH OF MASSACHUSETTS

DEPARTMENT OF CORPORATIONS AND TAXATION,  
STATE HOUSE, BOSTON, June 10, 1932.*Subject*  
1932 Bank Tax Rate*To the Cashier of each National Bank  
and the Treasurer of each Trust  
Company in Massachusetts: —*

Pursuant to and under the authority of the requirements of sections 1 to 7, inclusive, and in particular, Section 2 of Chapter 63 of the General Laws as amended, you are hereby notified of a hearing to be held in Room 239, State House, Boston, on Thursday, June 16, 1932, at 11.00 o'clock in the forenoon.

Section 2 of Chapter 63 as amended provides that

Every bank shall pay annually a tax measured by its net income, as defined in section one, at the rate assessed upon other financial corporations; provided, that such rate shall not be higher than the highest of the rates assessed under this chapter upon mercantile and business corporations doing business in the commonwealth. The commissioner shall determine the rate on or before July first of each year after giving a hearing thereon, and at or prior to such hearing he shall make available to all banks requesting the same a statement showing the aggregates of the income returnable during the preceding calendar year and taxable under this chapter and the aggregates of the taxes under this chapter of such year, with respect to the following classes of corporations: (1) domestic financial corporations, (2) foreign financial corporations, (3) domestic manufacturing corporations as defined in section thirty-eight C, (4) foreign manufacturing corporations as defined in section forty-two B, (5) domestic business corporations as defined in section thirty, (6) foreign corporations as defined in said section thirty. The commissioner shall seasonably notify the banks of his determination. Appeal by a bank from the determination of the commissioner may be taken to the board of tax appeals within ten days after the giving of such notice.

Very truly yours,

HENRY F. LONG,  
*Commissioner of Corporations  
and Taxation*

STATE HOUSE, BOSTON, June 16, 1932.

*To the Cashier of each National Bank  
and The Treasurer of each Trust  
Company in Massachusetts:**Subject*  
1932 Bank Tax Rate

In compliance with the provisions of Section 2 of Chapter 63 of the general laws as amended, and after a hearing which was held June 16, 1932, I have determined the 1932 rate at which the income of banks shall be taxable to be 7.59 per cent.

Very truly yours,

HENRY F. LONG,  
*Commissioner of Corporations  
and Taxation*

The following tables show the amount of taxes flowing from the taxation of "banks."

TABLE ELEVEN

AMOUNT AND APPORTIONMENT OF TAX  
149 National Banks. 87 Trust Companies (1932).

| Year and Rate | Total Bank Tax | Cities and Towns | Commonwealth |
|---------------|----------------|------------------|--------------|
| 1926 6.00%    | \$1,035,362 38 | \$766,430 08     | \$268,932 30 |
| 1927 5.34%    | 883,017 49     | 630,140 27       | 252,877 22   |
| 1928 5.65%    | 1,013,539 62   | 724,945 81       | 288,593 81   |
| 1929 5.62%    | 1,252,423 80   | 828,242 06       | 424,181 74   |
| 1930 6.40%    | 1,415,002 24   | 772,949 85       | 297,257 33   |
| 1931 6.53%    | 836,561 00     | 569,675 46       | 266,885 54   |
| 1932 7.59%    | 389,305 17     | 273,646 70       | 115,658 47   |

149 National Banks (1932)

| Year | Total Tax    | Cities and Towns | Commonwealth |
|------|--------------|------------------|--------------|

# SAVINGS BANKS AND TRUST COMPANY SAVINGS DEPARTMENTS

## General Laws, Chapter 63, Sections 11-17

This heading includes 196 savings banks, the Massachusetts Hospital Life Insurance Company and 80 trust company savings departments. The tax is assessed semi-annually, in May and November covering the preceding six months, upon the average deposits, less those deposits exempt under Section 12, at the rate of one-quarter of one per cent. The essential facts relating to this tax are shown in the following tables:

|  | 1932     | Average<br>Deposits<br>Subject to<br>Tax | Deposits<br>Exempt from<br>Tax | Deposits<br>Taxed | Tax            |
|--|----------|--|--------------------------------|-------------------|----------------|
| 196 savings banks . . .                            | May      | \$2,131,190,727                          | \$1,581,736,637                | \$549,530,513     | \$1,373,825 54 |
| 194 savings banks . . .                            | November | 2,088,823,779                            | 1,586,547,005                  | 502,369,534       | 1,255,923 11   |
| Massachusetts Hospital<br>Life Insurance Co. . . } | May      | 27,296,404                               | 22,109,515                     | 5,186,889         | 12,967 22      |
| 80 savings departments                             | November | 26,564,421                               | 21,933,676                     | 4,630,745         | 11,576 86      |
| 68 savings departments                             | May      | 165,686,284                              | 125,468,700                    | 40,217,584        | 100,543 66     |
|  | November | 125,578,072                              | 100,212,708                    | 25,722,121        | 64,305 07      |
| Total . . . . .                                    | —        | —  | —                              | —                 | \$2,819,141 46 |

The total of this tax for each of the years 1922 to 1932 follows:

|                |                |                |                |
|----------------|----------------|----------------|----------------|
| 1932 . . . . . | \$2,819,141 46 | 1926 . . . . . | \$2,124,481 04 |
| 1931 . . . . . | 3,309,303 11   | 1925 . . . . . | 2,071,370 53   |
| 1930 . . . . . | 3,269,487 04   | 1924 . . . . . | 2,037,391 02   |
| 1929 . . . . . | 3,151,956 61   | 1923 . . . . . | 1,998,190 25   |
| 1928 . . . . . | 2,871,473 78   | 1922 . . . . . | 2,052,196 09   |
| 1927 . . . . . | 2,398,423 58   |                |                |

TABLE TWELVE —

|   | October 31, 1926        | October 31, 1927                  | October 31, 1928        |
|---|-------------------------|-----------------------------------|-------------------------|
| Average of deposits in all Savings Banks, for six months ending . . . . .                                   | \$1,730,564,110 = 100%  | \$1,847,333,466 = 100%            | \$1,990,662,387 = 100%  |
| Of the above deposits the following sums are <i>exempt from taxation</i> because invested as follows:       |                         |                                   |                         |
|   |                         |                                   | INVEST                  |
| (a) Real Estate used for banking purposes . . . . .   | \$21,350,831 = .0123    | \$23,035,975 = .0125              | \$24,052,523 = .0121    |
| (b) As Mortgagee in Real Estate taxed in Massachusetts . . . . .  | 1,020,972,047 = .5900   | 1,088,861,487 = .5894             | 1,157,512,450 = .5815   |
| (c) Real Estate acquired by Foreclosure . . . . .   | 1,068,191 = .0006       | 1,865,791 = .0010                 | 4,268,650 = .0021       |

NOTE: Each \$1,000 of deposits pays \$1.254 tax per year. The banks ordinarily earn  $5\frac{1}{2}\%$  on their deposits. The tax on this \$55 of earnings is \$1.254, or figured on percentage basis on income is the equivalent of 2.281% on income. The above rate of \$1.254, which is as of October 31, 1932, is comparable with \$1.444 as of October 31, 1926.

Net decrease in Deposits Exempted from Taxation . . . . . \$34,049,781

\* Total of investments deductible plus the average deposits taxed is \$356,757, in excess of the average deposits, because some banks report investments of deposits exempt from taxation in excess of their average deposits subject to taxation.

## TAXATION OF PUBLIC SERVICE CORPORATIONS

## General Laws, Chapter 63, Sections 53-66

This heading includes railroads, street railways, telephone and telegraph companies, gas and electric light companies, power companies, water companies, and a few miscellaneous corporations which are here included for the reason that they are not subject to Chapter 156 of the General Laws (The Business Corporation Law). The whole number of these public service corporations making tax returns as of April 1 is 250. Of these, a tax was assessed upon 143. The total amount of taxes so assessed was \$3,550,535.53, of which \$8,493.94 was laid upon the street railways and \$3,542,041.59 upon the other public service corporations. Of the \$8,493.94 assessed upon street railways, \$8,443.67 is apportioned to cities and towns in proportion to mileage of tracks, and \$50.27 to the Commonwealth principally on account of trackage in public reservations. Of the \$3,542,041.59 assessed upon other public service corporations, \$1,727,267.61 is apportioned to cities and towns, and \$1,814,773.98 to the Commonwealth. The part distributed to the cities and towns is governed by Chapter 58 of the General Laws which prescribes different methods of distribution for different classes of corporation taxes. Taxes of gas, electric light and water companies are distributed to the cities and towns where the business of the corporation is carried on. The taxes of railroads, telephone and telegraph companies are distributed to the several cities and towns in proportion to the total assessed value of property, actually taxed in each city and town for the preceding year. Taxes assessed on some miscellaneous companies are distributed to cities and towns in proportion to shares of stock owned by residents. The part apportioned to the Commonwealth is on account of shares of stock owned by non-residents of the Commonwealth or by certain corporations. The following table will show the amounts applicable to the different classes of corporations in detail:

|                                   | Cities and Towns | Commonwealth   | Totals         |
|-----------------------------------|------------------|----------------|----------------|
| Gas, electric light and power     | \$1,308,988 45   | \$768,997 12   | \$2,077,985 57 |
| Railroads . . . . .               | 155,009 35       | 99,261 67      | 254,271 02     |
| Street railways . . . . .         | 8,443 67         | 50 27          | 8,493 94       |
| Telephone and telegraph . . . . . | 260,148 06       | 919,377 59     | 1,179,525 65   |
| Miscellaneous . . . . .           | 3,121 75         | 27,137 60      | 30,259 35      |
|                                   | \$1,735,711 28   | \$1,814,824 25 | \$3,550,535 53 |

The total value of the capital stock of the public service corporations as ascertained by me for the purposes of taxation is — \$721,353,459.

The value of the corporate excess actually taxed is \$118,667,652.

The detail of taxes, both *public service* and *business corporations*, follows:

**APPORTIONMENT AND DISTRIBUTION OF CORPORATION TAXES**

During the year there has been distributed \$659,689.49 on account of taxes of years prior to 1932. This net amount follows:

|                               | Distributed to<br>Cities and Towns | Accruing to<br>Commonwealth |
|-------------------------------|------------------------------------|-----------------------------|
| Domestic business companies   | \$521,615 05                       | \$74,804 93                 |
| Foreign business companies    | 8,562 68                           | 1,712 53                    |
| Gas, electric light and power | 146 90                             | 281 19                      |
| Railroads                     | 15 21                              | 715 40                      |
| Street railways               | —                                  | —                           |
| Telephone and telegraph       | 3,520 49                           | 10,219 37                   |
| Trust companies               | 23,259 78                          | 6,904 48                    |
| National banks                | 15,495 14                          | 15,010 36                   |
| Miscellaneous                 | —                                  | —                           |
| (Net)                         | \$555,459 47                       | (Net) \$104,230 02          |

In addition to the above, there has been collected and distributed: Business Corporation taxes of the years 1933 and 1934 in the amount of \$6,343.30, of which five-sixths was distributed to the cities and towns.

The amount shown above as accruing to the Commonwealth and to the cities and towns should not be confused with the sums reported as collections relating to corresponding items, because the distribution made in one fiscal year includes taxes paid in a previous fiscal year. These amounts indicate the distributions made during the fiscal year ending November 30, 1932.

Details of the distribution of corporation taxes appear in tables farther on in this report.

The total tax assessed upon domestic business and manufacturing corporations in 1932 is \$6,942,053.86, and upon foreign business corporations, \$2,189,364.23. There is apportioned to the Commonwealth on account of these corporations

\$1,157,008.98 of the tax on domestic and \$364,894.04 of the tax on foreign companies; the balance of \$5,785,044.88 on domestic and \$1,824,470.19 on foreign companies is apportioned to cities and towns under the provisions of Section 20 of Chapter 58 of the General Laws, as amended. The foregoing figures of *apportionment* in relation to business corporations show the amounts which would accrue to the Commonwealth and to the cities and towns if all assessed taxes were paid; it should be borne in mind, however, that the amounts actually accruing to the Commonwealth and to the cities and towns vary from these figures.

The amount of the 1932 corporation and bank taxes and interest thereon distributed to the close of the fiscal year, November 30, 1932, aggregated \$11,824,516.95. These taxes were paid by corporations, as follows:

|   |                 |
|---|-----------------|
| Domestic business companies . . . . .             | \$5,974,918 15  |
| Foreign business companies . . . . .              | 1,973,793 60    |
| Gas, electric light and power companies . . . . . | 2,029,351 36    |
| Railroads . . . . .                               | 249,536 49      |
| Street railways . . . . .                         | 8,493 94        |
| Telephone and telegraph companies . . . . .       | 1,173,783 83    |
| National banks and trust companies . . . . .      | 384,379 89      |
| Miscellaneous . . . . .                           | 30,259 69       |
|   | <hr/>           |
|   | \$11,824,516 95 |

Distribution of the 1932 taxes and interest thereon paid to November 1 was made in time for settlement with the cities and towns November 20; a subsequent distribution was made as of the close of the fiscal year, November 30. The totals of these distributions are shown in the table following:

|   | Distributed to<br>Cities and Towns | Accruing to<br>Commonwealth |
|---|------------------------------------|-----------------------------|
| Domestic business companies . . . . .   | \$4,979,098 46                     | \$995,819 69                |
| Foreign business companies . . . . .    | 1,644,828 00                       | 328,965 60                  |
| Gas, electric light and power . . . . . | 1,301,187 00                       | 728,164 36                  |
| Railroads . . . . .                     | 151,382 69                         | 98,153 80                   |
| Street railways . . . . .               | 8,443 67                           | 50 27                       |
| Telephone and telegraph . . . . .       | 258,781 59                         | 915,002 24                  |
| National Banks . . . . .                | 41,841 38                          | 42,015 20                   |
| Trust Companies . . . . .               | 231,083 53                         | 69,439 78                   |
| Miscellaneous . . . . .                 | 3,116 51                           | 27,143 18                   |
|   | <hr/>                              | <hr/>                       |
|   | \$8,619,762 83                     | \$3,204,754 12              |

## CARE AND CUSTODY OF DEPOSITS

### General Laws, Chapter 58, Section 28

This statute provides that the Commissioner shall assess one-twentieth of 1 per cent upon certain corporations and organizations on account of trust funds deposited with the Treasurer and Receiver-General. The amount of these funds as reported to me by the Treasurer and Receiver-General was \$5,819,050, upon which \$2,909.52 was assessed.

## EXPENSES OF COMMISSIONS

### General Laws, Chapter 25, Section 11

The Comptroller reported that \$53,669.93 was the amount to be assessed upon corporations, individuals and municipalities for the expenses of the Gas and Electric Light Division of the Department of Public Utilities. The amount is that appropriated by the Legislature less any unexpended balance remaining from the previous appropriation and as provided in Section 12.

This amount was assessed, and notice thereof, respecting the amounts due from cities and towns, given to the Treasurer and Receiver-General.

## EXPENSE OF INQUESTS

## General Laws, Chapter 38, Section 11

The expense of inquests assessed for 1931 was \$1,390.69, being the amount reported to me by the Department of Public Utilities.

## INCOME TAX DIVISION

The revenue produced on income received in the calendar year 1931 and shown on the 1932 tax returns has fallen back to about that of 1924, due to general business conditions, falling off in dividend payments, a very limited amount of gains from dealings in intangibles and to getting the full bad effect of too liberal exemptions in the law both as deductions and exclusion of many because of the \$2,000 flat allowance on business income and \$1,000 flat allowance as to all income.

The reduction and passing of dividends were material in 1931 and were directly reflected in the revenue produced. The defaulting of interest payments, while not comparable with the loss in dividend revenue, was, however, serious.

The drop in revenue of approximately \$4,156,000.00 to \$18,491,337.81 was felt particularly in the 3 per cent and 6 per cent tax.

The collection records show that of the amount assessed \$17,744,824.19 has been collected, or 96 per cent of the total which, in view of the depressed conditions, speaks well for the spirit of the taxpayers. This compares with 97.2 per cent collected for the same period in 1931, and attention is called to the fact that only one half of 1 per cent of the older tax remains unpaid.

During 1932 there was also collected \$1,165,031.22 for assessments in prior years, bringing the grand total to \$18,989,855.41 on November 30, 1932.

The total number of returns filed has dropped to 427,162, or about 2,000 returns, which is normal in view of conditions, and a further decrease may be looked for next year.

It was anticipated that there would be reduced revenue from the income tax to about \$18,000,000.00, which proved to be the fact. Now general conditions for 1932 warrant an estimate of further reduction in revenue, approaching possibly the level of 1912. Conservative estimates must be made because of the danger in overestimation of the amounts to be paid to cities and towns which is material in fixing local tax rates.

*Returns**Number of 1932 Returns Reporting Income Received in 1931*

|              |                             | Taxable | Non-Taxable | Total   |

| Totals       | . . . . .                   | 250,246 | 176,916     | 427,162 |

*Explanation of Form Numbers*

|         |   |
|---------|---|
| Form 1  | Used by individual inhabitants.   |
| Form 2  | Used by executors, administrators, trustees, guardians, conservators and other fiduciaries.   |
| Form 2A | Used by executors, administrators, guardians or conservators carrying on a business in their fiduciary capacity.  |
| Form 2B | Used by executors, administrators and guardians to report income received prior to the death of decedents, or by the ward prior to appointment of guardian.                                     |
| Form 3  | Used by ordinary partnerships doing business in Massachusetts.  |
| Form 3C | Used by banking and brokerage partnerships and some individuals engaged in such business, provided the business does not include dealings in or with real estate or tangible personal property. |

- Form 3F Used by such partnerships, associations or trusts having transferable shares which file the agreement provided by law to pay the tax direct, thereby relieving their shareholders from reporting dividends received on such shares.
- Form 3M Used by clubs, social or other organizations not carrying on business, but holding taxable investments.

#### ASSESSMENT OF TAXES

During 1932 there were 427,162 returns filed showing income received during the calendar year 1931, as compared with 429,114 filed in the prior year, a decrease of 1,952 returns. There were also filed 17,598 returns for other years, in addition to the above, making a total of 444,760 returns. In addition to regular assessments, there were 12,409 additional assessments made, bringing the number of cases handled to a grand total of 457,169.

Many temporary female clerks were employed during the fiscal year to carry the work through the peak loads, which appears to be more economical than increasing the regular force. The work of assessing tax returns required the services of 76 clerks, of which 65 were regular employees and 11 temporary comptometer operators for three months. 19,674 cases were referred to the Correspondence Section for the purpose of correcting apparent errors and omissions, and developing omitted income. These 19,674 cases are only the ones referred to them during the assessment period, there being many more so referred in the fall during the delinquent work. This work requires the services of one assessor, four deputies, and from seven to ten clerks and stenographers.

As a result of the work in the Correspondence Section there were 10,918 cases additionally assessed producing a gain in tax of \$108,819.54 over the figures originally reported. To accomplish this result it required the sending of 28,854 letters and forms, the interviewing of 5,485 taxpayers, and the handling of 2,853 telephone calls.

The fiduciary returns are handled by a group of technically trained employees, because of the many ramifications of wills and deeds, consisting of one assessor, one deputy assessor, and six assessing clerks and stenographer, with one extra comptometer operator for a temporary period of three months. This group assessed 30,310 returns for the current year filed on forms 2, 2B and 2A, and during such assessment developed \$32,213.96 in additional taxes from apparent errors and omissions.

The partnership section, consisting of one assessor and four assessing clerks, handles the filing and assessing of returns filed on forms 3, 3C and 3M. There were 7,907 returns filed in this section and during the assessment thereof they uncovered \$3,620.84 in additional taxes through apparent errors in the returns as originally filed.

The corporation section, so-called, has assigned to it, one assessor, one deputy assessor, and from one to three clerks and stenographer. This group handles questions pertaining to corporation dividends, mergers, reorganizations and liquidations, and the filing and assessing of 740 returns filed on form 3F by partnerships, associations and trusts with transferable shares. 1,405 corporation questions were passed on and considerable tax obtained or reserved for the Commonwealth.

The total of these activities brought into the Department \$144,654.34 additional revenue, showing the value of careful examination of returns.

#### DELINQUENTS

Since the enactment of the income tax law, a careful check has been made each year for delinquent taxpayers, with a result that many thousands have been discovered through various methods including work on information forms filed with the division, records found in the local tax assessors' offices, registrar of voters, registrar of motor vehicles, registry of deeds and probate, directory and telephone records, blue books, chattel mortgage records, banker and tradesman, and all available information. The delinquent taxpayers are a natural fault through lack of knowledge of requirements, new residence, never having had taxable income in prior years, and other causes; very few appear to be deliberate evasion. The results obtained indicate the value of the work and the necessity of constant at-

tention to such search, as no one year completes the work and demonstrates that it must be done each and every year. The results for the fiscal year 1932 show that 41,856 returns were thus obtained, covering the income for the calendar years 1929, 1930 and 1931, on which a tax of \$170,445.37 was assessed.

The correspondence, fiduciary, domicile and auditing sections of the main office and the assessors and deputy assessors in the 10 district offices carry on this line of endeavor throughout the year.

In the fall of each year statistics are compiled for the year and a check made in the case of each taxpayer to see that returns are filed for each year then available under the law. Where a return for any year is missing, a reference is made to the correspondence section for investigation. During the current year 16,230 cases were so referred, requiring the sending of 29,562 letters and form letters, the holding of 5,896 personal interviews, and the handling of 3,188 telephone calls. The result was that 14,543 additional returns were filed with a tax involved of \$34,510.63.

The Domicile Section, consisting of one assessor, one deputy assessor and five clerks, handles cases where domicile adverse to Massachusetts is claimed. There were 5,792 such cases received during the year in this section. It was clearly demonstrated in these cases that 2,625 were legally domiciled in Massachusetts, 790 domiciled outside of Massachusetts, and 2,377 cases were doubtful, being held in abeyance awaiting additional facts or results of investigation. The 2,625 cases held to be taxable in Massachusetts involved taxes of \$215,486.07. At the close of the fiscal year there were approximately 150 cases not as yet reached, so that a total of 5,942 cases were referred to this section during the year.

The Fiduciary Section, consisting of one assessor, one deputy assessor and seven clerks, handles all returns filed by executors, administrators, trustees, guardians, conservators, trustees and receivers in bankruptcy and other fiduciaries, involving the interpretation of involved wills, trusts and indentures. It developed during the assessment of these taxes and a review of the probate records that various errors and omissions had been made and 1,175 fiduciary returns had not been filed which produced a tax of \$13,817.46. 958 of these returns were the direct result of the records obtained by the clerical force from a review of the records kept by the registrar of probate.

There are ten offices maintained outside of the main office, and delinquent work is carried on throughout the year in addition to audit work and other details; here 26,002 delinquent cases were uncovered with a tax involved of \$104,854.19.

The Auditing Section handles mostly the larger and more complicated returns for audit, but as an incident of their work they found 63 delinquent taxpayers and imposed taxes of \$3,341.64.

#### AUDITS AND INVESTIGATIONS

The audit work in the field is carried on by the assessors and deputy assessors in the ten district offices and the auditing section of the main office. The work consists of checking the returns filed in 1930, 1931 and 1932 reporting income received in the calendar years 1929, 1930 and 1931, respectively, with the original records of the taxpayers. Particular attention was paid to the 1930 and 1931 returns as in subsequent years the number of mergers, reorganizations, stock dividends and liquidating dividends have materially decreased. However, additional taxes were assessed from this source on 7,080 returns amounting to \$316,013.60.

The district office forces of thirty-three assessors and deputy assessors examined 4,970 returns filed by 3,399 individuals, partnerships and fiduciaries with a gain in tax of \$148,225.20.

The main office force of auditors consists of nineteen men, the personnel of which has changed during the year due to death, transfer and new men. These men are experienced auditors and handle the larger cases of business and financial affairs. During the year they completed the examination of 2,110 returns filed by 1,513 individuals, partnerships and fiduciaries, producing a gain in tax of \$167,788.40. These figures are comparable with the figures of last year showing 2,656 audits of 1,040 cases, producing a gain of \$197,085.82.

There were audited in total during the fiscal year 4,912 separate cases showing an average gain per case of \$64.33 as compared with \$115.84 in the prior year. The 7,080 returns audited showed that in 54.88 per cent of the cases some error was discovered. This percentage is a drop from 63.46 per cent in the prior year

and while it is still high, it must be borne in mind that the examination covers only a small portion of the returns filed and has to do with the larger cases where, due to the ramifications of business and complications of income, the opportunities for error and misunderstanding are greater. Special investigation results are included above.

The total increase in revenue from this field of work amounts to \$316,013.60, a falling off of \$95,563.43 from the prior years, which was not unexpected due to falling income.

The results of the last eight years of field audit work are clearly shown in the graph following. The varying lines are an indication that each year has its own peculiar problems and cannot be taken as a guide of future audits. The fact that gains continue to be made emphasize the need and desirability of constant attention to conditions peculiar to the business and income of each year.

It is well known that no law will administer itself and although sixteen years of experience has been had by the division and the taxpayers, eternal vigilance is the answer to effective administration and production.

Graph shows result of eight years of field audit work.

TOTAL GAIN IN TAXES FROM ADMINISTRATIVE ACTIVITIES

A compilation of gains from additional assessments due to desk audits during assessment, new returns through delinquent work, and the gains from audits in the field, shows an aggregate figure of \$631,113.31 which would not have been obtained except through these administrative activities.

There was of necessity a falling off of additional revenue from this line of work due to the drop in business and correspondingly lessened income. While this shrinkage amounts to about 32 per cent, still the additional revenue gained exceeds the entire cost of administration of the division.

Before March 15, 1932, there was collected by provisional payments \$1,337,-541.21, which money the Commonwealth had the use of to the due date of the bills, October 1, 1932. If it is assumed that this money was worth 3 per cent, there was a saving in interest of \$21,735.05. The Commonwealth also had the use of approximately \$17,000,000 collected from October 9, 1932, to the date of distribution on November 15, 1932, which at an assumed rate of 3 per cent equals a further saving in interest of \$42,585.00. The total of these amounts indicates additional revenue through administrative activities of \$695,433.36.

## INFORMATION REPORTS

The information reports required to be filed under sections 33 and 34 of the law by individuals, partnerships, and corporations having a place of business in Massachusetts, and the reports filed by the Commonwealth and the cities and towns form the basis of much of the audit and delinquent work. These information reports are filed on cards of uniform size supplied by the division. Cards of different colors are used to report salary, wages and all compensation of over \$2,000 paid to inhabitants; interest on bonds, notes and other evidences of indebtedness; stockholders of record in foreign corporations doing business in Massachusetts; and annuities paid to Massachusetts inhabitants. When filed these cards are arranged alphabetically and their contents checked to the respective returns, or if no returns have been filed, they are canvassed by the district offices as delinquent work.

Approximately 1,000,000 cards are filed, but some were discarded because no dividends were paid by the company, or the persons named were non-residents. The total figure includes about 30,000 cards filed with the corporation division as a credit for dividends paid to residents of Massachusetts.

All corporation names are kept on the mailing list even though excused from filing one year because no dividends were paid.

There were 26,009 separate reports filed by those required by law to make such reports, giving information concerning nearly 1,000,000 items. 81,072 pieces of mail were handled in this section, assistance given to 866 individuals and 3,464 letters sent in answer to inquiries.

## COLLECTION OF TAXES

For ready comparison the table displayed below indicates the net amount of income taxes warranted for collection since the law became operative; the net amount actually collected; the balance remaining uncollected and the percentage of tax collected.

|                      | Total Net Tax<br>for Collection | Net Amount<br>Collected | Uncollected<br>November 30,<br>1932 | Percentage<br>Collected             |
|----------------------|---------------------------------|-------------------------|-------------------------------------|-------------------------------------|
| Levy of 1917 . . . . | \$12,540,561 03                 | \$12,540,561 03         | —                                   | 100%                                |

The difference between certain of the figures in this table and the figures for corresponding years in prior reports is due to additional assessments, subsequent collections and abatements due principally to court decisions.

In addition to the collection of income taxes, the Collector acts for the Commissioner of Corporations and Taxation in the collection of all taxes levied by the state. These include corporation taxes, legacy and succession taxes, estate taxes, gasoline taxes, bank taxes, insurance company taxes, public utility taxes, and other miscellaneous and special taxes. This work requires the services of the tellers in the income tax division and some clerical assistance, in addition to two regular clerks assigned to this division from the corporation division. The amount of revenue collected and handled by the collection force totals \$49,853,648.67 in addition to income tax revenue.

Where requested and it is possible to do so, the facilities of the collector have been furnished by the Commissioner to those cities and towns whose collectors are limited in their facilities for prompt and efficient collection of local taxes.

Such service was rendered to twenty-two municipalities during the fiscal year and \$14,928.48 collected.

The total revenue collected by this section during the fiscal year 1932 was as follows:

|  |                        |
|--|------------------------|
| 1932 Income taxes . . . . .                              | \$17,744,824 19        |
| Income taxes for prior years . . . . .                   | 1,165,031 22           |
| Corporation, inheritance and other collections . . . . . | 49,853,648 67          |
| Total collections in 1932 fiscal year . . . . .          | <u>\$68,763,504 08</u> |

#### ABATEMENT OF TAXES

There were no court cases decided this year which materially added to the abatements granted, although fifty-two claims were carried over from last year involving the "De Blois, et al" case decided in the Supreme Court, September 21, 1931. Seventy cases were disposed of through decisions of the Superior Court and the Board of Tax Appeals.

Eliminating Court and Board of Tax Appeals cases, there were 3,590 claims for abatement filed and disposed of during the fiscal year, a decrease of 2,781 claims. The total abatements granted covered 2,908 claims and \$259,309.93 in tax as compared with \$1,546,941.14 the prior year in 33,263 cases.

During the year 3,712 claims for abatement were filed of which 804 were disallowed in total, saving the Commonwealth \$239,446.53 in tax. There were 2,908 claims allowed in whole or in part involving a tax in total of \$259,309.93. Of the amount allowed in abatement, \$249,254.39 represented regular taxes, \$1,153.00 penalties, and \$8,902.54 interest accrued at the time the assessment was made. The total abated also included \$12,704.55 covering 129 claims brought under section 27 of Chapter 58 of the General Laws (Ter. Ed.).

There were also handled in this section 1,362 refund cases without claim for abatement, being cases in which the taxpayer had paid his tax at the time of filing his return and the subsequent assessment of the correct amount of the tax disclosed the overpayment.

Personal interviews were held with taxpayers or their representatives on 1,579 cases in order to assist in the proper filing of the claim, or to obtain necessary or additional information to properly judge the claim.

In the great mass of returns assessed and billed, only sixty claims for abatement were found to be due to departmental errors, indicating that the system of billing and checking is nearly perfect.

At the end of the fiscal year 728 cases remained to be acted upon, of which 114 had been approved but certificates had not been issued.

The table below displays the amount of the tax levy, the abatements granted in their respective years, and the per cent abated.

| YEAR           | TOTAL<br>ASSESSMENTS | TOTAL<br>ABATEMENTS | PER CENT<br>ABATED |
|----------------|----------------------|---------------------|--------------------|
| 1917 . . . . . | \$12,823,103 98      | \$282,542 95        | 2.21               |

| 1929 . . . . . | 29,197,155 19        | 692,615 04          | 2.37               |
| 1930 . . . . . | 33,120,866 93        | 1,221,745 01        | 3.68               |
| 1931 . . . . . | 22,905,154 69        | 105,261 24          | .45                |
| 1932 . . . . . | 18,491,337 81        | 23,887 65           | .12                |

DISTRIBUTION OF TAXES

The table below displays the total distribution of income taxes in the fiscal year 1932 to cities, towns, fire, water and improvement districts for the fiscal year as noted at the head of each column.

|  | 1928            | 1929            | 1930            | 1931            | 1932            |
|--|-----------------|-----------------|-----------------|-----------------|-----------------|
| Cities and Towns:<br>Distributed to Dec. 1, 1931 | \$18,455,000 00 | \$22,850,000 00 | \$25,275,000 00 | \$15,820,000 00 | —               |
| Distributed Nov. 15, 1932                        | —               | —               | —               | 500,000 00      | \$11,100,000 00 |
| Educational<br>Encouragement Measure             | 5,343,793 74    | 5,415,961 06    | 5,540,560 13    | 5,670,672 30    | 5,657,634 77    |
| Total . . . .                                    | \$23,798,793 74 | \$28,265,961 06 | \$30,815,560 13 | \$21,990,672 30 | \$16,757,634 77 |

STATISTICS OF THE 1932 TAX LEVY

The following tables will disclose the principal classes of income which contributed the tax assessed in 1932.

The tax assessed upon salaries, wages and business income was \$4,117,760.28, a falling off of \$584,180.86 from the total in 1931 of \$4,701,941.14, or about 12¼ per cent, while the income from annuities increased \$6,178.08 over the total of \$41,271.06 in 1931.

The revenue from the excess of gains over losses from the purchase or sale of stocks, bonds, rights, and other intangibles taxed at the 3 per cent rate was \$576,472.07 as compared with \$1,892,908.28 in the prior year, a drop of 69 per cent. The revenue from taxable interest and dividends taxed at the 6 per cent rate was \$13,680,393.31 as compared with \$15,917,953.98 in the prior year, a drop of 14 per cent.

The loss in revenue of approximately \$4,000,000.00 is attributed largely to the unsettled business conditions, the lack of opportunity to realize profit from trading in intangibles and the cutting down and passing of dividends. There were many losses from dealings in intangibles which are not reflected in these figures, as the net losses over gains are not deductible from other classes of income, as would be the case in a general income tax law. This fact has saved many dollars in taxes and emphasizes the soundness of eliminating capital net losses from current income.

Analysis tables can never be complete for the year at the time of their preparation as additional taxes may be levied for two years, until September 1, 1934, and some abatements may be granted. They are, however, valuable for comparison with similar tables prepared for prior years on the same basis.

ANALYSIS OF 1932 ASSESSMENT

|                | Business<br>Income<br>1½% Tax | Annuities<br>1½% Tax | Gains<br>3% Tax | Interest and<br>Dividends<br>6% Tax | Penalties | Total           |

Total Income Taxed Amounted to \$526,236,108.47

#### COST OF ADMINISTRATION

The main office force of the division at 40 Court Street, Boston, consists of the director, assistant director, collector, 36 assessors and deputy assessors, and 151 to 203 clerks, stenographers, messengers, telephone operator and photostat operator. There are 10 offices maintained outside of the main office where 33 assessors and deputy assessors are employed, together with the necessary clerical force of 12 persons. The regular force provided for in the budget totals 234 persons and additional help is required during the assessment period, for opening mail, and sending out forms.

In the main office 1,491,796 pieces of mail were handled including both incoming and outgoing mail and also some 175,000 pieces of outgoing mail for the divisions located at the State House. This same force also handled \$18,909,855.41 of income tax collections, besides the necessary work involved in the collection of \$49,853,648.67 of other taxes assessed by the state.

Nine of the outside offices, located in accessible centers, handled 121,589 pieces of incoming and outgoing mail, interviewed 92,984 persons at the offices and collected and deposited \$1,266,781.35 of income tax money.

The total cost of administering the income tax was \$573,079.35 or 3 per cent of the total income taxes collected during the year. The percentage of cost to collections will necessarily vary with the amount of revenue collected and as the revenue falls off the percentage of cost increases. The total cost of administration was reduced \$7,448.41 from the prior year. It is well, however, to call attention to the additional revenue obtained through administrative efforts which amount equals the cost of administration and in prior years was nearly double in revenue.

#### ADVANCE PAYMENTS

There has been a tendency for several years, assisted by an urge from the division, to pay taxes at the time of filing before March 1, although the tax is not legally due until October 1. This applies more particularly to the smaller amounts, and saves many dollars in actual expense of postage, envelopes and time. It also eliminates the extra effort often necessary to collect small accounts. During the filing period of 1932 there were 71,916 advance payments made or about  $4\frac{1}{2}$  per cent less than the prior year of 75,330. The total amount paid was \$1,337,541.21 or about 12 per cent less than the prior year of \$1,527,261.54. The average payment in 1932 was \$18.59 per payment. These payments being deposited with the Treasurer and Receiver-General give the Commonwealth the use of \$1,337,541.21 to November 15, when distribution is made to the cities and towns, so that assuming an interest rate of 3 per cent, \$26,750 have been saved in interest charges on borrowed money.

The following table shows the volume of payments and the amounts, since the second year of the operation of the law.

| YEAR                | NUMBER OF<br>PAYMENTS | TOTAL AMOUNT<br>PAID | AVERAGE TAX<br>PER PAYMENT |
|---------------------|-----------------------|----------------------|----------------------------|
| Taxes of 1918 . . . | 7,967                 | \$227,940 70         | \$28 61                    |
| Taxes of 1919 . . . | 18,273                | 466,668 05           | 25 53                      |

### LITIGATION

During the fiscal year 1932 five cases were handed down by the Supreme Judicial Court affecting the income tax law, summarized as follows:

*Hattie F. Hornblower, et al., vs. Commissioner of Corporations and Taxation*

This was an appeal by the Commissioner of Corporations and Taxation from a decision of the Board of Tax Appeals.

This case involved the sale by the Bingham Mines Company of all its assets to the United States Smelting, Refining and Mining Company, payment being taken in shares of the latter company. Delivery of the new stock was made direct to the old stockholders of Bingham Mines Company upon order of the Bingham Mines Company, and the contention raised was that the gain realized was a dealing in intangibles taxable at 3 per cent under G. L. Chapter 62, section 5(c). The contention of the Commissioner of Corporations and Taxation was that there was a liquidation to the stockholders of Bingham Mines Company and that the amount or value received by them over the par value of their old stock was taxable as a dividend under G. L. Chapter 62, section 1(b). Decision for Commissioner.

*The First National Bank of Boston, Trustee vs. Commissioner of Corporations and Taxation*

In this case the First National Bank acted as trustee under the will of a testatrix, who died a resident of Vermont, and claimed that the property involved had a situs in Vermont, being subject to the property tax there and that Massachusetts had no authority to tax. The Commissioner contended that the tax was on the beneficiary, who was a resident of Massachusetts and the tax properly assessed under G. L. Chapter 62, section 10. Decision for Commissioner.

*Thomas W. Ness vs. Commissioner of Corporations and Taxation*

This was a domicile case involving change of residence to Florida. Mr. Ness had formed the intention of taking up legal residence in Florida, but did not arrive in Florida until January of the following year. "Domicile of origin or domicile acquired remains until a new one is acquired" so that the Court held the new domicile did not become effective until actual arrival in the new place. Decision for Commissioner.

*Kendall F. Crocker vs. Commissioner of Corporations and Taxation*

In this case Crocker contended that in computing the cost of stocks acquired partly by purchase and partly by stock dividends, that a value should be given to the shares acquired by stock dividends. The Commissioner contended that the law was clear and that the actual cost should be divided over the number of shares

purchased and the number of shares acquired by stock dividend. Decision for Commissioner.

*Elizabeth C. Madden vs. Commissioner of Corporations and Taxation*

In this case Madden contended that in the acquisition of stock through the exercise of "rights" that to the actual cash subscription should be added the value of the "rights." The Court held that by turning over the cash, or its equivalent, for the par value of the stock to the corporation, accompanied by the surrender to the corporation of certain rights, is in substance and effect a purchase of the shares of stock from the corporation. Decision for Madden.

It seems apparent that this situation has been corrected by Chapter 435, Acts of 1931.

An interesting case was decided in the Supreme Court of the United States on May 16, 1932, known as the "Fox Film" case, wherein the "Rockwood" case was definitely overruled. This decision opened to taxation again the income received from patents and copyrights.

On November 30, 1932, seven cases were before the Supreme Judicial Court for decision.

There were twenty-nine appeals taken from the decision of the Commissioner to the Board of Tax Appeals. The Board of Tax Appeals has promulgated decisions in twenty-six cases, thirteen of these in favor of the Commissioner and eleven against the Commissioner; three cases have been withdrawn; and four cases have been appealed to the Supreme Judicial Court.

Four cases appealed have been decided; namely, Hornblower, First National Bank, Crocker and Madden. One case appealed was not perfected and, therefore, dismissed. There are now pending four cases before the Board.

TABLE FOURTEEN —

## DISTRIBUTION OF TAXES OF THE VARIOUS YEARS

The following table shows the Income Taxes assessed and collected for the years ending November 30th, as distributed to cities, towns and districts. On November 15, 1932, the sum of \$17,257,634.77 was distributed.

This table shows the accounting of the Division for the tax levies of the various years:

|   | 1923            | 1924            | 1925            | 1926            | 1927            | 1928            | 1929            | 1930            | 1931            | 1932            |
|---|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|
| Original assessments                    | \$13,911,363 42 | \$16,525,323 67 | \$16,623,119 99 | \$21,538,118 73 | \$20,724,898 37 | \$23,581,439 30 | \$28,406,169 55 | \$31,846,451 33 | \$22,517,177 46 | \$18,419,790 37 |

| Yarmouth . . . . .     | 7,510 00        | 3,045 00       | 10,555 00       |
| Totals . . . . .       | \$11,600,000 00 | \$5,657,634 77 | \$17,257,634 77 |

### DIVISION OF CORPORATIONS

The number of business and manufacturing corporations subject to taxation as of November 30, 1932, was, Domestic, 21,954; Foreign, 2,540.

The shrinkage in the excise tax yield attributable to economic conditions has continued as is more particularly set forth under the heading of "Statistics" whereby a detailed comparison is shown. As the shrinkage in the income measure is relatively greater than in the corporate excess measure and has reached a point not far from the limit set by complete annihilation of incomes, it seems likely that further shrinkage will be at a diminished rate.

### ASSESSMENT AND ABATEMENT

The following table gives the total number of original assessments made and total sums assessed during the fiscal year with respect to the business and manufacturing corporation taxes for the years indicated. "Regular" assessments mean those made upon returns filed. "Estimated" assessments mean such assessments as are based upon estimate in case the corporation has failed to file a return. "Accelerated" assessments are those laid previous to the normal due date by reason of the sale or transfer of corporate assets otherwise than in the ordinary course of business. This table does not include so-called "additional" taxes nor taxes resulting from Federal changes. (See post.)

ASSESSMENTS FOR FISCAL YEAR ENDING NOVEMBER 30, 1932

| Assessments                         | Number | Amount       |
|-------------------------------------|--------|--------------|
| 1930 Domestic Estimated . . . . .   | 18     | \$1,085 53   |
| 1930 Domestic Regular . . . . .     | 1      | 22 13        |
| 1931 Domestic Accelerated . . . . . | 1      | 9 83         |
| 1931 Domestic Estimated . . . . .   | 1,065  | 66,905 88    |
| 1931 Domestic Regular . . . . .     | 56     | 14,091 77    |
| 1932 Domestic Accelerated . . . . . | 901    | 72,259 62    |
| 1932 Domestic Estimated . . . . .   | 792    | 57,801 78    |
| 1932 Domestic Regular . . . . .     | 18,689 | 7,141,960 97 |
| 1933 Domestic Accelerated . . . . . | 334    | 9,445 23     |
| 1933 Domestic Estimated . . . . .   | 45     | 467 74       |
| 1934 Domestic Estimated . . . . .   | 13     | 105 78       |
| 1930 Foreign Estimated . . . . .    | 31     | 9,137 13     |
| 1930 Foreign Regular . . . . .      | 14     | 1,300 73     |
| 1931 Foreign Estimated . . . . .    | 98     | 15,357 65    |
| 1931 Foreign Regular . . . . .      | 30     | 12,934 03    |
| 1932 Foreign Accelerated . . . . .  | 168    | 34,845 06    |
| 1932 Foreign Estimated . . . . .    | 27     | 1,774 00     |
| 1932 Foreign Regular . . . . .      | 2,162  | 2,225,052 98 |
| 1933 Foreign Accelerated . . . . .  | 59     | 1,468 45     |
| 1933 Foreign Estimated . . . . .    | 1      | 15 00        |
| 1934 Foreign Accelerated . . . . .  | 2      | 1 34         |

The following shows the number of abatement claims for all years acted upon under the provisions of Section 51 of Chapter 63 of the General Laws, the disposition of the cases and the amounts abated during the fiscal year:

Number and Disposition of Claims

|   | Domestic Corporation Claims | Foreign Corporation Claims |
|---|-----------------------------|----------------------------|
| Number allowed, original tax . . . . .      | 1,155                       | 259                        |
| Number allowed, additional tax . . . . .    | 79                          | 14                         |
| Number disallowed, original tax . . . . .   | 161                         | 37                         |
| Number disallowed, additional tax . . . . . | 22                          | 3                          |
| Total number of cases . . . . .             | 1,417                       | 313                        |

Amounts Abated

|                               | Domestic Corporation Claims | Foreign Corporation Claims |
|-------------------------------|-----------------------------|----------------------------|
| Of original tax . . . . .     | \$497,127 06                | \$285,998 31               |
| Of penalty . . . . .          | 300 00                      | 45 00                      |
| Of additional tax . . . . .   | 35,429 77                   | 21,688 55                  |
| Total amount abated . . . . . | \$532,856 83                | \$307,731 86               |

During the fiscal year the following abatements have, with the approval of the Attorney General, been made in accordance with the provisions of Section 27, Chapter 58, of the General Laws:

*Number and Disposition of Claims*

|   | Domestic<br>Corporation<br>Claims | Foreign<br>Corporation<br>Claims |
|---|-----------------------------------|----------------------------------|
| Number allowed, original tax . . . . .      | 194                               | 41                               |
| Number allowed, additional tax . . . . .    | 9                                 | 2                                |
| Number disallowed, original tax . . . . .   | 85                                | 15                               |
| Number disallowed, additional tax . . . . . | —                                 | —                                |
| Total number of cases . . . . .             | <u>288</u>                        | <u>58</u>                        |

*Amounts Abated*

|                               | Domestic<br>Corporation<br>Claims | Foreign<br>Corporation<br>Claims |
|-------------------------------|-----------------------------------|----------------------------------|
| Of original tax . . . . .     | \$63,581 90                       | \$52,068 22                      |
| Of additional tax . . . . .   | <u>1,334 69</u>                   | <u>191 49</u>                    |
| Total amount abated . . . . . | <u>\$64,916 59</u>                | <u>\$52,259 71</u>               |

## DELINQUENTS

The amount of taxes assessed delinquent corporations after deducting abatements, in those cases where returns were subsequently filed during the fiscal year ending November 30, 1932, was:

|   |                 |                    |
|---|-----------------|--------------------|
| Domestic corporations (§ 51, c. 63) . . . . . | \$3,481 86      |                    |
| Domestic corporations (§ 27, c. 58) . . . . . | <u>5,672 29</u> | \$9,154 15         |
| Foreign corporations (§ 51, c. 63) . . . . .  | \$6,716 59      |                    |
| Foreign corporations (§ 27, c. 58) . . . . .  | <u>309 43</u>   | <u>7,026 02</u>    |
|   |                 | <u>\$16,180 17</u> |

## AUDIT

The results of the annual work of verification and audit with respect to taxes for the years 1925 to 1930, inclusive, are as indicated below:

|                                  | <i>November 30, 1932</i> |                     |                     |
|----------------------------------|--------------------------|---------------------|---------------------|
|                                  | <i>1925</i>              | <i>1926</i>         | <i>1927</i>         |
| Additional assessments . . . . . | \$400,598 69             | \$345,928 83        | \$369,886 42        |
| Abatements . . . . .             | <u>144,775 93</u>        | <u>68,032 35</u>    | <u>67,052 46</u>    |
| Net gain . . . . .               | <u>\$255,822 76</u>      | <u>\$277,896 48</u> | <u>\$302,833 96</u> |
|                                  | <i>1928</i>              | <i>1929</i>         | <i>1930</i>         |
| Additional assessments . . . . . | \$375,777 49             | \$325,070 56        | \$367,034 18        |
| Abatements . . . . .             | <u>90,175 43</u>         | <u>77,144 22</u>    | <u>29,374 55</u>    |
| Net gain . . . . .               | <u>\$285,602 06</u>      | <u>\$247,926 34</u> | <u>\$337,659 63</u> |

## CHANGES IN FEDERAL NET INCOME

During the fiscal year additional taxes amounting to \$224,829.53 were assessed by reason of changes in net income as determined by the federal government and \$226,762.58 was certified for refund because of such determinations. As a result there was a net loss in taxes for the year in the amount of \$1,933.05. The "gain" or "loss" for each year is shown in the following table. A "loss" indicates an excess of refunds over assessments and a "gain" indicates an excess of assessments over refunds.

|                     |   |   |   |   |   |   |   |         |    |      |
|---------------------|---|---|---|---|---|---|---|---------|----|------|
| 1918 additional tax | . | . | . | . | . | . | . | \$5,977 | 37 | loss |
| 1919 war bonus tax  | . | . | . | . | . | . | . | 64,284  | 88 | gain |
| 1920 excise         | . | . | . | . | . | . | . | 78,065  | 93 | loss |
| 1920 special tax    | . | . | . | . | . | . | . | 29,937  | 67 | "    |
| 1921 excise         | . | . | . | . | . | . | . | 8,639   | 29 | "    |
| 1921 extra tax      | . | . | . | . | . | . | . | 4,777   | 37 | "    |
| 1922 excise         | . | . | . | . | . | . | . | 43,056  | 39 | gain |
| 1923 excise         | . | . | . | . | . | . | . | 4,354   | 15 | loss |
| 1924 excise         | . | . | . | . | . | . | . | 18,421  | 20 | gain |
| 1925 excise         | . | . | . | . | . | . | . | 396     | 88 | loss |

## LITIGATION

In the case of *J. G. McCrory Company v. Commissioner of Corporations and Taxation* the Supreme Judicial Court of Massachusetts sustained the findings of the Board of Tax Appeals upon a record which presented a part only of the evidence before the Board, the Court holding that there might have been other evidence upon which the Board would have been justified in finding that the J. G. McCrory Company, although admittedly a subsidiary of another corporation, disclosed its true earnings in its tax return and had sustained the burden of proving that no part of its indebtedness was incurred to reduce taxes. The Court held that while the burden is on the corporation to satisfy the Commissioner that no part of its indebtedness was incurred to reduce taxes, the decision of the Commissioner is subject to review as to its reasonableness by the Board of Tax Appeals. The Court found it unnecessary to pass upon the question as to whether if a corporation is undercapitalized with a general view to constantly recurring indebtedness which would tend to reduce taxes, such indebtedness may be disregarded by the Commissioner under the provisions of Section 31 of Chapter 63 of the General Laws. Although the Court sees no analogy "in facts or in governing statutes" between the instant case and the case of *Palmolive Co. v. Conway*, 43 Fed. Rep. (2d) 226, affirmed in 56 Fed. Rep. (2d) 83, by the United States Supreme Court, October 10, 1932, it is believed that the dictum in the McCrory case is in direct conflict with principles enunciated in the *Palmolive* case. In the *Palmolive* case, the Wisconsin statute authorized the Tax Commission to tax a subsidiary corporation on its true earnings but was silent as to how the Commission should estimate the true earnings if it believed them to differ from the net income reported. The Commission in fact estimated them by applying the allocating factors adopted by the Wisconsin statute for allocation of the income of a single corporation within and without the State to the consolidated income of the subsidiary and the parent corporation. In this it was sustained by the federal courts. In the McCrory case the Commissioner applied the allocating factors of the Massachusetts statute to the consolidated income of the subsidiary and the parent corporation to estimate the true earnings of the subsidiary. The Massachusetts Court says that there was no justification in the Massachusetts statute for adopting this method, in spite of the fact that later in the opinion the Court finds it unnecessary to consider the "elaborate argument" of the Commissioner wherein it was contended that "net income" as used in General Laws, Chapter 63, Section 32, means "true earnings." It seems clear that if this contention is sound, the Massachusetts statute and the Wisconsin statute are not distinguishable, neither one expressly authorizing the application of allocating factors to the consolidated net income to estimate the true income of the subsidiary. It would also seem clear that when this analogy is discerned and recognized, the Massachusetts Court must either disregard its dictum in the McCrory case or frankly refuse to adopt the principle established by the federal courts in the *Palmolive* case. (See Chapter 303, Acts of 1933.)

\* Net Loss.

## DIVISION OF INHERITANCE TAXES

Following is a statement of the amount of inheritance taxes paid to Massachusetts during each fiscal year since the present law became effective:

|                |              |                |                |
|----------------|--------------|----------------|----------------|
| 1908 . . . . . | \$357,529 46 | 1921 . . . . . | \$7,322,947 10 |
| 1909 . . . . . | 908,134 42   | 1922 . . . . . | 6,805,977 44   |
| 1910 . . . . . | 1,467,697 10 | 1923 . . . . . | 6,158,924 99   |
| 1911 . . . . . | 2,029,225 13 | 1924 . . . . . | 6,489,173 41   |
| 1912 . . . . . | 2,154,406 85 | 1925 . . . . . | 5,920,307 41   |
| 1913 . . . . . | 2,832,674 12 | 1926 . . . . . | 6,511,302 84   |
| 1914 . . . . . | 2,277,382 19 | 1927 . . . . . | 10,751,882 63  |
| 1915 . . . . . | 3,204,177 32 | 1928 . . . . . | 10,337,738 99  |
| 1916 . . . . . | 4,223,843 35 | 1929 . . . . . | 12,082,348 57  |
| 1917 . . . . . | 3,900,247 10 | 1930 . . . . . | 14,337,250 92  |
| 1918 . . . . . | 5,841,204 68 | 1931 . . . . . | 11,688,657 25  |
| 1919 . . . . . | 5,002,697 13 | 1932 . . . . . | 10,970,740 81  |
| 1920 . . . . . | 4,607,663 00 |                |                |

The net amount collected in 1932 is somewhat over 6 per cent less than the collection in 1931 but is much more than the amount estimated at the beginning of

the year. It was anticipated that, owing to the greatly decreased value of all property, both personal and real, the loss of revenue would be greatly diminished. That the decrease is much less than expected is because a few large estates that were in process of settlement last year yielded a much larger estate tax than was expected. As there are no longer any large estates and all values are less than last year, the prospect for 1933 is that the inheritance and estate tax will be much less than in 1932. The expense of administration in the current year was approximately one half of one per cent of the amount collected. In the collections for 1932, there is included \$2,808,174.95 estate taxes, under Chapter 65A, General Laws. The total collections from this source since this act was passed in 1926 are \$9,945,-328.90. This chapter was enacted in consequence of the provision of the Federal Revenue Act of 1926 (re-enacted in 1928) that inheritance, transfer and estate taxes paid to the several states may be credited on account of the Federal Estate Tax to an amount not in excess of 80 per cent of the Federal Estate Tax. As it appeared that in some of the larger estates the sum of all the state taxes would be less than 80 per cent of the Federal Estate Tax, it was clear the Massachusetts tax, in such cases, could be increased, without adding to the gross amount of death taxes payable by the estates. This increase was effected by the Act above cited, which provides that estates of all resident decedents shall pay to Massachusetts a tax equal to the amount by which 80 per cent of the Federal Estate Tax exceeds the sum of all state taxes. If this chapter had not been enacted, the estates which paid a Massachusetts estate tax would have paid the same amount to the United States in addition to the Federal Estate Tax they have actually paid. This act applies only to the estates of persons dying after February 26, 1926, and is effective for such time as the Federal Estate Law allows this credit. A perfecting amendment providing for refunds was added in 1930 by Chapter 301.

#### 1933 LEGISLATION

Chapter 293, Acts of 1933, Increasing the Rates of Legacy and Succession Taxes in certain instances.

Chapter 316, Acts of 1933, Relating to Estate Taxes in the Case of Persons dying while Residents of Foreign Countries.

Chapter 319, Acts of 1933, Providing Reciprocal Relations in Respect to Death Taxes upon Estates of Non-Resident Decedents.

The Federal Revenue Act of 1932, providing for an additional Estate Tax will reduce the net value of estates and consequently the Massachusetts inheritance tax will be decreased because of the provisions of this act. It is probable that refunds of Massachusetts Estate Taxes already collected will have to be made in 1933, under the provisions of Chapter 65A, owing to refunds that may be made under the Federal Revenue Act.

Some additional revenue will be realized from the estates of non-resident decedents who have died subsequent to June 5, 1932, owing to the provisions of Chapter 284 of 1932, which makes the estates of non-resident decedents subject to a Massachusetts Estate Tax. In estates of non-resident decedents owning a large amount of real estate or tangible personal property in Massachusetts, the estate tax payable to Massachusetts, under the provisions of this act, will be a welcome addition to the Estate Tax revenue.

Of the amount collected in 1932, \$68,645.25 was derived from estates of non-resident decedents. While stock of Massachusetts corporations owned by non-residents who died prior to December 1, 1926, was generally subject to an inheritance tax in this Commonwealth, the Massachusetts law always contained a reciprocal provision. The inheritance tax law was amended by Chapter 156 of the Acts of 1927, which exempts from inheritance taxes in Massachusetts intangible personal property of all non-residents dying on or after December 1, 1926. Under the law now in effect, General Laws, Section 1, Chapter 65, as amended by Chapter 292, Acts of 1929, the only property of non-residents dying subsequent to December 1, 1928, subject to an inheritance tax, is real estate and tangible personal property having a situs within the Commonwealth. As real estate and tangible personal property may be taxed only by the jurisdiction in which the real estate is located or in which the tangible personal property has its situs, this provision of our statute does not in any case result in double taxation. As Massachusetts does not tax

intangible personal property of non-residents under any circumstances, the Commonwealth stands in the position of a reciprocal state in relation to every other state which has enacted a reciprocity statute. The Commissioner was instrumental in the movement for reciprocal legislation and worked with those from other jurisdictions on a committee of the National Tax Association that has very successfully accomplished nearly its full objective. At the present time thirty-seven states and seven provinces of Canada and the Yukon territory are fully reciprocal with Massachusetts in regard to the taxation of intangible property of non-resident decedents. Very little property of the estates of Massachusetts decedents, therefore, is now subject to more than one State inheritance or transfer tax.

Chapter 156 of the Acts of 1927, which exempts from inheritance tax in Massachusetts all intangible property owned by non-resident decedents dying on or after December 1, 1926, repealed General Laws, Chapter 65, Section 8, which imposed certain restrictions upon the transfer of stock of Massachusetts corporations owned by deceased non-residents. Massachusetts corporations may, therefore, transfer without waivers shares of their stock owned by non-resident decedents who have died on or since December 1, 1926. In the interest of all concerned, it is the desire of the Commissioner of Corporations and Taxation that transfers may be made without waivers in all such cases. It is not necessary that evidence of the date of death should be submitted to the corporations in any particular form but, before such transfers are made the corporations should have reliable information that the death occurred on or after December 1, 1926.

During the past year taxes amounting to \$12,158.38 have been assessed in 8 estates under the provisions of the so-called "collateral inheritance tax law" which was in effect from July 11, 1891, until June 27, 1907, and was applicable to the estates of persons who died between those dates, and which has been administered by this Division since January 1, 1923. For many years taxes will, from time to time, become payable under this law upon the termination of trusts and the distribution of property under the wills of persons who died while the law was in effect.

During the year 1932 there were received from the probate courts, and from executors and administrators, wills, inventories and other papers relating to 6,213 estates. A representative of the Commissioner has, at frequent intervals, visited the registry of probate in each county of the State, and upon examination of inventories and other papers there on file has excused the register from sending to this Division copies of his records in estates in which it has appeared that no tax will be payable to Massachusetts. The number of estates from the filing of which the registers were thus excused has, in the past year, aggregated 10,140. It thus appears that during the past year Massachusetts has dealt with 16,353 new estates, about the same number handled by the Department in 1931. The total number of cases examined by a representative of the Commissioner during the past year is 41,055, including incomplete cases. It will be seen that the number of cases examined by this Division was about 24,000 in excess of the number of papers received from the probate court and the number from which the courts have been excused from mailing to this Division. This latter number represents cases pending in the probate court which were not completed during the year 1932, and includes all unfinished cases since the present law took effect September 1, 1907. A representative of the Commissioner has examined in the registries of deeds in Massachusetts during the past year, 1,222 deeds of trust. It appears that at some future time Massachusetts will receive inheritance taxes from some of this number and records have been made which will enable the Commissioner to certify and collect such taxes when due. Owing to the increased amount of work in the office it has been impossible to make an examination of all the trust deeds filed during 1929, 1930, 1931 and 1932, but an examination will be made when an adequate force is provided and it will probably appear that many of the deeds now on file and not yet examined will later yield a substantial inheritance tax to Massachusetts.

The total amount of tax assessed and certified in 1932 was \$11,226,801.38. The reason why the amount of tax assessed does not correspond with the amount collected is that the date upon which a tax becomes due or is paid does not always fall in the same fiscal year in which the tax is assessed. In many other estates, upon request, partial assessments of the tax have been made. As it is impossible

to give any complete summary of such cases the following analysis deals only with cases that have been completed during the year.

## ANALYSIS OF COMPLETED CASES

Number of cases completed in the year 1932:

|  |                        |
|--|------------------------|
| Massachusetts decedents . . . . .                                | 3,758                  |
| Foreign decedents . . . . .                                      | 64                     |
| Total . . . . .  | <u>3,822</u>           |
| Net property of 3,822 estates . . . . .                          | \$205,343,535 59       |
| Property of 3,822 estates actually taxed . . . . .               | 184,526,531 45         |
| Property of 3,822 estates exempted:                              |                        |
| Charities, etc. . . . .  | \$10,648,350 46        |
| Other exemptions . . . . .                                       | 10,168,653 68          |
| Total Exemptions . . . . .                                       | <u>\$20,817,004 14</u> |
| Total tax assessed on \$184,526,531.45 contained in 3,822 cases: |                        |
| Massachusetts decedents . . . . .                                | \$7,016,763 32         |
| Foreign decedents . . . . .                                      | 68,645 28              |
|  | <u>\$7,085,408 60</u>  |

The discrepancy between \$7,085,408.60 which is the total tax assessed on 3,822 finished cases, and \$11,226,801.38 reported as the total amount of tax assessed and certified in 1932 is due to the fact that whereas taxes in an estate may be certified on account over a period of several years, the tax in such estate may not be certified in full until a distant date, when it is then shown in the compilation of completed cases.

The amounts and proportions of this tax assessed at the various rates are:

|                |   |
|----------------|---|
| At 1 per cent  | \$392,155.70 = 5.58 per cent of whole tax.  |
| At 1½ per cent | 17.32 = 0.00 per cent of whole tax.         |
| At 2 per cent  | 272,336.74 = 3.87 per cent of whole tax.    |
| At 3 per cent  | 523,597.62 = 7.45 per cent of whole tax.    |
| At 4 per cent  | 1,223,606.13 = 17.40 per cent of whole tax. |
| At 5 per cent  | 1,396,405.43 = 19.86 per cent of whole tax. |
| At 5½ per cent | 375,551.45 = 5.34 per cent of whole tax.    |
| At 6 per cent  | 309,973.28 = 4.41 per cent of whole tax.    |
| At 7 per cent  | 753,791.65 = 10.72 per cent of whole tax.   |
| At 8 per cent  | 593,369.02 = 8.44 per cent of whole tax.    |
| At 9 per cent  | 275,574.26 = 3.92 per cent of whole tax.    |
| At 10 per cent | 104,306.88 = 1.48 per cent of whole tax.    |
| At 11 per cent | 35,732.19 = .51 per cent of whole tax.      |
| At 12 per cent | none = — per cent of whole tax.             |
| "Settlements"  | 775,205.37 = 11.02 per cent of whole tax.   |

|                 |                |
|-----------------|----------------|
| Total . . . . . | \$7,031,623 04 |
|-----------------|----------------|

25 per cent additional:

|  |                       |
|--|-----------------------|
| General Acts of 1918, Chapter 191 . . . . .            | 54,052 81             |
| General Acts of 1919, Chapter 342, Section 4 . . . . . | 511 26                |
| Total . . . . .  | <u>\$7,086,187 11</u> |
| Foreign taxes deducted . . . . .                       | 778 51                |
| Net tax . . . . .                                      | <u>\$7,085,408 60</u> |

Average rate, .0384

The proportions of property taxed at the various rates are:

|                 |           |           |                |
|-----------------|-----------|-----------|----------------|
| \$39,215,570 00 | at 1      | per cent= | 21.25 per cent |
| 1,154 66        | at 1½     | per cent= | 0.00 per cent  |
| 13,414,837 00   | at 2      | per cent= | 7.27 per cent  |
| 17,453,254 00   | at 3      | per cent= | 9.46 per cent  |
| 30,590,153 25   | at 4      | per cent= | 16.58 per cent |
| 27,928,108 60   | at 5      | per cent= | 15.14 per cent |
| 6,828,208 18    | at 5½     | per cent= | 3.70 per cent  |
| 5,166,221 33    | at 6      | per cent= | 2.79 per cent  |
| 10,768,452 14   | at 7      | per cent= | 5.83 per cent  |
| 7,417,112 75    | at 8      | per cent= | 4.02 per cent  |
| 3,061,936 22    | at 9      | per cent= | 1.66 per cent  |
| 1,043,068 80    | at 10     | per cent= | .57 per cent   |
| 324,756 27      | at 11     | per cent= | .17 per cent   |
| none            | at 12     | per cent= | - per cent     |
| 21,313,698 25   | "settled" | =         | 11.56 per cent |

---

\$184,526,531 45 (total property taxed)= 100.00 per cent

The items in the preceding tables indicating that certain taxes were "settled" rather than computed at definite rates, refer to settlements made under the provisions of law by which the Commissioner of Corporations and Taxation, with the approval of the Attorney General, is authorized to settle by agreement the tax upon present or future beneficial interests which are so involved in uncertainties and contingencies that the value of the interest to the beneficiary cannot be accurately determined.

During the year 6,538 estates have been appraised by the Appraisal Section, and the total valuation put upon the same is \$362,916,330.48 as compared with a total valuation of \$351,145,829.19 as returned by the estates. This is an increase of 3.35 per cent of the values returned by the estates and this could have been considerably increased if a sufficient force were available so as to get actual values by close inspection of property passing. Lack of facilities to get full value costs the State many times the additional expense necessary for a force sufficient to properly do this class of work.

Under the provisions of Chapter 416 of the Acts of 1930 an executor, administrator or trustee who is aggrieved by the valuation of an estate or trust as determined by the Commissioner of Corporations and Taxation may appeal therefrom to the Board of Tax Appeals, instead of to the Probate Court as provided prior to the enactment of this Chapter. Since this act became effective only two appeals have been made to the Board. In the first case, *Harold T. Davis, Admr. vs. Commissioner of Corporations and Taxation*, the Board sustained the valuation as determined by the Commissioner of Corporations and Taxation, its decree was accepted by the Probate Court and on appeal to the Supreme Court the decree was affirmed. In the second case the Board found for the appellant and it is now before the Probate Court.

The efficient administration of the Division of Inheritance Taxes, as stated in the reports of the Commissioner for many years past, is impossible, owing to the lack of needed office space and a sufficient force of competent clerks. There are twenty-nine employees in the Division, crowded into two small rooms in which there are of necessity many filing cabinets, and in which all business with the public is transacted.

Owing to the limited working space, bad air and noise, there is much loss of time on account of sickness and those who have business with the Division are often obliged to wait in the corridors until they can find a vacant seat inside. These conditions should be remedied at once so that all possible attention can be given by the office force to the prompt assessing of the taxes, payment of which is now so urgently needed to provide necessary revenue.

## DIVISION OF LOCAL TAXATION

In the general supervision of the assessment and collection of over two hundred million dollars in taxes in the three hundred and fifty-five cities and towns there is a responsibility that is not often realized by the vast body of our taxpayers. In the more than fourteen hundred assessors and collectors of taxes there is of course a wide diversity of temperaments, many being well educated and many who have little education other than that acquired by hard knocks and their own exertions. To properly advise and instruct such a large number of officials requires infinite courage, patience and tact. The four Supervisors, who are in the field practically all the time and constantly in touch with these officials deserve the greatest credit for their exertions. It is largely due to them that the spirit of cooperation is so manifest between the local taxing officials and the Department. As time goes on more and more aid is sought from the personnel of the Division. This situation was rather graphically illustrated during the year when more than sixty per cent of the boards of assessors sought and received, by personal visits, assistance in determining their 1932 tax rates.

The problem of aiding in adjustment of differences between the local taxing officials and taxpayers was never more important than during the year just passed and nobly did the Supervisors and office assistants rise to the occasion. It is safe to say that never before has the Department been held in higher esteem than at present.

During the year there were 2,697 visits by taxpayers to the office seeking information and advice in regard to their tax problems. In the same period there were 1,686 visits to the office by assessors, collectors, selectmen, mayors and other city and town officials, all for the same purpose, namely, seeking advice relative to local taxation problems and information relative to the practical application of the tax laws. These facts indicate that a real and necessary service is being rendered to our taxpaying citizens.

During the year there were received by the Division 11,171 letters from taxing officials and taxpayers seeking information and advice regarding their tax troubles, very many of these letters coming from other states. In the same period 38,622 letters of advice, instruction and information were sent to assessors, collectors, city auditors, town accountants and to other municipal officers, a great many of them having written the Department expressing their gratification and appreciation for the information.

The net result of all this is a more accurate and uniform method of handling the tax situation, with constant improvement being evidenced in the offices of boards of assessors and collectors of taxes.

The many and very important changes in the tax laws have been the cause of much increased activity on the part of the taxpayers and the taxing officials in seeking information relating thereto.

The reports of the Supervisors show again a marked increase in requests for special visits in order to assist in solving some difficult tax problem. Telephone calls have shown a marked increase and on many occasions in the office the entire time has of a necessity been devoted to answering such calls and giving advice and information by telephone almost to the exclusion of all other work.

Industrial conditions have not improved noticeably during the year and values relative to manufacturing and mercantile establishments particularly have required constant attention and special consideration in the matter of adjustment in the effort to deal justly with the taxpayer and the community. These situations have called for almost endless conferences not only in the offices of the Department but also in the local communities. This is a most important problem which of course has not yet been fully solved, although in the majority of cases satisfactory results have been obtained.

The motor vehicle excise law has passed through another year without change. This seems to indicate that on the whole it is quite satisfactory and is as fair a method of taxing this kind of property as can be devised. The chief fault, and it is a serious one, is the vast number of motor car registrants who can never be found, thus necessitating abatements by the authority of the Commissioner. During the year there were sent by mail to the various boards of assessors 771,346 tax cards, representing that many registered motor vehicles subject to the excise, and in

addition there were sent by express or delivered personally about 25,000 cards. The total number of motor vehicles registered for the year was 924,095. The difference between this number and the number of cards sent out is a fair representation of the number of motor vehicles not subject to the excise. A book of values of motor vehicles compiled under the provisions of Chapter 60A of the General Laws (Ter. Ed.) was mailed to each board of assessors prior to January 1, and contained the same tables and other information similar to that supplied in previous years.

In connection with the motor vehicle excise tax it is the duty of the Division to prepare authorizations for the abatement of uncollectible excise taxes upon the request of the various collectors of taxes.

The year 1932 was the second one for the imposition of the Old Age Assistance Tax. The Division receives the notices from the municipalities of the number of persons assessed, certifying the same to the State Treasurer and the Comptroller, and also upon certification by the assessors and collectors of amounts overassessed together with the amounts which appear to be uncollectible credit is obtained by this Department from the treasury of the Commonwealth for the respective cities and towns.

The following items constitute a very large and important part of the work of this Division writing:

- Authorizations to use available funds to reduce the amount necessary to be raised by taxation.

- Authorizations to refund uncollectible Old Age Assistance Taxes.

- Authorizations to abate uncollectible excise taxes.

- Authorizations to abate taxes on lands of too small a value to warrant tax sale proceedings.

- Authorizations to abate or adjust taxes on properties that have been taken over by certain banks in order that the cities and towns may receive cash for their necessary uses at once.

- Certifications of assessments of Special State Tax for Old Age Assistance Tax.

#### REIMBURSEMENT OF CITIES AND TOWNS ON ACCOUNT OF TAXES LOST ON LAND HELD FOR STATE INSTITUTIONS, ETC.

Under the provisions of Section 16 of Chapter 58 of the General Laws, the Commissioner, on August 1, 1931, certified to the Treasurer and Receiver-General that the value of land in cities and towns held for public institutions, fish hatcheries, game reservations, State forests and for the military camp ground at Framingham, was \$3,928,271. The amount reimbursed to cities and towns in lieu of taxes upon this valuation, at the State rate of \$29.25 per thousand, was \$114,760.33. The following table shows the detail of reimbursement:

TABLE SEVENTEEN —

| City or Town               | Valuation of Land | Amount of Reimbursement | City or Town               | Valuation of Land | Amount of Reimbursement |
|----------------------------|-------------------|-------------------------|----------------------------|-------------------|-------------------------|
| Acton . . . . .            | \$15,900          | \$475 73                | Nahant . . . . .           | \$1,000           | \$29 92                 |

## ADJUSTMENT OF VETERANS' EXEMPTIONS BETWEEN THE CITIES AND TOWNS

Under the provisions of Section 85 of Chapter 59 of the General Laws, assessors of every city and town must make a return to the Commissioner of Corporations and Taxation of the value of property exempted from taxation under the provisions of clauses 22 and 23 of Section 5 of said Chapter 59, as amended, together with the amount of taxes which would have been assessed on such property but for said exemption. The Commissioner must determine from the returns or otherwise the total amount so exempted, and apportion one-third of such taxes as a charge upon the cities and towns, according to the basis determined by him for the apportionment of the State tax. He must also credit to each city and town one-third of the amount of taxes exempted. On the ninth day of November notice of the charge or credit was sent to the assessors of each city and town, and since no appeals were taken within the statutory ten days the amounts were certified to the Treasurer and Receiver-General (see Sections 11 and 12, Chapter 58, General Laws as amended). The total amount of taxes lost on account of the exemption was \$116,806.77, one-third of which was adjusted between cities and towns under the provisions of said sections.

The following tables give some indication of the work of the Division, and a few of the salient facts as to local assessment. Part I of Public Document No. 19 gives full details of assessed values and taxes as laid in the original assessment of each year throughout the Commonwealth. Part II of the same document gives the same information in regard to assessments laid in December pursuant to the provisions of Section 75 of Chapter 59 of the General Laws.

## DIVISION OF ACCOUNTS

The work of this division, consisting of the auditing of city, town and county accounts together with the certification of city and town notes, is more fully described in Public Document No. 79. This publication is of necessity many months later than this report for the reason that many of the city financial years do not end at the same time that the town year ends, which is December 31. Because of the necessity of getting accurate and complete figures by way of tabulation, correct amounts for inclusion in the report must be delayed until Public Document No. 79 is ready for printing. Information as to the number of audits made during the year and information of that character is more completely carried in the report of this division, "Statistics of Municipal Finances." In addition to this publication, information in respect to counties will be found in Public Document No. 29 and in the estimate of county receipts and expenditures filed each year with the Legislature which goes under a legislative document number.

The amount of work done by the division in respect to audits and certification of town notes and other activities is dealt with under the heading "Statistical" in the introductory text of this report.

## FINANCIAL STATUS OF THE MUNICIPALITIES

*Revenue and Expenses*

See P.D. 79 at tables on pages x-xiii which show excess or deficiency of revenue for current charges and current charges against revenue, prepared from returns which are based upon cash receipts and disbursements, and, under normal conditions, the figures from such returns, if considered for a series of years, give a true picture of the method of financing the activities of the municipality. Present conditions are mainly responsible for the increase in the amount of uncollected taxes in many of our cities and towns, and if the year 1930 only is considered false conclusions might be drawn.

Revenue received from the various sources is proportionately the same for each class as for the preceding year, the amount received for current charges being \$12,693,240 in excess of the amount received the previous year. Of this amount, \$10,558,659 was received from taxes. All other sources, producing more than two per cent of the total revenue received, show increases over the preceding year.

Current charges against revenue show an increase over the preceding year of \$12,818,227, approximately the same increase as is shown in revenue for current charges. Expenditures show an increase in every function with the exception of highways and interest. General government shows an increase of 6.86 per cent, but this is due to some very definite increases in certain municipalities and not to a uniform increase in all the cities and towns. The report for the previous year showed a decrease in the cost of general government over the preceding year. Highway expenses show a decrease over the preceding year, probably due to the fact that more and better roads are being constructed, the actual and necessary cost of upkeep thereby being reduced. The decrease in interest payments is due almost entirely to the rates charged for temporary loans. Although the amount of temporary debt increased, the cost was less owing to the extremely low interest rates charged.

Expenditures for charities show a material increase, due to the increased expenditures for public welfare, but this increase is spread very generally throughout all the municipalities; the same is true of expenditures for soldiers' benefits. The increase in recreation expenditures is due largely to the Tercentennial celebration. Unclassified expenditures increased, the increase being due chiefly to losses on account of bank failures, to refunds of taxes paid under protest and abated and refunded as a result of a court order, to establishing municipal airports, and to municipal advertising.

The increase in expenditures for outlays over the preceding year was \$8,811,973. A considerable amount of this expenditure was from revenue, since the statute provides that no borrowing can be made for any of the purposes specified in Section 7, Chapter 44, General Laws, until a sum equal to twenty-five cents on each one thousand dollars of assessed valuation of the preceding year has been voted to be taken from available funds, or to be raised by taxation for the purposes set forth in the clause under which borrowing is to be made. In many instances, the entire cost of the outlay is taken from revenue. The total expenditure for outlays as shown in the table was \$21,516,083 in excess of the funded debt issued during the year.

A comparison of revenue for current charges and current charges against revenue for the years 1929 and 1930 for all the cities and towns, together with the percentage each class of receipt bears to the total receipts and the cost of each function of government as compared with total expenditures, also a comparison of the expenditures for outlays for the years 1929 and 1930 will be found in the following tables:

## THE DEBT BURDEN

The net funded or fixed debt of all municipalities at the close of the year 1930 was \$301,710,107, an increase over 1929 of \$17,578,305, or 6.2 per cent. The assessed valuation of taxable property increased during this period \$74,126,826, or one per cent. The total net funded or fixed debt January 1, 1932, was \$316,384,599, an increase of \$12,658,867 over January 1, 1931, or 4.2 per cent. For the cities, the net funded debt was \$261,608,916, an increase of \$10,660,074, or 4.2 per cent; for towns over 5,000 population it was \$42,044,794, an increase of \$301,457, or 0.7 per cent, and for towns under 5,000 population \$12,730,889, an increase of \$1,697,336, or 15.4 per cent. The large increase in debt in the small towns is accounted for chiefly in two towns which established water supply systems and one town which improved its water supply system for which loans aggregating \$1,148,000 were issued.

In addition to the above, there were loans in anticipation of revenue outstanding on January 1, 1932, aggregating \$41,369,247, but to meet this indebtedness there were uncollected taxes amounting to \$67,278,060. This temporary debt, with uncollected taxes as an offsetting asset, should not be considered with the net funded or fixed debt. The statute fixing October 15 as the date for payment of taxes, which are assessed as of April 1, makes necessary large temporary borrowings, most of the loans running for a few months and none for more than 12 months.

The initial contribution from revenue as a condition precedent to borrowing has been responsible for meeting a portion of the annually recurring charges for so-called permanent improvements, and it has definitely held in check the borrowing in many of the municipalities. It has also preserved a relatively low ratio of debt to assessed valuation as compared with other states. However, the debt is increasing proportionately faster than the assessed valuation, the valuation increasing 41.3 per cent and the debt 58.0 per cent since 1920. Only for the years 1925, 1923, and 1929 did the percentage of valuation increase at a greater rate than the debt. The shrinkage in the value of real estate, especially mill property, will undoubtedly place an additional burden on the home owner.

Improvements financed by loans ultimately cost from 10 to 60 per cent more than those paid from current revenue, and where large borrowings are made tax rates will show an upward trend. For many years attention has been directed to the debt burden, and admitting that what were considered luxuries in the past are considered necessities today, this theory, when brought into practice in municipal administration by unreasonably burdening private property for public improvements, is operating as a great hardship at the present time. Our recommendations, even when followed, have not prevented embarrassment to some of the cities and towns, but have, I believe, prevented a much worse condition that otherwise would exist.

## THE CERTIFICATION OF TOWN AND DISTRICT NOTES

This branch of the work continues to increase, the data collected for use in connection with the certification of notes being utilized more and more by the

investors in municipal securities. Detailed information on the debt, showing the authority under which loans are issued, the period of the loans, maturities, and the borrowing capacity, is in constant demand.

The number of notes certified and the amount of loans represented by them since the town note act took effect on January 1, 1911, are shown in the following table:

TABLE THIRTY—

<sup>1</sup> To June 1, 1932.

## THE AUDITING OF ACCOUNTS AND THE INSTALLATION OF ACCOUNTING SYSTEMS

During the past year, systems have been installed in four cities and towns. In addition, 202 audits and three special investigations have been made and assistance rendered in six other cities and towns. Systems have now been installed in 209 cities, towns and districts.

In carrying on this work, our examiners are expected to locate errors and discrepancies that may have been made, and, in addition, to assist the various officials in the preparation of statements regarding the finances, and to advise them as to procedure in carrying out the laws relative to municipalities.

The general advisory work is, in my opinion, especially valuable in view of the yearly changes in officials, the great increase in municipal activities, the general demand for more complete information as to the cost of carrying on the several municipal activities, and for a statement that shows the true financial condition of the municipality. The audit reports endeavor to make a report on the general work of the several departments and in particular on the methods of accounting or financing and on the financial condition.

The force of auditors, after years of training, are able to do more and better work, and, while we are unable to cause audits to be made as frequently as contemplated by the statutes, owing to the great demand for annual audits, no increase in the force is contemplated at this time.

TABLE H — AGGREGATE MUNICIPAL INDEBTEDNESS — COMPARISONS FOR 1910,  
1928, 1929 and 1930  
*All Municipalities*

| CLASSIFICATION                             | 1910          | 1928          | 1929          | 1930          |
|--|---------------|---------------|---------------|---------------|

GOV DOG  
COLL

The Commonwealth of Massachusetts

# ANNUAL REPORT

OF THE

## Commissioner of Corporations and Taxation

FOR THE

YEAR ENDING NOVEMBER 30, 1933

HENRY F. LONG

COMMISSIONER OF CORPORATIONS  
AND TAXATION

# The Commonwealth of Massachusetts

DEPARTMENT OF CORPORATIONS AND TAXATION,  
HENRY F. LONG, *Commissioner of Corporations and Taxation*,  
STATE HOUSE, BOSTON, January 31, 1934.

*To the Honorable Senate and House of Representatives.*

In compliance with the provisions of Section 29 of Chapter 58 of the General Laws, I am herewith making my annual report for the year ending November 30, 1933, for the Department of Corporations and Taxation. The report follows the provisions of Chapter 14 of the General Laws which divides the Department, in addition to the Main Office, into divisions, to be designated as the Income Tax Division, Division of Corporations, Division of Inheritance Taxes, Division of Local Taxation, Division of Accounts, and because of need from time to time as additional duties were required of the department certain other divisions and sections which it has been necessary to create. In furtherance of this the Division of Miscellaneous Taxes was established wherein is included all taxes on banks, public service corporations and miscellaneous assessments, and also a Division of Excise Taxes wherein is included the Gasoline Tax and the Alcoholic Beverage Tax. The Insurance Tax is handled by the Commissioner and administered separately.

## GENERAL

### CONSTITUTIONAL

Massachusetts and its political subdivisions, comprising 14 counties and 355 cities and towns, obtains the right to tax for the purpose of raising revenue for governmental activities from the following provisions of the Constitution of Massachusetts:

PART THE FIRST of the Constitution provides in Art. X. "Each individual of the society has a right to be protected by it in the enjoyment of his life, liberty, and property, according to standing laws. He is obliged, consequently, to contribute his share to the expense of this protection; . . ."

PART THE SECOND of the Constitution provides in Art. IV. "And further, full power and authority are hereby given and granted to the general court, from time to time . . . and to impose and levy proportional and reasonable assessments, rates, and taxes, upon all the inhabitants of, and persons resident, and estates lying, within the said commonwealth; and also to impose and levy reasonable duties and excises upon any produce, goods, wares, merchandise, and commodities, whatsoever, brought into, produced, manufactured, or being within the same; . . ."

Under this authority of the Constitution Massachusetts and its political subdivisions have operated for many years. It is quite similar to the provisions found in the constitutions of most of the states of the Union, and out of it grows what is usually spoken of as the General Property Tax. Out of this provision of course grows also the right to lay excises in taxing the privileges given by the sovereign. There is no other provision of the Constitution which in its original form provides for direct taxation. There is a part, however, in the Constitution, as it was originally adopted, which provides for exemptions which take on the characteristics of a tax upon the people. This is found in Chapter 5, Section I, of the Constitution which has to do with particular reference to Harvard College, under the general heading of "THE UNIVERSITY OF CAMBRIDGE, AND ENCOURAGEMENT OF LITERATURE, ETC." Under Section II of this same chapter the broad powers which Massachusetts has exercised in exempting various kinds of property from taxation are worded as follows:

"Wisdom and knowledge, as well as virtue, diffused generally among the body of the people, being necessary for the preservation of their rights and liberties; and as these depend on spreading the opportunities and advantages of education in the various parts of the country, and among the different orders of the people, it shall be the duty of legislatures and magistrates, in all future periods of this commonwealth, to cherish the interests of literature and the sciences, and all seminaries of them; especially the university at Cambridge, public schools and grammar schools in the towns; to encourage private societies and public institutions, rewards and immunities, for the promotion of agriculture, arts, sciences, commerce, trades, manufactures, and a natural history of the country; to countenance and inculcate the principles of humanity and general benevolence, public and private charity, industry and frugality, honesty and punctuality in their dealings; sincerity, good humor, and all social affections, and generous sentiments, among the people."

There have been articles of amendment to the Constitution, under Art. XXXIX of which is permitted betterment assessments on land taken by eminent domain, as follows:

"The legislature may by special acts for the purpose of laying out, widening or relocating highways or streets, authorize the taking in fee by the Commonwealth, or by a county, city or town, of more land and property than are needed for the actual construction of such highway or street: *provided, however*, that the land and property authorized to be taken are specified in the act and are no more in extent than would be sufficient for suitable building lots on both sides of such highway or street, and after so much of the land or property has been appropriated for such highway or street as is needed therefor, may authorize the sale of the remainder for value with or without suitable restrictions." (Approved November 7, 1911.)

In an effort to encourage reforestation of the land of Massachusetts, so as to take forest lands out of the General Property Tax which seemed to encourage the cutting of timber rather than to allow it to grow, there was adopted the following amendment:

"Art. XLI. Full power and authority are hereby given and granted to the general court to prescribe for wild or forest lands such methods of taxation as will develop and conserve the forest resources of the commonwealth." (Approved November 5, 1912.)

Massachusetts having found it difficult as well as apparently unfair to tax the large amount of intangible wealth present in Massachusetts under the general property tax law at the local rate, adopted the following amendment:

"Art. XLIV. Full power and authority are hereby given and granted to the general court to impose and levy a tax on income in the manner hereinafter provided. Such tax may be at different rates upon income derived from different classes of property, but shall be levied at a uniform rate throughout the commonwealth upon incomes derived from the same class of property. The general court may tax income not derived from property at a lower rate than income derived from property, and may grant reasonable exemptions and abatements. Any class of property the income from which is taxed under the provisions of this article may be exempted from the imposition and levying of proportional and reasonable assessments, rates and taxes as at present authorized by the constitution. This article shall not be construed to limit the power of the general court to impose and levy reasonable duties and excises." (Approved November 2, 1915.)

Acting under constitutional powers and following out the general idea of government as set out in the Constitution, the following have been established:

## MASSACHUSETTS GOVERNMENTAL UNITS EXISTING BY TAXATION

|                          |                               |
|--------------------------|-------------------------------|
| City Governments         | Reclamation Districts         |
| Town Governments         | District Enjoying Betterments |
| Metropolitan District    | Transportation Areas          |
| Fire and Water Districts | County Governments            |
| Improvement Districts    | State Government              |

These political subdivisions obtain their revenue from the following:

## MASSACHUSETTS SUBJECTS OF TAXATION

*Polls*

*Old Age Assistance Tax (Head Tax)*

*(Temporary — 1931, 1932 and 1933)*

*Property Taxes*

|                            |                              |
|----------------------------|------------------------------|
| Real Estate                | Intangible Personal Property |
| Tangible Personal Property |                              |

*Excise Taxes*

|  |   |
|--|---|
| Foreign and Domestic Business Corporations (Foreign and Domestic Manufacturing Corporations — Securities Corporations) | Legacies and Successions                      |
| Public Service Corporations  | Estates (80 per cent Federal Tax)             |
| National Banks   | Registered Motor Vehicles                     |
| Trust Companies  | (Use of highways)                             |
| Savings Banks  | Gasoline (Privilege of Registration)          |
| Savings Departments of Trust Companies   | Alcoholic Beverages (Privilege of dealing in) |
| Insurance Companies  | Incorporated Investment Trusts                |
| Savings Bank Life Insurance  | Fees  |
| Massachusetts Hospital Life Insurance Company  | Licenses                                      |
| Stock Transfers  | Betterment Assessments                        |
|  | Fines   |
|  | Tax in Districts                              |
|  | Sales of Property                             |
|  | Charges for Governmental Activities           |

Under the powers granted the following become

## MASSACHUSETTS DIRECT TAX PAYERS

|              |                        |
|--------------|------------------------|
| Individuals  | Voluntary Associations |
| Partnerships | Corporations           |
| Fiduciaries  | Estates                |
| Trusts       |                        |

These people bear what can be called the

## MASSACHUSETTS BURDENS OF TAXATION

|                   |                                  |
|-------------------|----------------------------------|
| Direct Taxes      | Betterment (Special) Assessments |
| Fees and Licenses | Exemptions                       |
| Excises           | Borrowings                       |

In this report an attempt is made to indicate how these burdens are being distributed by the use of tables or corresponding statistical information. The tables and the statistics will be found under the appropriate division of the departmental work. The exemptions which come to the cities and towns as well as to the State and the counties are largely included in Table N and in Table O. (The pages upon which these tables are to be found as well as the other tables quoted can be easily ascertained by reference to the Index in the last pages of the book under the title "Tables.")

The aggregate of municipal indebtedness — general and enterprise debt, and comparisons, together with the net debt as of January 1, 1933, and ratio of net debt to valuation as of cities and towns, are found in Tables H, I, J, K, L and M.

The cost of government in these various governmental units and the sources of revenue will be found in Tables 1, 2, 3, 4, 5, 6, 7, 8, 9 and 10.

Table 2 of this group contains a column dealing with "*Ability to Pay.*"

In addition to these tables which are of general interest, there will be found tables dealing with particular kinds of taxes, as follows:

|          |                                    |
|----------|------------------------------------|
| Table 11 | National Banks and Trust Companies |
|----------|------------------------------------|

- Tables 12 and 13 Savings Banks and Savings Departments of Trust Companies.  
 Table 14 Income Tax.  
 Tables 15 and 16 Foreign and Domestic Business Corporations.  
 Table 17 The Reimbursement which is given by the Commonwealth to Cities and Towns for Taxes lost on Land held by State Institutions.  
 Table 18 Assessed Valuation of Municipalities together with Revenue Distributed by the Department, Property Exempt from Taxation, Equalization of Property for State Tax Purposes, the State Tax, and the County Tax.  
 Table 19 The local situation in respect to Tax Rates, Direct Tax Valuation, Population, Per Capita Valuation and Per Capita Direct Tax.  
 Table 19A Old Age Assistance Special State Tax by Towns.  
 Table 20 Number of Tax Titles reported as held by each Municipality.  
 Table 21 The value of Real Estate and Tangible Personal Property over a period of years, together with State, County and Local Taxes.  
 Table 22 The Collection of Overdue Taxes.  
 Table 23 The Direct Tax on Municipalities together with Bonds required.  
 Table 24 Statistics of Various Kinds of Tangible Personal Property and Real Estate which is Assessed for Purely Local Purposes. (Not printed since 1931 report.)  
 Table 25 Increase and Decrease of detail of Taxable Estate of the current year as compared with previous years. (Not printed since 1931 report.)  
 Table 26 Municipal Determination of current Tax Rates, with Appropriations, Receipts Used, and Free Cash Used.  
 Table 27 Uncollected Taxes of Cities and Towns and Betterment Assessments as of January 1, 1933.  
 Table 28 Polls, Property and Taxes; 1905 to 1931 aggregates, inclusive. (Not printed since 1931 report; see P.D. 19.)  
 Table 29 Revenue for Current Charges, together with Current Charges against Revenue for the years 1930 and 1931.  
 Table 30 General Loans and Temporary Loans for a Series of Years.

The total assessments for certain years laid by the Commissioner of Corporations and Taxation will be found in Table A. Table B gives collections for the current fiscal year. Table BB gives detail of collections with Table C giving the taxes and revenue for that period. Table D shows the distribution of corporation taxes. Table E shows the distribution of the national bank and trust company taxes. Table F shows the distribution to the cities and towns of the proceeds of the income tax.

## CONSTITUTIONALITY OF THE SALES TAX IN MASSACHUSETTS

*To the Honorable the Senate of the Commonwealth of Massachusetts:*

The Justices of the Supreme Judicial Court respectfully submit these answers to the questions set forth in an order adopted on April 5, 1933, and transmitted to them on April 7, 1933, copy whereof is hereto annexed.

The main inquiry raised by the order in its questions numbered one, two and three, as applied to the accompanying bills, is whether it is within the competency of the General Court to levy a duty or excise on sales of produce, goods, wares, and merchandise. Each of these bills, by title or by terms, concerns sales at retail.

The powers of taxation in c. 1, § 1, art. 4, of the Constitution are in these words: "full power and authority are hereby given and granted" to the General Court "to impose and levy proportional and reasonable assessments, rates, and taxes, upon all the inhabitants of, and persons resident, and estates lying, within" the Commonwealth and "to impose and levy reasonable duties and excises upon any produce, goods, wares, merchandise, and commodities, whatsoever, brought into, produced, manufactured, or being within the" Commonwealth. The questions relate solely to "duties and excises" and therefore only that part of the grant of power to tax need be considered. It is not necessary to examine art. 44 of the Amendments to the Constitution, relative to taxation of incomes, because none of the questions touch that subject, although House bill No. 1055 appears to have some connection with it. The grant of "full power and authority" is comprehensive. It does not easily lend itself to implied exceptions, although it must be limited in construction so as to be in harmony with other equally mandatory provisions of the Constitu-

tion. The competency of the General Court to exercise taxation is therefore of broad import. It is thus empowered to impose and levy "reasonable duties and excises." When the word "duties" was adopted as a part of the Constitution, Massachusetts was an independent State with only the loose connection with the other original States afforded by the Articles of Confederation, and it remained such independent State until it ratified the Constitution of the United States and that instrument became established, in accordance with its art. 7, in 1788. Construed in the light of those facts, "duties" included at least the power to collect revenue from goods imported into and exported from Massachusetts, a power surrendered to the United States by art. 1, §§ 8 and 10 of the Federal Constitution. It is not necessary to consider whether it may have a wider meaning because we are of opinion that the proposed tax falls within the description of "excises." The term "excise" was said in *Portland Bank v. Apthorp*, 12 Mass. 252, 256, to be "of very general signification, meaning tribute, custom, tax, tollage, or assessment"; in *Oliver v. Washington Mills*, 11 Allen, 268, 274, to be "a fixed, absolute and direct charge laid on merchandise, products or commodities, without any regard to the amount of property belonging to those on whom it may fall, or to any supposed relation between money expended for a public object and a special benefit occasioned to those by whom the charge is to be paid"; and in *Minot v. Winthrop*, 162 Mass. 113, 119, it was stated that "The excises to which the inhabitants of the Province of Massachusetts Bay were accustomed were taxes in the nature of license fees for carrying on certain kinds of business, taxes on the sale of goods, wares, and merchandise, such as intoxicating liquors, tea, coffee, and chocolate, china ware, etc., and stamp taxes on legal papers." In *Pacific Insurance Co. v. Soule*, 7 Wall. 433, at 445, occurs this language: "Excise is defined to be an inland imposition, sometimes upon the consumption of the commodity, and sometimes upon the retail sale; sometimes upon the manufacturer, and sometimes upon the vendor. [Bateman's Excise Law, 96; 1 Story's Constitution, § 953; 1 Blackstone's Commentary, 318; 1 Tucker's Blackstone, Appendix, 341.]" *Patton v. Brady*, 184 U. S. 608, 617-618. *Opinion of the Justices*, 220 Mass. 613, 618-619. Excises have also been defined as "taxes laid upon the manufacture, sale or consumption of commodities within the country, upon licenses to pursue certain occupations, and upon corporate privileges." Cooley on Taxation (4th ed.) § 42. Without attempting to lay down a precise definition of "excises," it is apparent from what has been said that the proposed tax falls within the kind of exaction of public revenue included within that word in the Constitution.

The words descriptive of the subjects upon which reasonable "excises" may be imposed and levied are "any produce, goods, wares, merchandise, and commodities, whatsoever, brought into, produced, manufactured, or being within" the Commonwealth. The word "commodities" in this connection may have a broader significance than the other words used in conjunction with it, although in common speech it frequently is used in a sense nearly if not quite identical with them. The interpretation of that word has been discussed several times and has been found to involve difficulties. *Portland Bank v. Apthorp*, 12 Mass. 252. *Gleason v. McKay*, 134 Mass. 419, 425. *O'Keeffe v. Somerville*, 190 Mass. 110, 112-113. *Opinion of the Justices*, 195 Mass. 607, 614; 196 Mass. 603; 247 Mass. 589, 593; 266 Mass. 590. The scope of that word need not here be considered. It is manifest from the tenor of the questions in the order, read in the light of the accompanying bills, that the inquiry is limited strictly to sales of tangible personal property, and does not include sales of other property which would fall within the broad definition of "commodities." It is assumed, also, that sales of gasoline are excluded from the scope of the questions because no reference is made in any of the bills to the provisions of G. L. (Ter. Ed.) c. 64A, levying a tax on sales of that article based on number of gallons sold, although it may be open to doubt whether all the accompanying bills make this omission clear. The words "produce, goods, wares, merchandise" are inclusive enough in their meaning according to the approved usage of the language to comprise all articles of tangible personal property usually sold at retail.

The questions and the accompanying bills make clear that the proposed excise is to be levied not upon personal property which is static, but upon a change in its location or a movement in trade wrought by a transfer of title. It is not levied

upon the mere ownership, or the right to hold and possess property, or the exercise of what frequently are termed natural rights. *Opinion of the Justices*, 195 Mass. 607, 614; 196 Mass. 603, 622, 619; 208 Mass. 616, 618-619; 247 Mass. 589. An excise upon sales of tangible personal property based upon a percentage of the sale price bears some resemblance to a property tax; but we think that its dominant feature in the present connection is the change of title and possession necessarily involved in the sale, and not the value, of the property. In this respect it is analogous to the excise on legacies and successions, which is based upon the value of the property, and to the excise on the franchises of domestic corporations under earlier statutes. The context in which the word "excises" occurs in c. 1, § 1, art. 4, of the Constitution renders that kind of a tax appropriately operative upon a change in the location and title of tangible personal property, such as accompanies a sale. Although the quoted words of art. 4 indicate that an excise upon tangible personal property brought across the frontier or State line in consequence of or preliminary to sales was contemplated when the Constitution was adopted in 1780, such sales are expressly excluded from the operation of two of the proposed bills accompanying the order. It is assumed that the questions are based upon the implication that sales in interstate or foreign commerce, not within the taxing power of the Commonwealth under the Federal Constitution, are not contemplated in any proposed legislation. *Brown v. Maryland*, 12 Wheat. 419. *Fairbank v. United States*, 181 U. S. 283, 294-300. The quoted words from art. 4 immediately follow a grant of power "to impose and levy proportional and reasonable assessments, rates, and taxes" upon inhabitants, residents and property. They are designed to be a grant in addition to that previously conferred. They relate to the great sovereign function of taxation upon which government must depend for its support. They are to be interpreted in accordance with the common understanding of voters at the time of their adoption. Thus construed, the words extend to the exercise of the incident of ownership of the designated personal property manifested by the transfer of title and delivery of possession inevitably associated with a sale.

This power to levy an excise need not be confined to a fixed exaction on every transfer, but may be based upon a reasonable percentage of the sale price. It does not thereby become a property tax, provided in size and nature it conforms to the general conception of an excise. *Perkins v. Westwood*, 226 Mass. 268. *Opinion of the Justices*, 195 Mass. 607; 220 Mass. 613. We think that it makes no difference whether the burden of the excise rests finally upon the buyer or upon the seller. *Hart Refineries v. Harmon*, 278 U. S. 499. *Gregg Dyeing Co. v. Query*, 286 U. S. 472.

As matter of construction of language and interpretation of words, we are of opinion that the power to impose an excise upon sales of tangible personal property is conferred upon the General Court. This conclusion finds support by comparison with similar words in the Federal Constitution and decisions touching their meaning.
